

Student Council Meeting Agenda

May 6, 2015

1.) UVM COM Communications & SIG

- *Dean Zehle*
- Medical education leadership team (MELT). We should be using the weekly wire, but maybe this is not working and is not benefiting the students. What do students think about communication? Student council should talk about this and bring it back to the administration. There could be a list serv for getting people to feel like they have power to actually email people.
- Commons:

2.) Budget Request: Family Medicine SIG

- *Kishan Patel*
- \$142.70

3.) SIG

- *Paul Baresel, Stephanie Brooks*
- (see attached)
- Based the budget projections each SIG will get \$150.00 and that's the bottom line.

4.) Gauging student interest: Malpractice lawyers as guest speakers

- *Daniel Haddad*
- (see attached)

5.) OSLER update

- *Taylor Wolfgang*

6.) Administration/student/community communication

- *Kiersten Hallquist*
- Listserv privileges
- Students have abused the email system by creating their own lists. The weekly wire isn't working. Facebook is not an official form of communication at the College of Medicine. Facebook professionalism is lacking.

7.) Flow of Meetings

- Productivity
- Goals
- Tasks

NOTES/ TASK

If the chair of communication is the designated person. One person per class on student council. This person is the catch all for different interest groups. The trial period would be until the end of the year. The reason for the email should be explicit.

Transition to a list serv for the fall.

We will present this to wellness and bring it to the executive board. Next meeting we will vote on what will go to Wellness. There need to be a written up as a formal proposal. (Go to wellness meeting?)
