Animal Use Protocol Amendment Algorithm

Submit completed amendment form and revised protocol pages to IACUC.

The Chair, in consultation with the veterinarian, decides if the amendment is significant or minor.

**Significant**
For example, large change in #s of animals, increase in invasiveness, change in species, increase in pain or discomfort, change in method of euthanasia

**Minor**
For example, small change in #s of animals, addition of new personnel, changing route of administration of drug.

Full review may be requested by any member during this time

Posted for Proposed Designated Review

Chair assigns Committee reviewer. Protocol and amendment request are forwarded to the reviewer. Any clarifications are resolved.

Executive Review

Chair or designee and veterinarian signs approval and sends back to investigator. Amendments are reported at next meeting.

No veterinarian signature needed on personnel changes.
