

2008/2009 NEW ENGLAND & NEW YORK
DAIRY/MEAT GOAT AND DAIRY SHEEP DIRECTORY

Veterinary Practice Listing

Two years ago, the Cooperative Extension Services from Connecticut, Maine, Massachusetts, New Hampshire, Vermont, and the Rhode Island Dairy Goat Association collaborated to print a 2006/2007 New England Dairy/Meat Goat and Sheep Directory and we listed 77 producers and 27 service providers and veterinarians. It was widely popular and we want to update it and add New York state listings. In the back of the directory there is a useful updated list of state, regional and national resources, associations and websites. See it at www.uvm.edu/sustainableagriculture/smallrumi.html.

We will offer the 2008/9 edition free to download on the web or people may order a hard copy for \$5. Farmers will list for free but will pay a fee of \$5 for a hard copy. Farm service businesses, including veterinarians, are charged only \$15 to be listed and will receive a hard copy automatically. The Small Ruminant Dairy Project at the University of Vermont's Center for Sustainable Agriculture and Department of Animal Science oversees the compilation and sales of the directory.

If your practice offers service(s) to those who raise sheep or goats, please consider listing your business in this new directory. The fee is \$15 and you will receive a hard copy with your application. Forms are available at the www.uvm.edu/sustainableagriculture/smallrumi to download and to fill out, print out and send by mail with the accompanying fee. Credit card payment is available; see back for details. (If you are a breeder and want to have your farm business listed in the breeder/farmer section, call our office for a form (802-656-5459) or go to the above website and download a form. There is no extra charge to add a farm business listing.
