- Saturday, July 18, 2009 -

**Cold Climate Mini-Workshop
And
Tour of University of Vermont Vineyard**

**Grape Disease Control
Canopy/Crop Management Field Reviews
Cornell and local NY Vineyards Visits**

Vermont Component

Mini-Workshop and Vineyard Tour

Time: 9:00 - 11:00 am

Where: The UVM Hort. Res. Center (HRC) , So. Burlington, VT

Speakers: Justine Vanden Heuvel, Viticulturalist, Cornell University
Wayne Wilcox, Plant Pathologist, Cornell University
Lorraine Berkett, IPM Specialist, University of Vermont

Tour: UVM vineyard which includes 8 wine grape varieties and 8 table grape varieties. The vineyard is part of both a national USDA winegrape variety trial and an EPA Pesticide Environmental Stewardship project.

Depart at 11:15 am for the Cold Hardy Grape Trial. [Grab lunch on your own along the way.]

New York Component

Vineyard Disease and Canopy/Crop Management Impact (taste wine differences)

Time: 1:30 - 3:30 pm

Where: Cornell Baker Farm, Willsboro, NY

Speakers: Justine Vanden Heuvel, Viticulturalist, Cornell University
Wayne Wilcox, Plant Pathologist, Cornell University
Kevin Iungerman, Cornell Northeast NY Commercial Fruit Program

Visits: The Cornell Cold Hardy Grape Trial has replicated plantings of 25 wine grape cultivars and is supported by Cornell Extension, lay volunteers, and the Northern NY Ag Development Program. Local NY vineyard visits with Wilcox and Vanden Heuvel on July 17. (Contact nak5@cornell.edu regarding related NY vineyards.)

- **Directions to the UVM HRC are at:**
http://www.uvm.edu/pss/dept/hort_farm/?Page=directions.html
- **Ferry Schedule and Rates from Charlotte, VT to Essex, NY are at:**
http://www.ferries.com/south_schedule.asp
- **Directions to the Cornell Baker Farm:** Take Rt. 22 ten minutes north from the NY ferry landing to Willsboro (cross river and up hill) to Farrell Rd. Turn right on Farrell and right again onto Point Rd. Pass the golf course. Look for the Cornell vineyard shortly after on the left.
