Dear Graduates, Faculty, Families, and Friends,

Welcome to the 211th Commencement at the University of Vermont! Our ceremony this morning continues the tradition, established over two centuries ago, of convening the University community to honor our graduates.

Today, we celebrate with pride the significant accomplishments of the Class of 2013. This class has distinguished itself admirably and brought regional and national recognition to our venerable institution through innovative research in diverse fields from geography to classical translation and cellular biology, through creative endeavors from jazz performances to poetry theses, and through numerous academic awards and prizes. Many also exemplified this University’s long tradition of public service by dedicating time to helping others and improving the environment.

Graduates, remember that you always will be part of the UVM family and returning to this campus always will be a homecoming. You will carry your University of Vermont degree with you wherever you travel throughout your career. We eagerly will follow your many successes in the future.

I would like to express my gratitude to the families, friends, and faculty gathered today for your invaluable support of these special graduates. Your energetic efforts and constant encouragement made this joyful celebration possible.

Congratulations to all!

Catamount Wish

As a part of the University Commencement procession, graduates are given a penny to toss in the University Howard Fountain. We call this tradition “Catamount Wish” and hope that all graduates will have good luck by making a wish as they begin the Commencement Ceremony and transition from UVM student to their new alumni status. The University of Vermont Howard Fountain was installed on the academic green in 1874 and has been a highlight of campus since. In 2012, it went through an extensive renovation and continues to be an iconic part of campus. This tradition is sponsored by the UVM Alumni Association.

Wynton Marsalis
Doctor of Humane Letters
Commencement Speaker

Wynton Marsalis is the Managing and Artistic Director of Jazz at Lincoln Center and a world-renowned trumpeter, bandleader and composer. Born in New Orleans, Louisiana in 1961, Marsalis began his classical training on trumpet at age 12, entered The Juilliard School at age 17, and soon after joined Art Blakey and the Jazz Messengers.

He made his recording debut as a leader in 1982, and has since recorded more than 70 jazz and classical recordings, which have won him nine GRAMMY® awards and sold over seven million copies worldwide. In 1983, he became the first and only artist to win both classical and jazz GRAMMYs® in the same year, repeating the distinction the following year. Today Wynton is the only artist ever to win Grammy® awards in five consecutive years (1983-1987).

Marsalis is an internationally respected educator, a leading advocate of American culture, and a recipient of honorary doctorates from over 25 of America’s leading academic institutions including Columbia, Harvard, Howard, Princeton, and Yale. He has authored six books including: Jazz ABZ: An A to Z Collection of Jazz Portraits (Candlewick, 2005), illustrated by poster artist Paul Rogers; Moving to Higher Ground: How Jazz Can Change Your Life (Random House, 2008), with Geoffrey C. Ward; and most recently, Squeak, Rumble, Wbomp! Wbomp! Wbomp! (Candlewick, 2012), also illustrated by Paul Rogers.

In 1997, Wynton became the first jazz artist to be awarded the prestigious Pulitzer Prize in Music for his oratorio Blood on the Fields, which was commissioned by Jazz at Lincoln Center.

In 2001, he was appointed Messenger of Peace by Mr. Kofi Annan, Secretary-General of the United Nations, and has also been named a Cultural Ambassador for Jazz by the U.S. State Department through their Culture Connect program. In 2005 Wynton received The National Medal of Arts, the highest award given to artists by the United States government. Wynton's creativity has been celebrated worldwide. Britain’s senior conservatoire, the Royal Academy of Music, granted him Honorary Membership, the Academy's highest decoration for a non-British citizen. The French Ministry of Culture appointed Wynton the rank of Knight in the Order of Arts and Literature and in the fall of 2009 he received France's highest distinction, the insignia Chevalier of the Legion of Honor.

Marsalis was instrumental in the Higher Ground Hurricane Relief concert, produced by Jazz at Lincoln Center. The event raised more than $3 million for the Higher Ground Relief Fund to benefit the musicians, music industry related enterprises, and other individuals and entities from the areas in Greater New Orleans who were affected by Hurricane Katrina.

