Hi! My name is Lilah Krugman, and I am running for SGA senate. I am a sophomore Food Systems major with a minor in Anthropology. In my free time, I enjoy going to Oakledge Park, eating bagels, and watching rom coms. As a leader, I am light-hearted and humorous, but also highly motivated and reliable.

I have been involved in quite a few leadership organizations in my day, but, most notably, I was a Vice President for the Harris-Millis-UHeightsSouth Hall Council. As one of many vice-presidents, I helped to plan events for the community. This experience taught me tremendous amounts about working on a council and with the university.

I decided to run for senate because I am passionate about opening more (or any) late-night on-campus dining options. Many students do not have cars or methods of transportation to access food at night. Even more, late night dining options in Burlington are pretty limited to Dominos and McDonald's. As a school that claims to care about the health of their students, relegating them to these options seems pretty grim. I hope to work with SGA to create an improved late-night dining experience.

Another issue I care about is the current policies regarding COVID-19. Although I live off-campus, many of my close friends live on-campus. The current suspension policies are unjust and must be re-evaluated by the administration. Nobody should feel isolated or trapped in their living environment. SGA must push for a more understanding culture around the subject of COVID.
