Background

This mini-manual contains detailed instructions on how to complete and approve Travel and Expense forms/reports. The content is written for both travelers and their approvers. This document applies to UVM employees who handle their own Travel and Expense forms, as well as their delegates.

NOTE: Departments previously served by the Administrative Business Services Center (ABSC) may still use the ABSC Expense Reimbursement Form but should now forward information to travel@uvm.edu. Instructions for the ABSC expense report process, and the expense report form itself, can be found here. Please contact travel@uvm.edu if you have questions regarding this expense reporting process.

Delegate Entry Authority to Other Users

Background: Delegating Entry Authority is a feature of PeopleSoft which allows an employee to authorize someone else to enter Travel and Expense forms into PeopleSoft on their behalf. Be aware that colleges or departments within the University may have specific directives on this matter. Check with the departmental business manager.

NOTE: Even though an employee has delegated authority to another to enter Travel and Expense forms, s/he is still responsible for understanding the Travel Policy, and for the accuracy, timeliness, and completion of the reports.

1. Log in to PeopleSoft through the Financials login (https://www.uvm.edu/~erp/portal/).
2. Navigate to: Main Menu > Employee Self Service > Travel and Expense Center > Profiles and Preferences > Delegate Entry Authority.
3. A page will display showing a list of those authorized to create and/or modify expense forms (expense reports, travel authorizations and cash advances) for the employee. At a minimum, the employee Name and User ID should appear.

4. Click the + (plus) sign to add a blank line.
5. Click the Look Up icon to search for the appropriate User ID.
6. In this case, the User ID is equivalent to the UVM Net ID. If an individual’s Net ID is unknown, the easiest place to find it may be at the bottom of their UVM Online Directory listing. It is often, but not always, the first initial of a person’s first name, followed by the first several letters of their last name.
7. Enter the first couple letters of the individual’s NetID and click on Look Up. Choose the ID of the person to be authorized by clicking on it within the Search Results table.

8. Click the Save button.

9. To add additional authorized users, repeat Steps 7-9 as often as needed.

10. To delete an authorized user, simply click on the – (minus) sign at the end of their line and their name will be removed from the list.

Travel Authorization Information

Responsibilities

- The traveler or delegate is responsible for creating and submitting a Travel Authorization if obtaining a cash advance or if required by the department.

- The traveler or delegate is responsible for confirming that the chartstring on the Travel Authorization is correct, since this transaction will create an encumbrance on the chartstring used.

- The traveler or delegate is responsible for ensuring that the Travel Authorization is used when creating the corresponding Expense Report.

- The traveler or delegate is responsible for canceling or deleting unused Travel Authorizations by the end of the fiscal year if the Travel Authorization was not used, to clear the encumbrance from the chartstring.

Travel Authorization Tips & Reminders

- Click Save for Later button after entering each line.

- To duplicate selected lines on the Travel Authorization (for similar expenses to list on multiple days), click in the box to the left of the expense line(s) to copy in the column marked Select, then click on the Copy Selected button.

  NOTE: Choose whether to copy to one date or to a range of dates and whether to include weekends and/or holidays. When done, click the OK button.

- To delete selected lines on the Travel Authorization, click in the box to the left of the expense line(s) in the column marked Select, and click the Delete Selected button.

- If additional expense lines are needed, click on the + (plus) sign at the end of the last expense line.

  NOTE: Alternatively, ensure that New Expense is selected in the drop-down box underneath the last expense line, and then click the Add button.
Create a Travel Authorization from a Blank Form

A Travel Authorization must be created in order to receive a cash advance. Also, particular departments may require a Travel Authorization for some or all travel. Be sure to check with the appropriate business manager.

1. Log in to PeopleSoft through the Financials login (https://www.uvm.edu/~erp/portal/).

2. Navigate to: Main Menu > Employee Self Service > Travel and Expense Center > Travel Authorization.

3. Click Create.

   NOTE: If an employee has been delegated entry authority for another individual, see How to Create a Travel Authorization for Other Employees.

4. Select A Blank Authorization in the Quick Start drop-down list. NOTE: Most often, A Blank Authorization is the default.

5. Click Go. A new Travel Authorization from a blank form will open.

6. Type a short, meaningful description of the expense in the *Description field (e.g., 2012-01 Recruiting Trip to Boston). This description is largely for personal benefit, as it will help to find this Travel Authorization in the future.
7. Click the **Business Purpose** drop-down list. Select the entry in the list that most closely identifies the purpose of the trip. See the graphic below.

8. Click in the **Trip Description/Dates/Comment** field and describe the particulars of this travel authorization. The actual destination(s) and dates of trip MUST be entered along with whatever other details seem pertinent.

9. Click on the **magnifying glass** icon for the **US State / Country** field and select one of the following:
   - Country – if for an international location
   - State – if for a state other than Vermont
   - County – if for a location in Vermont

   **NOTE:** If traveling to multiple destinations, select the first destination in the **US State/Country** field, and enter subsequent destination on the **Expense Detail** pages.

10. Enter the beginning and end dates of the trip in the **Date From** and the **Date To** field, or select the dates by clicking on the **Calendar** icons.

   **NOTE:** These must be dates in the future.
11. Click the first drop-down box under Expense Type and select either Encumbrance-Domestic Trip, or Encumbrance-Foreign Trip. Selecting and including all anticipated expenses together on one line will simplify the process. Some departments may require that anticipated expenditures are itemized on multiple lines. Ask the department business manager if uncertain.

- If anticipated expenditures must be itemized, select an appropriate expense type instead of one of the two Encumbrance choices above.
- Mileage rate calculations can change at any time, do not choose Mileage as an Expense Type for a Travel Authorization. If mileage is chosen, it will produce an error message preventing the form from being saved or submitted.