Marsalis helped lead the effort to construct Jazz at Lincoln Center’s home—Frederick P. Rose Hall—the first education, performance, and broadcast facility devoted to jazz, which opened its doors in October 2004.

It is Wynton Marsalis' commitment to the improvement of life for all people that portrays the best of his character and humanity.

James H. Douglas
Doctor of Laws

James H. Douglas served the people of Vermont for nearly four decades, beginning with his election to the Vermont House of Representatives in 1972, the same year he graduated from Middlebury College with a degree in Russian.

In his second term, he was chosen assistant majority leader and in his third term, at the age of 25, became the majority leader. He left the Vermont House in 1979 to become a top aide to the late Vermont Governor Richard Snelling. He was elected secretary of state in 1980 and held that post for some 12 years. In 1994, he was elected state treasurer, a post he held for eight years. During his tenure as treasurer, millions of dollars in assets were returned to their rightful owners, and Vermont’s bond rating came to be one of the best in the nation.

In 2002, he was elected the 80th governor of Vermont and he was re-elected to this position in 2004, 2006, and 2008. In 2009, he announced that he would not seek election for a fifth term and instead, in 2011, he became an executive-in-residence at his alma mater, where he teaches a class titled Vermont Government and Politics.

During his tenure as governor, Douglas focused on strengthening the state’s economy, reducing the cost of living in Vermont and protecting the state’s natural environment. He advanced groundbreaking health reforms that have made Vermont a model among the states in health care, and he worked to strengthen the relationship between Vermont and Quebec and the other Canadian provinces. A lifelong Republican, he governed in a state otherwise dominated politically by Democrats. His skill in negotiating those tricky political currents was admired by supporters and rivals alike. “Even President Obama asked the first time I met him, ‘How did you win in Vermont?’” he told the Addison Independent.

Douglas was chosen for leadership positions by his colleagues nationally, serving as the president of the Council of State Governments, twice as chairman of the New England Governors’ Conference and as chairman of the Coalition of Northeastern
Governors. He was also chosen to serve as chairman of the National Governors Association. In February 2010 President Obama appointed him co-chair of the Council of Governors.

In addition to his many volunteer community service activities, Douglas garnered many honors and awards during his career in public life, including selection as an Inspire Awards Honoree from AARP Magazine in 2007, the 2010 Health Quality Award from the National Committee for Quality Assurance (NCQA) in 2011, and election as a Trustee of the Calvin Coolidge Memorial Foundation Board.

Kathryn E. Giusti
Doctor of Humane Letters

In 1980, Kathy Giusti graduated from the University of Vermont, magna cum laude, with a degree in biology. Five years later, she received her MBA at Harvard Business School and launched a career in the pharmaceutical industry.

In 1996, she was a fast-rising executive and the proud mother an 18-month-old daughter. That January, Giusti was diagnosed with a deadly cancer of the blood, multiple myeloma, and given no more than three years to live. She quickly learned that there were no effective treatments for multiple myeloma, and that research on the disease was nearly nonexistent.

Instead of collapsing under a seeming death sentence, Giusti fought back. She took her understanding of biology and her business acumen, and dedicated her life to overcoming the disease. Eighteen years later, not only is she a vibrant survivor and mother of two teenagers, but she’s also led a revolution in how cancer-fighting drugs are researched and brought to market.

As the founder and chief executive officer of the Multiple Myeloma Research Foundation and the Multiple Myeloma Research Consortium, Giusti has raised $225 million for research, driven by a conviction that stronger connections between research and industry could lead to treatment breakthroughs. By encouraging deep collaboration, setting benchmarks and rigorous deadlines, and targeting the most promising research, her foundation has been instrumental in more than doubling the life expectancy of multiple myeloma patients.

Her creative impatience and keen investor’s mind has sped the development of new treatments for multiple myeloma in an era when successful drug development in many other areas of medicine has slowed to a trickle. Today, the MMF has shepherded four promising cancer drugs into the market with eight more now in clinical trials.

