

Record Keeping Requirements for Certified Private Applicators – Chap 23

- For all **Restricted Use Pesticides**, Private Applicators shall record at the time of application:
 - 1. Product Name
 - 2. EPA Registration Number
 - 3. Amount Used
 - 4. Date of Application
 - 5. Location of Application (Farm)
 - 6. Pests treated for During each Year
- This information is to be held for **TWO (2) YEARS** and shall be given to the Department upon request.

Record Keeping Requirements for Certified Commercial & Non-Commercial Applicators

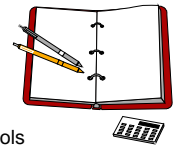

- **Routine Operational Records** – Must be maintained for **all pesticides used**; information must be recorded at time of application and held for a period of 2 years
 - 1. Product Name
 - 2. EPA Registration Number
 - 3. Amount Used
 - 4. Date of Application
 - 5. Location of Application
 - 6. Pests treated for During each Year

Record Keeping Requirements for Certified Commercial & Non-Commercial Applicators

- **Annual Use Reports** = summary of routine operational records – submitted at end of year with certification renewals:
 - 1. Product Name
 - 2. EPA Registration Number
 - 3. Amount Used
 - 4. General Purpose for Use
 - 5. County in which it was used
- Annual Usage report must be submitted even if no pesticides were applied.

Benefits of Record Keeping

- Compliance with regulations
- Document your legal use of pesticides.
- Provide necessary information in a medical emergency.
- Evaluate the effectiveness of your controls and resolve pesticide failures.
- Buy the right amount of pesticide.
- Provide buyers with required records of pesticide use.
- Improve crop rotation decisions.

Transportation of Pesticides Regulatory Requirements

- **Once pesticides are in your possession, YOU are legally responsible for transporting them safely!**
 - Pesticides must be secured during transportation to prevent spillage.
 - All spills in or from the vehicle must be cleaned up immediately and authorities notified.
 - Vehicles use for transporting pesticides should be placarded in accordance with state and federal transportation regulations.

Transportation of Pesticides General Guidance

- All pesticide containers should have intact, undamaged and readable labels.
- Safest method of transport – in back of truck – **NEVER** transport pesticides inside your vehicle!
- Never leave your vehicle unattended when pesticides are in an unlocked compartment or open bed truck.
- Never transport pesticides near children, livestock or food.
