

MANURE APPLICATOR SPRING WORKSHOP SERIES

Come join UVM Extension at one of our Manure Applicator Training Workshops.

If you are a custom applicator, seasonal employee, or farmer who has questions about the RAPs and their implications for spreading manure and nutrients, please come to one of these events!

Topics include buffers along surface water and ditches, manure spreading ban dates, soil conditions for manure application, how to read a nutrient management plan (NMP), methods to minimize run-off of manure and its associated nutrients, and recordkeeping requirements.
Plus equipment demonstrations!

Below are a list of dates, times, and locations of workshops.

March 21, 10:00-2:00: Team Wood's Shop, 6046 Rte. 22A, Shoreham

March 22, 9:00-1200: Domina's Farm, 300 Patterson Rd., Franklin

March 23, 10:00-2:00: Leach Family Farm, 4418 Rte. 30, Pawlet

March 28, 9:30-11:30: Kelley-View Farm, 734 Hinman Settler Rd., Newport

March 30, 10:00-2:00: Tim Magnant's Farm, 4826 Hanna Rd., Franklin

Light refreshments will be provided.

These events are free, but space is limited at some locations so please RSVP.
