THE UNIVERSITY OF VERMONT

2000-2002 GRADUATE CATALOGUE ADDENDUM

Page 25 Educational and Living Expenses*

**Tuition.** The Tuition and fee charges listed here are for 2001-2002 only and are subject to change in future years. Tuition – Rates for the 2001-2002 academic year are as follows: For Vermont residents, $335.00 per credit hour; $4,020 flat rate for 12 hours and $335.00 per credit hour in excess of 12 hours. For nonresidents of Vermont, $838 per credit hour; $10,050 flat rate for 12 hours, and $838 per credit hour in excess of 12 hours.

The lower rates for Vermont residents are made possible by a subvention to the University from the State of Vermont.

* **Bold, italicized words indicate a change and/or addition to text.**

GRADUATE STUDENT FEES*

**Comprehensive Fee** – based on the number of credits enrolled per semester. Students pay a Comprehensive Fee each semester according to the following schedule: 0-3 (including Continuous Registration), no fee; 4 credits, $52; 5 credits, $60; 6 credits $68; 7 credits, $74; 8 credits, $82; 9-11.5 credits, $88; 12 or more $252.50 (includes health fee).

* **Bold, italicized words indicate a change and/or addition to text.**

COURSE AND PROGRAM INFORMATION*

Pages 35-36 **Anatomy & Neurobiology (ANNB)**

Pages 36-37 **Animal Sciences (ASCI)**

220 New Title: Lactation Physiology
Old Title: Lactation and Milking
New Description: Physiological mechanisms that control and affect lactation in domestic and laboratory animals with emphasis on dairy cattle. Includes mammary anatomy, development and health, and milk synthesis.
New Prerequisites: One chemistry course and one course in anatomy and physiology, or instructor permission.

Pages 43-44 **Botany (BOT)**

234 Ecology of Freshwater Algae.
New Description: Community, population and physiological ecology of algae. Topics include taxonomy, diversity, distribution and seasonal succession, productivity and grazing, growth kinetics, and competitive and synergistic interactions.
Prerequisites: BOT 160 or NR 103 or BIOL 102. Three hours. Hoffman, alternate years.

261 Plant Growth and Development.
Traffic Operations & Design. Advanced concepts of traffic engineering and capacity analysis; highway and intersection capacity; traffic analysis and simulation software; design and application of controls. Instructor: Three hours. Adel W. Sadek

New Title: Community Leadership, Organization, and Institutional Development. New Description: Rose of civic engagement, leadership, and social and political institutions in a community development context. Special attention given to problems of formulation and implementation of alternative change strategies. New Prerequisites: Jr. Standing, CDAE 102, or permission. New Instructor: Schmidt.

New Prerequisites: CS 101

New Prerequisites: 103, 104; MATH 173 recommended.

New Title: Artificial Intelligence
Old Title: Machine Intelligence
New Prerequisites: CS 103, 104, STAT 151

New Prerequisites: CS 103, 104; MATH 124 and MATH 173 recommended.

New Title: Risk Analysis and Forecasting Procedures. New Description: Analytical concepts and skills and their applications in risk analysis related to agricultural and resource markets focusing on decision-making processes. New Prerequisites: STAT 141, CDAE 61, MATH 19, or Instructor permission. New Instructor: Liang.

New Prerequisites: CS 101, 104; MATH 173 and STAT 151 recommended.

New Title: Decision Making for Agricultural and Resource Entrepreneurs. New Description: Quantitative decision-making methods and applications in agricultural and resource businesses. Major topics include linear programming, risk and uncertainty, inventory decisions, and e-commerce. New Prerequisites: CDAE 166, MATH 19, and AGRI 85 or CS 2. New Instructor: Wang.

New Title: Strategic Planning for Agricultural and Resource Entrepreneurs. New Description: Application of marketing, finance, and management strategies. Drafting a simulated business plan for rural entrepreneurs and economic development. New Prerequisites: ARE major or minor or Instructor permission; senior standing. New Instructor: Liang.

New Title: Project Development and Planning. New Description: National, community and private sector project development. Focus on planning methods and policy instruments, sectoral linkages, and contributions to the economy as a whole. New Instructor: Ford.

Delete: Child and Adolescent Psychology.

Change EDLS 377 to EDFS 377

New Title: Instruction for Individuals with Significant Disabilities
Old Title: Instruction for Individuals with Severe Disabilities
New Description: Individualized instruction for learners with significant disabilities emphasizing objectives, assessment, task analysis, and behavior analysis

New Title: Students with Significant Disabilities: Characteristics and Educational Interventions
Old Title: Physical and Developmental Characteristics of Individuals with Multidisabilities
New Description: Normal development – birth through six years, developmental disorders, disabilities, medical/health considerations. Management of significant disabilities through the employment of such procedures as handling, positioning, and feeding

**Historic Preservation/History (HP)**

301A  Change to HP 304.  
New Title: *Seminar in Contemporary Preservation Planning and Policy.*  
Old Title: *Historic Preservation Contemporary Practice.*  
New Description: This introduction to the professional practice of preservation planning traces the evolution of the historic preservation movement and examines contemporary preservation policy-making issues. Prerequisites: HP graduate majors only. Three hours. McCullough.