Giusti’s “end-to-end” approach of creating incentives for success at each stage of the drug development pathway, from laboratory bench to marketplace, has provided a model for accelerating the creation of new medicines to treat many health problems.

Selected by Time Magazine as one of the top 100 most influential people in the world, Kathy Giusti has been driven by the conviction that her goal should reach beyond fighting a disease to funding scientific innovation.

Kathy Giusti’s cancer relapsed in 2005 and she sought treatment. Thanks to her foundation’s own successes and a stem cell transplant from her twin sister, Karen Giusti Andrews (also UVM Class of 1980 and a long-time partner with Kathy in the fight against multiple myeloma), Giusti beat back her cancer a second time.

“Giusti remains that doomed, hopeful mother, a cancer patient in remission on a mission,” wrote journalist Rick Green in a recent profile. “This is what drives her—and what is helping to change the way cancer will be cured.”

William Alan Meezan
Doctor of Humane Letters

William Meezan, UVM Class of 1967, has devoted his long and distinguished career as a scholar, expert consultant, and educator to improving the lives of children. He is currently a Distinguished Visiting Professor at Fordham University’s Graduate School of Social Service, holding the Mary Ann Quaranta Chair for Social Justice for Children. Prior to that appointment, Meezan served as director of policy and research at Children’s Rights, a national advocacy group working to protect abused and neglected children.

After graduating from the University of Vermont, Meezan earned his master’s degree from Florida State University and his doctorate at Columbia University. His research and writing has addressed the full spectrum of social services designed to protect vulnerable children, including family support; child abuse and neglect; family preservation; foster care; and adoption. He has addressed these issues by studying both the systems that deliver these services and their impact on families and children. Meezan has written extensively on these subjects, including more than 50 articles and chapters in peer-reviewed journals and anthologies and he has co-authored four books and co-edited six other volumes.

From 1984 to 1985 Meezan served as a Congressional Science Fellow; and from 1993 to 1994 he was a Senior Fulbright Scholar in the Baltic States, helping to start the first social work program in the former Soviet Union. Among other honors, Meezan has been the recipient of the Society for Social Work and Research’s Outstanding Research Award and the Herbert A. Raskin Child Welfare Article Award. He has recently been named a Pioneer by the National Association of Social Workers.

During his distinguished
academic career, Meezan has been the John Miner Professor of Child Welfare at the University of Southern California, the Marion Elizabeth Blue Professor of Children and Families at the University of Michigan School of Social Work, and dean of the College of Social Work at Ohio State University. Because of his depth of expertise, Meezan has been asked to serve as a consultant to numerous social agencies, foundations, schools of social work, and national organizations. He was an expert witness in the class action suit, Joseph A. v. Bolson, brought to reform the child welfare system in New Mexico, which was eventually closed successfully with the state agreeing to implement improved child welfare practices.

Meezan is, as Marcia Robinson Lowry, founder and executive director of Children’s Rights, said, “an innovative thinker and a passionate advocate,” who has made a significant impact in a field that is far from theoretical.

**John P. Tampas**

*Doctor of Science*

For half a century, John Tampas, M.D. ’54 (UVM ’51), has trained countless students and residents in radiology, his chosen specialty. For 26 of those years he led his department as chair, developing a reputation as a fair and capable leader. And outside the classroom, he has shown tireless dedication to his alma mater, playing key roles on numerous alumni committees. All told, his legacy at the College of Medicine spans half of the twentieth century and continues into the twenty-first.

Dr. Tampas received his B.S. from UVM in 1951 and graduated from the College of Medicine in 1954. After fellowships in cardiac and pediatric radiology, he joined the UVM faculty in 1962 as an assistant professor of radiology, beginning a long and distinguished career as a teacher and mentor. He became department chair in 1970 and served in that role until 1996.

Dr. Tampas was twice named UVM Teacher of the Year by medical students and received the Karl Jefferson Thomas Memorial Award for Excellence in Teaching in 1969 and 1975.