12. Click the Detail link at the far right of the row. The Authorization Detail page will open where all of the required information related to this particular expense line can be entered.

13. Enter the first day of the anticipated travel in the Date box, or choose the date by selecting the calendar icon.

14. Choose a Payment Type from the drop-down list. This entry represents how the expense is anticipated to be initially paid (credit card or cash).

15. Leave the Billing Type as UVM Internal.

16. Enter the anticipated amount (in US Dollars) in the Amount field.
17. The **Location Amount** field under the **Exceptions Comments** heading allows for an explanation of why a particular expense might be higher than is generally acceptable for this expense type.

18. Click the **Check Expense for Errors** button.

   **NOTE:** For instructions on itemized expenses read **Steps 31 through 38**.

19. If there are errors or omissions, they will be flagged at the top of the screen and the lines or boxes in question will be highlighted.

20. Correct or complete the highlighted fields and click **Check Expense for Errors** (repeat process until there are no longer any fields highlighted).

21. If a check for errors indicates an error in the chartstring, it means that the default chartstring attached to the Travel Authorization is not being recognized by PeopleSoft as being valid. Click on **Accounting Detail** and correct the problem. For guidance, speak with the departmental business manager for chartstrings related to operational expenses. For chartstrings related to grants, contact Sponsored Project Administration.
   - When there is a problem with a chartstring, the Travel & Expense module only highlights the first field in the chartstring—the GL Unit (which should always read UVM01). This is not typically where the problem resides. Look for a problem further to the right with an incorrect field or an incomplete chartstring.
   - Click on the **magnifying glass** icon beside the chart field(s) which must be changed, and select the correct value from the **Search Results** displayed. Adjust the entire chartstring as required.
NOTE: If there is a problem, click the **Restore Defaults** button which will restore the chartstring to the way it was before changes were made.

- Never change the **Account** field. This automatically populates based on the Expense Type chosen.

**NOTE:** Valid chartstrings will at a minimum contain entries in the Operating Unit, Department, Fund, Source and Function fields. If there are no numbers for the Program, Purpose and Property fields, these fields must contain zeros. Other fields not specifically mentioned here may be left blank, but these fields may not.

22. If it is necessary to split this expense into two or more chartstrings, click the **Add Chartfield Line** button to add additional pre-populated lines which may then be adjusted if necessary.

23. When adjusting the chartstring(s) is complete, click **OK** to return to the **Detail Page** for this expense line.

24. Click **Return to Travel Authorization Entry** at the bottom of the screen.

25. If the **Travel Authorization** will include only one expense line, go to Step 30.

26. If a department requires anticipated expenses to be itemized (rather than using one of the **Encumbrance** choices), the next several steps may be helpful. If it is necessary to add additional expenses to this Travel Authorization, do so by repeating **Steps 11-24**.

**NOTE:** When adding multiple expense lines, it is always a good idea to select the **Save for Later** button often.
27. To duplicate selected lines on the Travel Authorization, (to list similar expenses on multiple days) click in the box to the left of the expense line(s) to be copied, in the column marked Select (doing this puts a checkmark in that box). Click on the Copy Selected button. (Choose whether to copy to one date or to a range of dates and whether to include weekends and/or holidays.) When finished, click the OK button.

28. If more expense lines are needed, click on the + (plus) sign at the end of the last expense line to add a new line(s). Ensure that New Expense is selected in the drop-down box underneath the last expense line, and then click the Add button.

29. To delete lines on the Travel Authorization, click in the box to the left of the expense line(s) that requires deletion, which is in the column marked Select, and click the Delete Selected button.

30. Complete all required fields. Required fields are denoted by an asterisk at the beginning of the column headings and vary according to expense type.

31. When all the expenses have been entered on the Travel Authorization, click the Check for Errors button on the main report screen in order to perform one final check. This will ensure that all required information has been submitted.
32. Click the Save for Later button which assigns a unique Authorization ID number to this Travel Authorization.

**NOTE:** A Cash Advance cannot be created until the Travel Authorization has been saved. The Authorization ID number is needed in order to fill out the Cash Advance.

To begin the creation of a Cash Advance at this time, click the Create a Cash Advance hyperlink at the bottom of the page. When creating the Cash Advance from this point, it copies the Description and Business Purpose from the Travel Authorization. See the Create a Cash Advance section for more information.

Travel Authorizations cannot be printed until they have been saved or submitted. After the Authorization has been saved, click the Printable View hyperlink and use the browser’s PRINT button to print a copy.

For additional information regarding printing Travel and Expense forms see the mini-manual PeopleSoft Tips.

33. When the Travel authorization is complete, submit it for approval. Click Submit.

34. When the Submit Confirmation page appears, click OK.

**NOTE:** The report is sent to the appropriate approver’s workflow. Once a report is submitted, it is no longer accessible for editing.

   **NOTE:** Delegating Entry Authority is a feature of PeopleSoft. Be aware that colleges or departments within the University may have their own directives on this matter. Check with the appropriate business manager.

2. Ensure that the Add a New Value tab is selected. Leave the EmplID box empty and click the magnifying glass icon. This will bring up a list of all employees that Travel Authorizations can be created for. Choose the appropriate EmplID from the search results table.

3. Click the Add button to create a new Travel Authorization.

4. Proceed with Step 4 in the Create a Travel Authorization section of this manual.

Cancel an Approved Travel Authorization

The two most typical reasons for canceling a Travel Authorization are:

1. The trip was canceled, or

2. The expense report was created from a blank form or a template rather than from the travel authorization.
   - To cancel a Travel Authorization, the report must be approved. It may be canceled either before or after the departure date, but only while it is in Approved status.
   - The traveler or the traveler’s delegate(s) may cancel a Travel Authorization.