301B  Change to HP 305.  
New Title: *Historic Preservation Practice Methods.*  
Old Title: *Historic Preservation Contemporary Practice.*  
New Description: This course introduces students to professional practice methods for conducting historic site and structures surveys. National Register nominations, and rehabilitation investment tax credit application projects. Prerequisites: HP graduate majors only. Three hours. McCullough, Gilbertson, Visser.

**History (HST)**

261  Delete: *Seminar in Latin American History: Early Latin American History.*

262  New Title: Seminar in Caribbean & Latin American History.  
Old Title: *Seminar in Latin American History: Modern.*  
New Description: Selected topics in Caribbean and Latin American History. Dungy

**Mathematics (MATH)**

241  New Prerequisites: MATH 52, 121, 124 or instructor permission.

251  New Prerequisites: MATH 52, 124 or instructor permission.

268  *Chaos, Fractals, and Dynamical Systems.* Discrete and continuous dynamical systems, Julia sets, the Mandebrot set, period doubling, renormalization, Henon map, phase plane analysis and Lorenz equations. Co-requisites: MATH 271 or 230 or instructor permission. Three hours. Yang.

**Mechanical Engineering (ME)**

249  *Computational Fluids Engineering.* Computational methods for solving the Navier-Stokes equations and combined thermo-fluid flows; finite-difference and finite-volume techniques; use of standard commercial CFD software. Prerequisites: ME 143 or equivalent. Three hours. Hitt.

**Microbiology & Molecular Genetics (MMG)**

254  Change to MMG352. New Prerequisites: Agricultural BIOC 201 or BIOC 301, and 302 or equivalent. New Cross-Listing: BIOC 352. Pederson

320  New Title: *Cellular Microbiology.* New Description: Utilizes primary literature to explore the cellular and molecular basis of microbial pathogenesis caused by viruses, pathogenic bacteria and protozoan parasites. New Credit Hours: 4. New Instructors: Stein, Ward, Thali.
**Page 86-87  Molecular Physiology and Biophysics (MPBP)**

201-202 *Human Physiology & Exercise.* A comprehensive in-depth presentation of the scientific basis of human function. Primarily for physical therapy students; a limited number of others may be admitted with permission. Prerequisites: CHEM 23 and 42 or equivalent, two semesters general physics, one semester mathematics, permission. Three-Three Hours. Instructor: Berger.

**Pages 87-90  Natural Resources – Wildlife and Fisheries Biology (WFB)**

**Pages 90-92  Nursing (GRNU)**

334 Delete: *Theory & Practicum in Primary Health Care I.*

335 Delete: *Theory & Practicum in Primary Health Care II.*

350 *Theory and Practicum of the Primary Care of Children.* This course provides the theoretical basis for the primary care of children. An opportunity to apply and evaluate theories and research is provided in clinical settings. Prerequisites: GRNU 305, 310, 333. Five Hours. Pre/Corequisites: GRNU 306, 308 and 300 or 320.

351 *Assessment and Health Maintenance of Adults: Practicum.* Course provides opportunities for students to solidify knowledge of health assessment and initiate and evaluate interventions focusing on maintenance and enhancement of health of adults. Prerequisites: GRNU 305, 333. One hour.

352 *Theory and Practicum of the Primary Care of Women (FNP).* Course provides the theoretical basis needed by FNP for the primary care of women. Opportunities for application are provided through a 67.5-hour practicum. Prerequisites: GRNU 305, 306, 308, 310, 333. Pre/Corequisites: GRNU 307 and 300 or 320. Three hours.

353 *Theory and Practicum of the Primary Care of Women (ANP).* Course provides the theoretical basis needed by ANP for the primary care of women. Opportunities for application are provided through a 67.5-hour practicum. Prerequisites: GRNU 305, 306, 310, 333. Pre/Corequisites: GRNU 307 and 300 or 320. Two and a one half-hour.

354 *Theory and Practicum of the Primary Care of Families I.* This course focuses on the assessment, diagnosis, management and evaluation of acute and chronic health conditions commonly encountered in primary care. Prerequisites: GRNU 305, 333, 351. (Prerequisites: GRNU 308 & 350 for FNP Students.) Pre/Corequisites: GRNU 307, 352/353. Five Hours.

355 *Theory and Practicum of the Primary Care of Families II (FNP).* Focus is on refinement of diagnostic and ethical judgments and therapeutic interventions used by FNP in the provision of primary health care. Prerequisite: GRNU 354. Nine hours.

356 *Theory and Practicum Care of Families II (ANP).* Focus is on refinement of diagnostic and ethical judgements and therapeutic interventions used by ANP in the provision of primary health care. Prerequisites: GRNU 354. Six and one half hours.

357 *Advanced Nursing Practice of Older Adults.* Focus on health and disease and associated care and treatment of older persons by the advanced practice nurse. GRNU 310. Two hours.

358 *Practicum of Primary Care of Adults (Special Populations).* Students refine their assessment, diagnostic and management skills for a specific clinical specialist. GRNU 353, 354, 307. Three hours.

