Full Disclosure Statement

This form must be completed (and signed) whether or not there is a relevant financial interest with a commercial entity. The content of planning and presentations must be balanced and free of commercial bias (multiple therapies should be mentioned). All clinical recommendations must be based on the best available evidence.

Having a relevant financial interest or other relationship with a commercial interest* may not prevent a speaker or planning committee member from taking part in this educational program. However, the existence of the relationship must be made known to the planning committee prior to the conference, so that any possible conflict of interest may be resolved prior to the talk. The information you have provided will be communicated to the audience and will appear in the course syllabus. Failure to disclose will result in denial of credit or opportunity to present.

*A commercial interest is any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients.

CME Activity: ___________________________
Date: ________________________________

Faculty Member (speaker/planner): ___________________________

Title of Presentation: ___________________________

☐ I declare that I (or my spouse/partner) have a relevant financial interest or other relationship with a commercial entity within the last 12 months. This financial interest or relationship is specified below.

Company/Relationship: ___________________________

☐ I do not have any financial arrangements or affiliations with a commercial entity.

Will you be discussing the unlabeled use of a commercial product in your presentation?
☐ Yes ☐ No

If so, please state use(s): ___________________________

Attestation Form

☐ Agree ☐ Disagree

I have disclosed to the University of Vermont all relevant financial relationships, and I will disclose this information to learners verbally (for live activities) and in print.

☐ I understand that the University of Vermont may need to review my presentation and/or content prior to the activity, and I will provide educational content and resources in advance as requested.

☐ All scientific research referred to, reported or used in CME in support of justification of a patient care recommendation will conform to the generally accepted standards of experimental design, data collection and analysis.

☐ If I am discussing any product use that is off label, I will disclose that the use or indication in question is not currently approved by the FDA for labeling or advertising.

☐ If I have been trained or utilized by a commercial entity or its agent as a speaker (e.g., speaker’s bureau) for any commercial interest, the promotional aspects of that presentation will not be included in any way with this activity.

☐ If I am presenting research funded by a commercial company, the information presented will be based on generally accepted scientific principles and methods, and will not promote the commercial interest of the funding company.