Instructions to Cancel an Approved Travel Authorization

1. Log in to PeopleSoft through the Financials login (https://www.uvm.edu/~erp/portal/).

2. Navigate to: Main Menu > Employee Self Service > Travel and Expense Center > Travel Authorization.

3. Click the Cancel link.
   - If the user is the traveler, the page that opens will be entitled: Cancel Approved Travel Authorization, and will list all of the travel authorizations which are in Approved status.
   - If the user is the person who has been delegated entry authority for another individual, the appropriate name will need to be selected from a list.
   - Click the magnifying glass icon to the right of the Employee ID field to bring up a table listing all those for whom entry authority is available. Choose the appropriate name from the list.
   - Click the Search button to bring up all the Travel Authorizations under that employee’s name which are in Approved status.
4. Place a checkmark in the **Select** box beside the Travel Authorization(s) to cancel.

Delete a Travel Authorization

In the following two situations, a Travel Authorization can be deleted:

- If the Travel Authorization has been created but not yet submitted, or
- If the Travel Authorization has been submitted and the approver has sent it back. In other words, if the creator has access to modify it, then they also have access to delete it.

The traveler or the traveler’s delegate can delete a Travel Authorization.

1. Log in to PeopleSoft through the Financials login (https://www.uvm.edu/~erp/portal/).

2. Navigation: Employee Self Service > Travel and Expense Center > Travel Authorization

3. Click Delete.

- If the traveler, the page that opens will be entitled: Delete Travel Authorization, and will list all of the travel authorizations which are in Denied status.
- If the person with delegated entry authority for another individual, the appropriate name will need to be selected from a list.

- Click the magnifying glass icon to the right of the Employee ID field and bring up a table listing all those for whom entry authority is available. Choose the appropriate name from the list.

- Click the Search button to bring up all the Travel Authorizations under that employee’s name which are in Denied status.
4. If entry authority has been delegated to someone for another individual, click **Delete**, which will open a page requesting the **Employee ID** of the traveler (see the screenshot below). Click the **magnifying glass** icon to bring up a list of all employees for whom entry authority has been granted. Choose the appropriate **EmplID** from the search results table.

5. A page will open showing the Travel Authorization(s) available for deletion.

6. Click the check box under **Select** for the Travel Authorization(s) to be deleted.

7. Click the **Delete Selected Authorizations** button.
   
   **NOTE**: Once a Travel Authorization is deleted, it cannot be reversed.

   A confirmation will appear stating the selected Travel Authorization has been deleted:

8. Click the **OK** button to confirm acknowledgment of the deletion.
Cash Advance Information

Responsibilities

- The Cash Advance process requires that the Travel Authorization be created first so that the information from the Travel Authorization may be entered onto the Cash Advance.

- It is recommended that the Authorization and Advance is submitted AT LEAST TWO WEEKS PRIOR to the departure date. This will allow General Accounting and the department approvers enough time for normal processing, and it will also allow time in case problems arise. Contact General Accounting immediately if approval is needed for special circumstances.

- The traveler or the delegate should check the status of the cash advance prior to arriving at the Cashier's Office in Waterman. If the status is Approved by the Prepaid Auditor, there will be a blue cash advance form in the cashier’s office for the traveler. The traveler will only be issued an advance from this blue form.

- An approved Cash Advance will be available for pick up in the Cashier’s Office five business days before the trip. Only the traveler can pick up the cash or traveler’s checks. The traveler must present a valid UVM ID.

- Upon acceptance of the Cash Advance, the traveler will be responsible for the University’s funds and is required to abide by all University travel policies and procedures.

- The traveler is personally responsible for the Cash Advance until the balance is either returned to the University, or the funds are fully accounted for via an Expense Report. The use of these funds must comply with the Travel Policy. If appropriate documentation is not supplied to the University upon completion of the trip, the traveler will be responsible for reimbursing the University.

- Travelers are responsible for the Cash Advance and subsequent Expense Report even if a delegate has entered the form on behalf of the traveler.

Cash Advance Tips and Reminders

Delegating Entry Authority is a feature of PeopleSoft; however, it is recommended as a best business practice that employees enter their own expense forms. Be aware that colleges or departments within the University may have their own directives on this matter. Check with the departmental business manager.

- Submit Travel Authorization and Cash Advance forms at least two weeks prior to the departure date. This will allow the Disbursement Center and the departmental approver adequate time for normal processing and additional time to submit in case problems arise. Contact the Disbursement Center to get approval for special circumstances.
The Cash Advance process requires that the Travel Authorization be created first to be able to use the Travel Authorization as a template to pre-populate the Cash Advance with necessary information.

Workflow for the approval of Cash Advances is based on the default chartstring in the employee travel profile. The approver for that chartstring may reassign the cash advance from their own worklist to the worklist of an approver in another department if necessary.

If the amount of the Cash Advance needs to be changed, the original Cash Advance must be deleted before creating a new one. Contact the Disbursement Center for assistance.

Approvers must ensure that the Travel Authorization is completed correctly and approved before approving the Cash Advance.

The Disbursement Center will return a Cash Advance request that has not been completed properly. Although this may change in the future, there is currently no notification through PeopleSoft when a Cash Advance is sent back. Until a change can be made in the system, it is the responsibility of the traveler or their delegate to proactively check the status of the Cash Advance using the View function.

