No-Till Intensive Trainings

The University of Vermont Extension is offering a **FREE No-Till Intensive Training for Agricultural Service Providers (ASPs)!**

**Webinar Trainings—8 CCA credits, 1 pesticide credit**

Each webinar will host a farmer, researcher, or other expert practitioner. The classes will discuss common obstacles to implementing a successful no-till program, address these issues through field proven technical knowledge, and follow a training plan that will best enable the Agricultural Service Provider to support the farmers in the no-till practice transition.

**No-Till & Cover Crop Symposium—5 CCA credits per event**

Participating ASPs will attend both the 2019 and 2020 symposiums at no cost to them! Next year’s event is scheduled for February 28, 2019 in Burlington, Vermont.

**In-Field Intensive Training—6 CCA credits per training**

Four (4) in-field intensive trainings will be offered during Summer/Fall 2019. Participating ASPs are required to attend at least one. The in-field intensives will be held in Maine, Massachusetts, and Vermont. They will be hosted by local collaborating farms that have incorporated no-till into their crop management systems. These hands-on workshops will foster a stronger working knowledge of no-till equipment, soil health, fertility, and technology used to make no-till systems successful.

**Interested in Enrolling? Register by October 15th, 2018!**

*Sign up online today at: [https://no-till-intensive-trainings.eventbrite.com](https://no-till-intensive-trainings.eventbrite.com)*
