Join us for a day of fun & sewing at this workshop on upcycling! **Upcycling** is taking a used item that no longer has a purpose & repurposing it, often in craft or art projects. Fine tune your sewing skills & learn how to make some cool gifts, accessories, & bags. Open to all levels & abilities. Youth do not need to be in a 4-H to participate. Bring your creativity!

**What to bring:**
- A brown bag lunch
- Please bring a sewing machine if you have one & your sewing kit of must haves (like scissors, seam ripper, bobbins, needles, etc.) Some extra machines will be available for those who do not own a machine. Youth may need to share machines. Thanks!
- Please bring 2 old t-shirts, a pair of jeans, and any scrap fabric, buttons, & embellishments to jazz up your creations! These items **will** be cut up so be careful when selecting your items to bring. You can also purchase items to upcycle inexpensively at second hand shops too! Plain t-shirts with no logos or paint on them are great for making pet toys & dog chews. If you want to participate in this project, bring a plain t-shirt or two!

**Registration**

Please register by September 28, 2017. Participation will be capped at 20 youth. Send registrations to Allison Smith at Allison.smith.2@uvm.edu, 802-476-2003, or mail to UVM Extension, 327 US Route 302, Barre, VT 05641.

Name: ___________________________________________ Age: __________
Phone #: __________________________________________
Email: ____________________________________________

Will you be bringing your own sewing machine? Yes______ No______

If bringing your own machine are you willing to share with another participant? Yes_____ No______

Are you a current 4-H member? If so, please list your club: ____________________________

Parents are encouraged to attend to assist youth & instructors. To request a disability-related accommodation to participate in this program, please contact Rose Crossley at 802-476-2003 or 866-860-1382 (toll-free in Vt.) by September 21, 2017 so we may assist you.
