

Conservation Practices on Farms in St. Albans Bay

Event Details

Thursday, Sept. 7, 2017

12:30 p.m. to 3:00 p.m.

Meet promptly at 12:30 p.m. at UVM Extension, 278 S. Main Street, St. Albans, VT

We will have a bus tour to five (5) stops in the St. Albans Bay Watershed

UVM Extension Northwest Crops & Soils Program (NWCS), USDA Natural Resources Conservation Services (NRCS), and Farmer's Watershed Alliance (FWA) welcome you to a tour of the St. Albans Bay Watershed to view conservation agronomic practices that are being done on farms in the Bay. We will take a bus tour of the Bay and stop at 5 farms to observe the agronomic practices, which include no-till, roller crimper technology, reduced till, cover cropping, and conservation crop rotation. You will also see innovative equipment, including the roller crimper. Speakers will include John Thurgood and Sarah Larose of NRCS and Jeff Sanders and Heather Darby from UVM.

This event is free, but please R.S.V.P. by Tuesday, Sep 5, by contacting Susan Brouillette at: 802-524-6501 or susan.brouillette@uvm.edu.

To request a disability-related accommodation for this program, contact Susan Brouillette at 802-524-6501 or 1-800-639-2130 (Vt. only) by August 30.