In addition to practicing as a radiologist at Fletcher Allen Health Care and teaching medical students, Dr. Tampas has given selflessly of his time as a dedicated alumnus. He has served the Medical Alumni Association for decades, serving as president from 1980 to 1982 and for many years as executive secretary, a position he continues to hold. He chaired the Medical Planned Giving Committee for six years and continues to serve on the Medical Awards Committee. Dr. Tampas’ influence extends beyond the College of Medicine as well; He has served as president of the American College of Radiology and the American Roentgen Ray Society, and has been honored with gold medals from both organizations.

In 1995, the Medical Alumni Association bestowed on Dr. Tampas its highest honor: the A. Bradley Soule Award. Given to alumni whose loyalty and dedication to the College of Medicine most emulate those qualities found in its first recipient, A. Bradley Soule, M.D. ’28, the award was especially meaningful to Dr. Tampas, for whom Dr. Soule was a mentor and a friend. Dr. Soule served as chair of the Department of Radiology for 34 years; Dr. Tampas succeeded him in that position.

In 2005, Dr. Tampas and his wife, Kathryn, made a gift for an endowed faculty position in his beloved department. In a tribute fitting Dr. Tampas’ impact as a teacher, faculty in the Department of Radiology—many of who were trained by Dr. Tampas—were inspired to fund a second endowed faculty position. Called the A. Bradley Soule, M.D. ’28 and John P. Tampas, M.D. ’54 Green & Gold Professor of Radiology, the position recognizes the contributions of both men and their legacies at the College of Medicine.

As part of the University Commencement procession, graduates are given a penny to toss in the University Howard Fountain. The University of Vermont Howard fountain was installed on the academic green in 1874 and has been highlight of campus since. ACADEMIC REGALIA

The Academic Costume worn today in U.S. colleges and universities is a survivor of the Middle Ages. The University of Vermont was among the first in this country to experiment with the use of academic gowns, requiring their wearing at the graduation of 1806. The experiment was not repeated until mid-century when UVM and other colleges began wholeheartedly to use the medieval scholar's clothing for ceremonial occasions.

The code regulating academic costume is administered by an intercollegiate commission that establishes uniform standards. BACHELORS’ gowns have closed fronts and long, pointed sleeves. MASTERS’ gowns may be worn open or closed and have oblong sleeves open at the wrist, the lower portion hanging down with an arc near the bottom. DOCTORS’ gowns may be open or closed and have velvet facings and three velvet bars on the round, open sleeves. The facings and bars may be of black or of the official colors of the wearer's department of learning.

Hoods are usually black. All are lined in silk in the academic color or colors of the institution conferring the degree, with a chevron for additional colors. A University of Vermont hood is lined with green, with a gold chevron, the official school colors. The color of the hood border indicates the degree earned.

The Black Mortarboard is worn for all degrees. Only Doctors’ caps may be made of velvet and only Doctors or Presidents of institutions may wear a gold tassel on the cap.

The Class of 1927 Memorial Mace is carried by the University Marshal at formal university occasions and is displayed on the platform during these ceremonies.

The Mace, a gift from the Class of 1927, is forty-seven inches long, cast bronze, plated in silver, with a black ebony handle. The sculpture on one of the four sides depicts the center section of Old Mill with Mt. Mansfield in the background, symbolizing the founding of the University. Other sides display three students reaching upwards to a lamp, symbolic of learning; the Ira Allen Chapel, symbolizing spiritual guidance; and a group of four persons, symbolizing friendship. It is crowned by the seal of the University.

The Mace was designed and the model sculpted by Richard Simpson, son of Carl G. and Doris Griffith Simpson, both members of the Class of 1927.

The University Seal or Medallion was adopted in 1807 and used until 1871 when it was replaced by a round seal incorporating the name of the College of Agriculture. In 1975 the Board of Trustees voted to restore the original seal to official use, modified to incorporate the Latin name of the College of Agriculture.

The motto on the seal is from Horace, *Epistles* 1.2.36. Literally, it means “For virtuous studies and matters.” In the allusion to Horace’s poem it reflects UVM’s continuing belief in the utility and practicality of all liberal studies.