359 *Primary Care in a Family Practice Setting: Clinical Integration.* Integration of the multidimensional aspects of the FNP role is the focus of this course. Prerequisites: GRNU 350, 352. Three hours.

363 Delete: *Theory & Practicum in Primary Health Care III (Adults).*

364 Delete. *Theory & Practicum in Primary Health Care III (Family).*
New Credit Hours: Variable 1-3

New Credit Hours: Variable 1-6.

Pages 94-97  **Physical Therapy (PT)**

**PREREQUISITES TO THE MPT PROGRAM**

Students must have completed 2 semesters of college chemistry, with laboratory, including introduction to organic chemistry; 2 semesters of college physics, with laboratory; and 1 semester of college math at least at the pre-calculus level, calculus preferred, or statistics.

* Bold, italicized words indicate a change and/or addition to text.

201 New Corequisites: PT 211, 221. Three hours. Nelson.

211 New Corequisites: PT 201, 221. Two hours. Zimmy.

221 New Corequisites: PT 201, 211. Two hours. Wu.

Pages 98-99  **Plant and Soil Science (PSS)**

215 Change Credit Hours for 3 to 2

217 Change Credit Hours from 3 to 2

223 Change Credit Hours from 3 to 2.

Pages 104-106  **Social Work (SWSS)** *

First Paragraph: Remove *Research Assistant Professor Felicio*

**MASTER OF SOCIAL WORK**

Replace first sentence in the second paragraph with the following:

*In 2000-2001, a cohort of part-time students was admitted to the first year of the M.S.W. Program via a Distance/Off Campus option. Application for accreditation of this option was made during the spring 2001 semester. The option for them to complete the second half of the program via Distance/Off-Campus delivery rests on its accreditation. The Department of Social Work plans to make this option available to future applicants after it is accredited and in tandem with acquisition of the requisite university resources. This option enables students to complete the program on a part-time basis over four years. Each course is planned with a combination of distance delivery methods and live gatherings. Field practice, to be completed during the second and third year of the program, will be available in regions around the state. This course requirement entails 15-20 weekday (Monday-Friday) hours of fieldwork per week. Therefore, prospective students should plan ahead to arrange their schedules in order to accommodate the years when participation in the program entails taking the 15-20 hour a week practicum (3 credits per semester), a monthly field practicum seminar (1½ hours each meeting), and a social work practice course (3 credits per semester).*

* Bold, italicized words indicate a change and/or addition to text.
REQUIREMENTS FOR ADMISSION TO THE GRADUATE STUDIES FOR THE DEGREE OF MASTER OF SOCIAL WORK*

6. Demonstrated achievement of designated liberal arts content in their undergraduate studies including some courses in each of the following areas; social sciences (defined as including sociology, political science, anthropology, economics, etc.); behavioral and life sciences (defined as including psychology, human biology, human ecology, etc.); and humanities (defined as including history, philosophy, English, literature, religion, etc.). Most specifically, students must have completed at least one course in human biology and one in statistics. If they have not done so at the time of admission, they must complete these two prerequisites prior to starting the first fall semester of study in the advanced practice concentration curriculum.

7. Submission of a resume with their application materials before consideration of their file.

In addition to the above, the typed statement of purpose and written references (at least one of which is an academic and one of which is a human services reference) are also important sources of information regarding the qualifications and experiences of applicants. For the academic year 2001-2002, a non-refundable deposit of $200 is required of accepted candidates to hold their place in the upcoming class; the deposit is applied toward the cost of the program when students become officially enrolled. Applicants should contact the Department of Social Work (802-656-8800) to receive an MSW Program Bulletin.

Applicants with a Bachelor of Social Work degree from a program accredited by the Council of Social Work Education (CSWE) may apply for Advanced Standing to the MSW program. Students granted advanced standing may waive certain program (Foundation) requirements. Full-time advanced-standing students start their programs in January of each year, while all other students start their programs in the fall semester. This option is not available to students entering the program during the 2001-2002 academic year.

* Bold, italicized words indicate a change and/or addition to text.

MINIMUM REQUIREMENTS FOR THE DEGREE OF MASTER OF SOCIAL WORK*

Replace first paragraph with the following:

The Master of Social Work degree requires 60 credits of graduate study, unless students are admitted with Advanced Standing status. Advanced Standing status requires a minimum of 42 credits and is granted solely to students who have earned a Bachelor’s degree in a program accredited, or acknowledged as being equivalent to a Bachelor’s in Social work, by the Council on Social Work Education. Both groups of students must take all required and three of their nine elective credits in social work courses. At least six of these elective credits must be taken during the second half of the program. The policies and standards for maintaining program accreditation do not permit the granting of academic credit toward graduation for life experience.

* Bold, italicized words indicate a change and/or addition to text.

Pages 106-108 Statistics (STAT)

211  Statistical Methods I.
    New Description: Fundamental concepts for data analysis and experimental design. Descriptive and inferential statistics, including classical and nonparametric methods, regression, correction, and analysis of variance. Statistical software.

353  Delete: Modeling and Estimation of Animal Populations
