

What mysteries does this park hold?

Did you know...?

What is currently Oakledge Park, was once owned by the Webb family who moved on to build Shelburne Farms. The main building was later used as Oakledge Manor, a country club/resort. Along with this building, cottages and various sports field existed in this area. Wonder about the park and discover traces of the past. Evidence throughout the park proves an existence of the Webb's and many others, perhaps you can discover some of these artifacts from the past.