To understand why a Cash Advance request has been returned, navigate to it via Employee Self-Service > Travel and Expense Center > Cash Advance > Modify, then open the red hyperlink at the top of the form on the right. Read the whole message. Contact the Disbursement Center with any questions regarding this message:

Denied  Trip dates have passed and an expense report has been subm

If the status of a Cash Advance is not Approved by the Prepaid Auditor and it has not been returned, it may be stuck in the workflow. Contact the Disbursement Center for assistance. A Footprint may need to be submitted.

Cash Advances will not be issued based on the traveler's copy of the form. Travelers only need to print out and bring their copy of the cash advance form to the Cashier’s Office when they are returning money after a trip is completed.
Create a Cash Advance

In order to receive funds to travel, a Cash Advance needs to be created in PeopleSoft. The instructions below will detail this process.

**NOTE:** To create a Cash Advance, a Travel Authorization form must first be completed. See Create a Travel Authorization for instructions.

1. Log in to PeopleSoft through the **Financials** login ([https://www.uvm.edu/~erp/portal/](https://www.uvm.edu/~erp/portal/)).

2. Navigation: **Employee Self Service > Travel and Expense Center > Cash Advance**

3. Click **Create**.

   **NOTE:** If entry authority has been delegated to someone for another individual, see the section Create a Cash Advance for Other Employees.

4. Type a short, meaningful description of this Cash Advance in the **Description** field (e.g., 2010-01 Sustainability Conf). This description is helpful when trying to find this particular Cash Advance in the future.

5. Click the **Business Purpose** list. Select the entry in the list that most closely identifies the purpose of the trip.
6. In the **TA# & Comments** field, enter the **Travel Authorization ID Number** from the upper right corner of the Travel Authorization form. Also add a description including the purpose and destination of the trip under comments.

   **NOTE:** A Cash Advance cannot be created unless a valid Travel Authorization has already been created.

7. In the **Begin Trip Date** field, enter the **Departure Date** of the trip.

   **NOTE:** The Cash Advance request will be sent back if the **TA# & Comments** field and the **Begin Trip Date** field are not completed as required.

8. In the **Source** drop-down box, choose **Cash** to receive cash from the Cashier’s Office.

   **NOTE:** Choose **System Check** only if located in an off-site office, e.g., an Extension office.

9. In the **Description** field, indicate how the Cash Advance will be used (e.g., meals, taxi fare, etc.)

10. In the **Amount** field, enter the amount of money in US dollars that is being requested.

![Cash Advance Request Form](image)

11. Click on **Update Totals** to show the amount of the Cash Advance being requested.

12. To save this Cash Advance and return to it later; click the **Save for Later** button.

13. When finished, submit the Cash Advance. (Edits will not be allowed once submitted.) Click the **Submit** button. The Cash Advance will be routed to the Approver and then to the Pre-Pay Auditor. **NOTE:** Make sure to submit the Travel Authorization as well by clicking the **Submit** button on the bottom of that form.

14. Click **Sign Out** to leave PeopleSoft, or choose another option from the menu on the left to work on another task.

1. Log in to PeopleSoft through the **Financials** login ([https://www.uvm.edu/~erp/portal/](https://www.uvm.edu/~erp/portal/)).

2. Navigate to: **Main Menu > Employee Self Service > Travel and Expense Center > Expense Report.**

4. Select **A Blank Report** in the **Quick Start** drop-down list.

![Expense Report Entry](image)

6. In the Description field, type a short, meaningful description of the expense (e.g., 2010-12 Recruiting Trip to Boston).

7. Click the Business Purpose list. Select the entry that most closely identifies the purpose of the trip.

![Business Purpose List](image)

8. Click in the Comment field and describe the details of this expense.

   **NOTE:** If this expense report is for a trip, the actual destination(s) MUST be entered here. Enter travel dates, and other important details.

9. Click on the magnifying glass icon for the US State/Country field and select one of the following:
   a. Country – if for an international location
   b. State – if for a state other than Vermont
   c. County – if for a location in Vermont

   **NOTE:** If traveling to multiple destinations, select the first destination in the US State/Country field, and enter subsequent destination on the Expense Detail pages. If you are seeking reimbursement for expenses incurred locally, the location should be your county in Vermont.
10. When using one chartstring for the entire report, it can be adjusted for the report as a whole, rather than adjusting line-by-line. On the Expense Report main page, click the **Accounting Defaults** hyperlink at the bottom left corner of the **General Information** box. Fill out the chartstring, then click on **OK** to return to the main page.

**NOTE:** The Accounting Defaults can be changed after data entry has been completed; the detail lines will be updated with the new chartstring information.

11. In the Details section, click on the arrow in the first drop-down box under **Expense Type** and select the appropriate expense type (e.g., automobile mileage) from the list provided.

12. Skip over other columns in the table and click the **Detail** hyperlink on the right. A page will open showing the **Expense Detail** for the particular expense line being entered.

**NOTE:** Fields marked with an asterisk are required.
13. Click the **Calendar** icon beside the **Expense Date** field and select the date the expense was incurred.

**NOTE:** This cannot be a date in the future.

14. Select how the expense was paid from the drop-down menu under **Payment Type** (e.g., personal credit card or cash).

15. The **Billing Type** will auto-populate as **UVM Internal**, the correct choice for reimbursing a UVM employee.

**NOTE:** The other choice, UVM Billable, is not being used.

16. Fill out the other required fields with an asterisk (*) for this expense (e.g., for mileage the number of miles and a description of the trip[s], etc. must be entered). For other types of expenses the number and nature of required fields will change.

17. The **Currency** will populate as **US Dollar** and this field should remain unchanged. If necessary, convert foreign currencies into dollars, then complete this expense report in US dollars.

