There are many ways youth can participate in the Vermont 4-H Program!

Vermont 4-H events and activities give children the opportunity to share their own unique gifts or talents and provide physical, mental, social and emotional growth experiences for individual 4-H members. 4-H events are a part of the total learning experience a youth may have in 4-H.

Competitive events allow youth to enhance decision-making capabilities, make public presentations; learn standards by which comparisons are made, and develop good sportsmanship.

Some events have eligibility requirements which may include qualifying events at the county or state level or an application process. Most out of state opportunities require that member’s record books be reviewed. Some project areas like livestock and shooting sports may have additional requirements. See www.uvm.edu/extension/4hprojects.

Many events are designed with 4-H members’ age in mind... we often refer to events for “juniors” (ages 8 – 13) and “seniors” (beginning at age 14). 4-H members’ ages are determined as of January 1st of the current 4-H year.

We do not design competitive events for younger members, ages 5-7.

Competitive events allow youth to gain experience and develop skills in gathering, preparing and presenting educational information.
