The Vermont 4-H Working Steer Workshop is designed for members to receive expert instruction on the use and care of working steers. 

The workshop will consist of the following three revolving stations, and at each station, members will receive expert one-on-one instruction and have an opportunity to work with their animals:

- **Fitting and Showmanship** covers how to present you and your cattle in the show ring.
- **Ox Cart Obstacle Course** will give you a chance to hook to a 2-wheeled ox cart and maneuver through a series of obstacles.
- **Stone Boat Instruction** will show you how to work your animals on a chain.

Your animals’ health papers and approval forms will be checked.