**NOTE:** The Disbursement Center uses the following web site for currency conversion: [http://www.oanda.com/currency/converter](http://www.oanda.com/currency/converter)

18. Click in the appropriate box to the right of **Payment Type** to place a checkmark beside **No Receipt** or **Non-Reimbursable** if either of these conditions is true. If **No Receipt** is checked, an explanation *is required* in the **Exception Comments** field at the bottom of the page. (**No Receipt** does not need to be checked if a receipt would not be expected as in the case of automobile mileage.)

19. If the expense amount is higher than the allowable limit (e.g., went over on food allowance), an explanation **MUST** be included in the **Location Amount** field under the **Exception Comments** heading.

**NOTE:** This does not guarantee that the expense amount will be approved, but it is needed to complete the report.
20. If it is necessary to make adjustments to the default chartstring in order for this line of the expense report to be charged correctly, click on the Accounting Detail link at the bottom of the page. A new page will open, showing the chartstring associated with this line of the report.

![Accounting Summary Table]

22. Enter the correct chartstring or click on the Look Up icon beside the chart field(s) that must be changed, and select the correct value from the Search Results displayed. Adjust the entire chartstring as required, see Step 27.

23. If it is necessary to split this expense into two or more chartstrings, click the Add Chartfield Line button to add pre-populated chartfield lines, which may then be adjusted as necessary.

**NOTE:** If one expense will be charged to two or more departments, DO NOT split the expense. Instead, enter each part of the expense on a separate row on the front page of the report. Only in this manner can the appropriate individual approve each part of the expense.

**NOTE:** Each row can only be approved, but a row can only be approved by one departmental approver, not by two or more.

24. When finished adjusting the chartstring(s), click on OK to return to the Detail Page for this expense line.

25. When the Expense Detail for this line of the report is complete, click on the yellow Check Expense For Errors button. This button checks to make sure that a necessary field did not get omitted and that a valid chartstring was entered.

**NOTE:** Checking for Expense Errors does not check whether there are available funds in that budget.

26. Any errors or omissions will be flagged and highlighted in red. Correct or complete the highlighted fields and click Check Expense for Errors until there are no longer any fields which are highlighted.
27. If the check for errors indicates an error with a chartstring, it means that PeopleSoft does not recognize it as valid. Clicking Accounting Detail is required to correct the problem. For guidance, speak with the appropriate business manager for chartstrings related to operational expenses, or with Sponsored Project Administration for grant-related chartstrings.

**NOTE:** When there is a problem with a chartstring, PeopleSoft only highlights the first field in the chartstring the GL Unit (which should always read UVM01). This is not typically where the problem resides. Look for a problem further to the right with an incorrect field or an incomplete chartstring. Also, never change the Account field. This automatically populates based on the Expense Type chosen.

28. Valid chartstrings will, at a minimum, contain entries in the Operating Unit, Department, Fund, Source and Function fields. If there are no values for the Program, Purpose and Property fields, these fields MUST contain zeros. (Other fields not mentioned here, if not required by the chartstring, may be left blank.)

29. When the issues have been corrected, click the Return to Expense Report hyperlink at the bottom of the page.

30. If more expense lines are needed, click on the + sign at the end of the last expense line to add a new line.

**NOTE:** Alternatively, select New Expense from the drop-down underneath the last expense line and click the Add button.)
31. Click the **Save for Later** button frequently to ensure that the work is being saved to the database.

- For hotel and multiple charges on the hotel bill, see the [Hotel Wizard](#) section of this document.
- Meals can be combined on one expense line for the full day’s meal. Provide adequate detail in the **Merchant, Non-preferred** and **Description** boxes.

32. To duplicate particular lines on an expense report (e.g., there are similar expenses to list for multiple days), click in the box to the left of the expense line(s) to be copied, in the column marked **Select**. This puts a checkmark in that box. Then click the **Copy Selected** button. Choose whether to copy to one date, or a range of dates, and whether to include weekends and/or holidays. When finished, click the **OK** button.

33. To delete particular lines on the expense report, click in the box to the left of the expense line(s) to be deleted (under the column marked **Select**), then click the **Delete Selected** button.

34. When all the expenses to be included on this expense report have been entered, click the **Check for Errors** button on the main report screen in order to perform one final check, ensuring that all the required information has been entered.

35. Click the **Save for Later** button to edit this report or to print it again at a later time.

   **NOTE:** Expense reports cannot be printed until they have been saved or submitted.)

**NOTE:** A copy of the expense report MUST be printed. Attach the original, itemized receipts to it, and then forward the reports with the receipts to the appropriate departmental Approver. After approving the report, the departmental approver will forward the receipts to the Disbursement Center.

39. To save this Expense Report to be edited/submitted later, click the Save for Later button. Then the navigational menu or the Sign Out button can be used to move-on to another task.

7. Click the **Delete Selected Expense Report** button.
   
   **NOTE:** Once the Expense Report is deleted, it cannot be reversed.

8. A confirmation will appear about the deletion of the selected Expense Report.

9. Click the **OK** button to confirm acknowledgment of the deletion.
Responsibilities of Approver

Approvers must ensure that the Travel Authorization is completed correctly and approved before approving the Cash Advance. It is very important to put the departure date of the trip in the Begin Trip Date field and the Travel Authorization number in the TA# & Comments field. These fields are used on several central reports and cannot remain blank.

Before approving an expense report for a trip, ask the following questions:

- Is there an authorization for this trip?
- Was the expense report created from the authorization?
- Was there a cash advance for this trip?
- Was the cash advance applied to the expense report using the hyperlink?
- Are all original, itemized receipts attached?
- Are expense lines charged to the correct chartstring?

Approve Travel and Expense Reports

Travel and Expense reports need to be approved by a designated administrator. This document gives detailed instructions on the approval process in PeopleSoft. Click here to see a list of approvers.

1. Log in to PeopleSoft through the Financials login (https://www.uvm.edu/~erp/portal/).

2. Click on the Worklist link in the header at the upper corner of the screen.

3. Select the Expense Report to approve from the table by clicking on the blue corresponding link.

   NOTE: Expense Reports start with ER, Travel Authorizations start with TA and Cash Advances start with CA.
If there is a long list of Reports, sort them by Report type by using the **Work List Filters**. Choose **Approval Routing** from the dropdown list and click on the **Refresh** button at the bottom of the page.

**Work List Filters:** Approval Routing

4. Check the **Report Information** section at the top of the page to get a sense of the **Who**, **What** and **Why** of this Report. Ensure that all the information listed there is correct.

5. The Report opens in **Expense Summary View**. Most changes can be made in this view. However, **Add** expense lines requires going to the **Expense Detail View**. Toggle back and forth between the two views by clicking on the **Detail** or **Summary** links at the bottom of the page. (The directions below apply to working in the **Summary View**.

6. Locate the **Expense Line Items** section in the middle of the page. Click on the first blue hyperlink under **Expense Types** the link will lead to the detail page of the first line of the expense report.
7. Look over the information on the **Expense Detail for Line 1** page to ensure accuracy. Make any adjustments or changes that are needed (or review these details and send the report back for corrections if preferred).

![Expense Detail for Automobile Mileage (Line 1)](image)

Click on the **Accounting Detail** link near the bottom of the page to show the chartstring for this particular expense line. Check to ensure that the chartstring is correct, or make changes as required.

**NOTE:** The Approver should check the Accounting Detail for each expense line to ensure the accuracy of the report as a whole.
To change the chartstring for the entire report, it may be easier (depending on the length of the Report) to send it back and allow the Preparer to make the changes using the Accounting Defaults link. The Preparer can set one default chartstring for the entire Report; the Approver cannot.

8. If the chartstring (or chartstrings, if the expense is split between multiple chartstrings—as in the example above) is correct, click OK to return to the Expense Line Detail page.

9. To approve this line of the Expense Report, ensure that the Approve Expense box is checked. Alternatively, if this line of the Report will not be approved, ensure that the Approve Expense box is not checked.

(The Report as a whole can be approved and still leave individual expense lines unreimbursed. Pay careful attention to the Expense Report Totals information to be certain that the financial breakdown reflects what was intended.)

10. Click on Return to Expense Report.

11. Repeat Steps 6-11 for any remaining Expense Line Items on the main page.

12. Scroll to the bottom of the page to check the Budget Status. If Budget Checking is NOT complete, click the Budget Options link.

   NOTE: If budget checking is complete, go to Step 16.
13. A page will open showing the **Commitment Control Details**. Click on the yellow **Budget Check** button near the bottom of the page. The Budget Check will run.

14. To approve this report, Budget Status must show an Approval Status of either **Valid** or **Warning**.

   **NOTE:** If the Status shows **Valid**, skip to **Step 19**. If it shows **Warning**, proceed to **Step 20** and then on to **Step 21**.

15. If the **Budget Status** shows **Error**, it needs to be corrected in order to continue. A message will appear. Click **OK** to dismiss the blue box, and then click on **Yes** to go to the **Transaction Exception Panel**.

   The **Transaction Exception Panel** will open a table, which logs Expense Report errors and warnings. Search for the Expense Report by number and click on the link. A page will open, which will explain why this Report failed budget checking.

   **NOTE:** If there are no funds or insufficient funds associated with the chartstring(s), a budget transfer to fund the chartstring(s) may be needed before approving this report.

16. Carefully review the report and the receipts. When satisfied that the report is accurate and after the budget is checked with status **Valid** (or **Warning**) the report is ready to be approved.
17. At this point, there are four options for this Report:

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Approve</td>
<td>Approve the Report—whether all lines or only some of them—and the Report as a whole will move on to Disbursement Center where a check will be cut for the Total Due Employee.</td>
</tr>
<tr>
<td>Send Back</td>
<td>Send Back the Report for modification. It can be adjusted by the one seeking reimbursement or by anyone with entry authority delegated to them, but they WILL NOT automatically BE NOTIFIED. <strong>NOTE:</strong> Send Back and Deny require an explanation in the Comments field.</td>
</tr>
<tr>
<td>Save and Hold</td>
<td>Save and Hold the Report if not prepared to approve it. This may be a good idea if seeking to confirm details or waiting for a receipt, however, NO ONE ELSE can open the report WHILE it is on Hold.</td>
</tr>
<tr>
<td>Deny</td>
<td>Deny the Report. If the Report is denied, it will be effectively Terminated and cannot ever be modified or resubmitted. <strong>Note:</strong> Send Back and Deny require an explanation in the Comments field.</td>
</tr>
</tbody>
</table>

18. To approve the Report, click the **Approve** button. A confirmation dialog will open.

19. Click **OK** to acknowledge approval of this Expense Report.
20. Follow one of the following:

- **If the University owes money to the Employee**, route the hard copy of the Report with receipts attached to General Accounting. It will be prepared and a check mailed as reimbursement.

- **If the Employee owes money** to the University (as in the case of a Cash Advance which was not entirely spent), the employee should take that money along with a hard copy of their Cash Advance to the Cashier’s Office.

**NOTE:** Hard copies of the Expense Report with receipts attached must still be routed to General Accounting.

### Reassign Approvals for Travel and Expense

An Approver needs to reassign expense forms (expense reports, travel authorizations, cash advances) to another Approver so that they can approve them.

1. Log in to PeopleSoft through the **Financials** login ([https://www.uvm.edu/~erp/portal/](https://www.uvm.edu/~erp/portal/)).

2. Navigate to: **Main Menu > Manager Self Service > Travel and Expense Center > Approvals > Reassign Approvals.**

3. A page will open similar to the shown below. If there are expense forms awaiting approval, they will be listed. All of the forms listed for reassignment may be selected or just individual ones if preferred.
4. Choose the form(s) to be reassigned by placing a checkmark in the box(es) in the column at the far left end of the appropriate line(s). In the example above, only the second form, expense report 0000002519, is selected for reassignment.

5. In the box marked **Reassign Work To**, enter the UVM NetID of the individual to be reassigned the expense form(s). Since it is possible to enter any valid UVM NetID in this box, be very careful to enter the net id of an individual who is authorized to approve expense forms.

**NOTE:** There is a list of [Travel and Expense Approvers](#) by name and by department number which can be found in the [PeopleSoft Mini-Manual](#) section of the Learning Services web site. If an expense form is reassigned to someone who does not have approval authority that expense form may be difficult to retrieve.

6. Click one of the blue Reassign buttons. The approver will not be given a second opportunity to approve the change.

7. To need to assign another expense form(s) to a different approver, repeat **Steps 4-6**.

**International Travel**

Every effort should be made to prepay foreign expenses with a purchasing card and purchase orders. It is advisable to prepay expenditures to reduce the need for carrying large amounts of cash.

- All amounts entered in PeopleSoft must be entered in US Dollars. Although some drop-down choices for other currencies can be seen, UVM is not using that functionality. If using a personal credit card, the credit card statement will show the charges in US Dollars. If expenses were paid using cash and need to be converted to a different currency, there is a link to a currency converter on the UVM Travel Information website.
- For a trip lasting seven days or less, obtaining a currency conversion rate needs to be done only once. For trips lasting longer than seven days, obtain a currency conversion rate at the start of each new week of travel.
Hotel Wizard

PeopleSoft contains functionality to easily distribute multiple costs on a hotel bill to the correct expense types and accounts. The following example illustrates the Hotel Wizard, and itemizing the hotel room, parking, and room service meals.

**New Policy Changes Regarding Travel Expenses**

The Travel Policy outlines increased internal controls and audit efforts on expense reports and PurCard journals. Many individuals may only associate the travel policy with submitting travel expense reports, however all methods of payment for travel expenses MUST follow this policy, including UVM PurCard.

Share this information with other department members before their next travel date or use their PurCard for any new purchases. These requirements and deadlines are in effect and will be the cardholders’ responsibility to follow.
All **original itemized receipts** are required as supporting documentation for all purchases made. This pertains especially to all meal receipts - travel meals or business meals. The Disbursement Center's audit process must be in compliance with the IRS Accountable Plan Rules. These include: a clear business purpose, destination, and dates of travel.

If a receipt is lost, misplaced, or damaged beyond legibility, the traveler is responsible for contacting the vendor and requesting a copy of the receipt. If the cardholder does not present an acceptable receipt with their PurCard journal, the following action(s) will apply:

Personal reimbursement from the employee to UVM will be required within 15 days.

**NOTE:** If multiple occurrences take place or if reimbursement is not met within the deadline:

- Employee supervisor will be notified
- Employee noted on audit report
- Payroll deduction for outstanding reimbursement
- MCC code turned off for specific purchases and/or card terminated

**Hardcopy of PurCard Journals and deadlines to send to the Disbursement Center:**

Day 1 - PurCard Journals ready to campus (journals dated the 1st of each month)

Day 21-23 - PurCard Reallocation due in PeopleSoft

Day 45 - PurCard Journal Hardcopies/receipts due in Disbursement Center

Day 50 - Email reminder sent out to cardholder - hardcopy of journal is missing

Day 55 - Follow-up phone call and if hardcopy is not received, card will be suspended in 5 days

Day 60 - PurCard is **suspended**

Frequently Asked Questions

Travel and Expense Forms

How do I get reimbursed for work/travel related expenses?
All reimbursable expenses incurred by employees must be submitted through the Travel and Expense Center in PeopleSoft. If trying to reimburse someone who is not a UVM employee, see the matrix on the University's Purchasing Services web site for direction as to how to proceed.

How do I know which form to use?
There are three main forms in the Travel and Expense Center:

1. **Travel Authorization**: required to receive a cash advance.
   
   **NOTE**: Some departments require a Travel Authorization prior to travel, even if a cash advance is not needed—ask a business manager in the department if unsure.

2. **Cash Advance**: required if traveling and need to take University money along for planned expenses.

3. **Expense Report**: required when there are expenses (travel or non-travel related) for which reimbursement is being requested.

What if I don’t seem to have access to Travel and Expense forms?
All University employees should have access to create Travel and Expense forms. Follow the instructions carefully, and ensure that the navigation is done precisely. In this area it is particularly easy to think that the right spot in the menu has been clicked, when it actually has not been. Navigating to Employee Self Service > Travel and Expense Center > Expense Report > Create is required. If access cannot be granted, a Footprint should be submitted.

Travel Authorizations

Why must one cancel a Travel Authorization which will not be used?
As soon as it is budget-checked, a Travel Authorization places an encumbrance against the budget which must somehow be removed. Typically it is removed when the Travel Authorization is used as the basis for creating an expense report.

**NOTE**: However, when the typical process is not followed (an expense report is not created from the Travel Authorization, or the trip is canceled), the Travel Authorization must be removed from the system in order to remove the encumbrance from the budget.
Can a Travel Authorization be cancelled BEFORE it has been approved?

No, before it has been approved, a Travel Authorization cannot be canceled, but it can be deleted by the traveler or the traveler’s delegate. See the section Delete a Travel Authorization of this manual.

NOTE: If a Travel Authorization was canceled due to the trip not taken, and there is an approved Cash Advance, then the Cash Advance needs to be either canceled (if funds were not received) or reconciled (if funds were received - either by applying the funds to an expense report, or by returning them to the Cashier’s Office).

Approved Cash Advances may only be canceled by the Disbursement Center. Contact them to cancel the Cash Advance if the money was not picked up. If the money was picked up, return the full amount to the Cashier’s Office and the Disbursement Center will then reconcile the Cash Advance. The Travel Authorization will still need to be canceled.

Can the Approver delete a Travel Authorization?

No, but they have two choices:

a. The approver can effectively close out a Travel Authorization by denying it. Open the Travel Authorization from the worklist and use the Deny button at the bottom of the page.

b. The approver can return the Travel Authorization to the traveler so that the traveler or traveler’s delegate can delete it. Open the Travel Authorization from the worklist and use the Send Back button at the bottom of the page. Using the Send Back button will NOT send a notification to the traveler or delegate who entered the report. The traveler or delegate will have to navigate through Employee Self Service.

Why is it necessary to delete or deny a Travel Authorization which will not be used?

As soon as it is budget-checked, a Travel Authorization places an encumbrance against the budget which must somehow be removed. Typically, it is removed when the Travel Authorization is used as the basis for creating an expense report. However, when this process is not followed (an expense report is not created from the Travel Authorization), the Travel Authorization must be removed from the system in order to remove the encumbrance from the budget.

Can a Travel Authorization be deleted AFTER it has been approved?

No, after it has been approved, a Travel Authorization cannot be deleted, but it can be canceled. See the section entitled Cancel an Approved Travel Authorization in this manual.
NOTE: The workflow for the approval of Travel Authorizations (like expense reports) is based on the department(s) being used in the chartstring. For example, if someone is traveling on another department’s budget, that department’s approver must approve their Travel Authorization.

Do I need a Travel Authorization?

A travel authorization is needed if a department requires it, or if planning to request a cash advance.

What if I create a Travel Authorization and decide not to use it?

A Travel Authorization creates a pre-encumbrance against the budget, which must be removed. (It is normally removed through the creation of an expense report.) In the case where a travel authorization is not used, it must be deleted by the creator prior to approval, or canceled by a system administrator after it has been approved. See Cancel an Approved Travel Authorization for more information. Need help cancelling an approved travel authorization? E-mail General Accounting or submit a Footprint ticket.

Cash Advance

How do I get a cash advance for travel?

A Travel Authorization and a Cash Advance must be filled out (and both forms must be approved in the system) before being eligible to access a cash advance. Completing these forms should be done well ahead of the departure date, and notify the appropriate approver that they are in the system awaiting approval.

Where and when do I pick up my cash advance?

If on campus, the cash must be picked up in the Cashier’s Office in Waterman. It will be available five business days prior to the departure date. Bring a printed copy of the Cash Advance form, along with a valid form of personal identification.

NOTE: If located off-campus, the option to have the check mailed is available (ensure that there is sufficient time for processing and mailing).

What if there is money left over from the cash advance?

After returning from the trip, create an expense report from the Travel Authorization that was used (see the section above in this Mini Manual). In the process of creating an expense report, the opportunity to apply the cash advance will be available. Be very careful to apply only the amount that was spent. While creating an expense report, print the detail page that was used to actually apply the cash advance (the page is titled: Apply Cash Advance(s)). Take this page, along with the funds that are being returned, to the Cashier’s Office. The page that is required to be printed displays all of the information that the cashiers will need in order to properly process these funds.
Expense Reports

What do I do when I have expenses related to multiple budgets?

Each line of the expense report may be divided among multiple chartstrings (by percentage), or billed to a unique chartstring as required.

Where does my expense form go after I submit it?

In the Travel and Expense Center, expense forms are automatically routed to departmental approvers. Most departments have two approvers, either of whom may normally approve an expense form. If the expense form uses chartstrings from two or more departments, then an approver from each department will need to approve the expense line(s) associated with that department. The form will not be fully approved until all expense lines have been approved by the appropriate approvers. NOTE: If one department SENDS BACK the expense forms for changes, then all departments must again approve their lines—even if they approved them previously.

What should I do with receipts?

All receipts should be attached to a printed, signed copy of the expense report and forwarded to the appropriate departmental approver(s). After the expense report has been approved, the departmental approver(s) should forward the printed copy of the expense report with receipts attached to the Disbursement Center for payment.

What if I'm missing a required receipt?

On the Expense Detail page the box marked No Receipt must be checked, then give an explanation below the Exception Comments heading, in the text box marked No Receipt. NOTE: It is not required for categories like Mileage, where no receipt is expected. It is the responsibility of the approver to accept or reject the reason entered for not submitting a receipt.

What is the difference between Business Meals and Travel Meals?

Travel Meals are meals eaten when traveling. Business Meals, is a formal category of expense in which a group of individuals go out to dinner for a specific business purpose for instance, as part of a job interview. If the expense category Business Meals is used, all the individuals who took part in the meal must be identified, along with their relationship to the University, and the business purpose for the meal.

How should Travel Meals be reported?

Travel meals should be reported by the day. In other words, report breakfast, lunch and dinner on one line on the expense report. Itemize the amount for each meal on the Detail page for that line.
What is a Preferred Merchant? What is a Non-Preferred Merchant?
The terms Preferred and Non-preferred are misleading. In the Travel and Expense Center, a preferred merchant is one whose name appears on a drop-down list as opposed to a merchant whose name must be entered into the system. Include a merchant (required) for each expense line either choose a preferred merchant from the drop-down list, or enter an appropriate name in the non-preferred field.
