## Q4. How do you feel about Coca-Cola products being sold on campus?

Count	Percent		
477	100.00%		
<b>Count</b>	<b>Percent</b>		
1	0.21%		I hate it. It promotes waste, adds to landfills because people don't recycle, and supports a major corporation that is known for stealing water from small towns to create its water bottle lines.
2	0.42%		.
1	0.21%		=)
1	0.21%		a little upset because i hear they are bad ppl
1	0.21%		Actually do not care. I don't drink soda.-Kofi:)

1	0.21%	<input type="text"/>	all for it
1	0.21%	<input type="text"/>	As long as it is inexpensive, I don't mind. I like the convenience of having different drink options. I also like having the ability to use plastic water bottles. I think it would be very extreme to remove Coca-Cola from being sold on campus.
1	0.21%	<input type="text"/>	As long as there are healthy products being sold at a decent price, I do not care what the brand name is. I would rather have a cheaper product than a specific brand name.
1	0.21%	<input type="text"/>	At a University supposedly fairly committed to the environment and sustainability, it seems wrong to have the massive sales of highly sugared, highly wasteful and environmentally detrimental, as well as ethically questionable products sold in vending machines in every classroom building and residence hall on campus. Yes, we have a choice as to what we put into our bodies, but you're making the wrong choices more readily available than the right ones for our personal health and for the health of the environment.
1	0.21%	<input type="text"/>	Awesome
1	0.21%	<input type="text"/>	Awesome! Coca-Cola is great! I would hate to see Pepsi on campus and I would not buy or support those products. I would buy Coke products elsewhere and bring on campus. Pepsi is skanky and is only drank by trashy people. Gross.
1	0.21%	<input type="text"/>	Badly.
1	0.21%	<input type="text"/>	Coca Cola sucks, it is terrible for people, and it is more expensive on campus vending machines than any other vending machines, not that I buy it anyway
1	0.21%	<input type="text"/>	Coca-Cola is an evil company, and has been for a long time. Yet, UVM is a small business partner to them we aren't that important as a customer. Removing Coca-Cola from campus is not gonna make them less evil.
1	0.21%	<input type="text"/>	Coca-Cola is easily my favorite soda company. From classic Coke to Mello Yello, i am a very frequent drinker of their products. part of my decision to come to UVM rested on whether it was a Coke or Pepsi school.
1	0.21%	<input type="text"/>	Coca-Cola makes me happy. It reminds me of my childhood. Seeing a coca-cola label gives me a warm, fuzzy feeling inside. Actually though, it does.
1	0.21%	<input type="text"/>	Coco-Cola products are pretty much the only thing I drink on campus.
1	0.21%	<input type="text"/>	Coke is terrible for you, making our whole country fat, etc. etc. Not great, that's how I feel.
1	0.21%	<input type="text"/>	Coke pepsi dr pepper all about the same
1	0.21%	<input type="text"/>	Coke products allows UVM to make a lot of money.
2	0.42%	<input type="text"/>	cool
1	0.21%	<input type="text"/>	Couldn't imagine it otherwise
1	0.21%	<input type="text"/>	Damn good.
1	0.21%	<input type="text"/>	Depends on the sats of sales and waste
1	0.21%	<input type="text"/>	Didn't really know about it, don't drink soda.
1	0.21%	<input type="text"/>	Do not care, how about you make the food as a whole better instead of worrying about which beverage corporation monopolizes our campus.
1	0.21%	<input type="text"/>	doesn't affect me
1	0.21%	<input type="text"/>	doesn't affect me.
1	0.21%	<input type="text"/>	doesn't matter
1	0.21%	<input type="text"/>	Doesnt matter.
1	0.21%	<input type="text"/>	doesn't represent what our school is about
3	0.63%	<input type="text"/>	dont care
4	0.84%	<input type="text"/>	don't care
3	0.63%	<input type="text"/>	Don't care
1	0.21%	<input type="text"/>	dont care at all
1	0.21%	<input type="text"/>	Don't care either way
1	0.21%	<input type="text"/>	don't care, don't like
1	0.21%	<input type="text"/>	don't care.
1	0.21%	<input type="text"/>	don't have enough information to disagree with them being here
1	0.21%	<input type="text"/>	Dont like it

1	0.21%	<input type="text"/>	Don't mind.
1	0.21%	<input type="text"/>	Don't really care, probably wouldn't buy it anyway because I have no money.
2	0.42%	<input type="text"/>	Don't really care.
1	0.21%	<input type="text"/>	Enjoy them
2	0.42%	<input type="text"/>	fine
1	0.21%	<input type="text"/>	Fine with it. More options!
1	0.21%	<input type="text"/>	fine with me
1	0.21%	<input type="text"/>	fine, but i would love to see mountain dew
1	0.21%	<input type="text"/>	Fine, Dasani and Vitamin water is all i care about, i like Pepsi.
1	0.21%	<input type="text"/>	fine, people will find any reason to complain. people will find a reason to complain about whatever is put in its place.
1	0.21%	<input type="text"/>	fine.
1	0.21%	<input type="text"/>	Fine.
3	0.63%	<input type="text"/>	good
2	0.42%	<input type="text"/>	Good
1	0.21%	<input type="text"/>	good option to have
1	0.21%	<input type="text"/>	Good partnership, good drinks
1	0.21%	<input type="text"/>	good!
2	0.42%	<input type="text"/>	Good.
1	0.21%	<input type="text"/>	great
1	0.21%	<input type="text"/>	Great
1	0.21%	<input type="text"/>	Happy :)
1	0.21%	<input type="text"/>	Honest Tea is awesome, I dont care about the products but the prices are ridiculous. How can you sell Coke if they charge us up the asshole for a water.
1	0.21%	<input type="text"/>	Honestly I don't care. I really only drink water and I get that from the tap.
1	0.21%	<input type="text"/>	Honestly, I don't drink any soda or any of the above products so I could really care less if Coca-Cola products were sold on campus. However, I think it would be a good thing if they weren't sold on campus because they're not necessarily good for you.
1	0.21%	<input type="text"/>	Horrible environmental practices!
1	0.21%	<input type="text"/>	hypocritical
1	0.21%	<input type="text"/>	I am ambivalent. I would rather support a smaller business
1	0.21%	<input type="text"/>	I am completely indifferent
1	0.21%	<input type="text"/>	I am glad they are sold on campus
1	0.21%	<input type="text"/>	I am indifferent.
1	0.21%	<input type="text"/>	I am not a fan of them-- however, I think it's important that there are replacement beverages sold on-campus at a moderate price. I am not in favor of the Coca-cola company, however I do not think that all sodas and bottled beverages should be removed from campus.
1	0.21%	<input type="text"/>	I am quite glad they are sold on campus.
1	0.21%	<input type="text"/>	I am really glad they are sold on campus.
1	0.21%	<input type="text"/>	I am very disapointed about this. The fact the UVM is sponsoring enviroental degradation and social injustice while purpoting to be for justice hurts my heart everytime I step foot on campus of pay my tuition fees.
1	0.21%	<input type="text"/>	I can't imagine them not being sold on campus.
1	0.21%	<input type="text"/>	i could care less. i dont drink soda or Dasani. keep odwalla though those are good
1	0.21%	<input type="text"/>	I did not know Hoest Tea was Coca -cola. I will be less likely to buy it, if I ever purchase it again.
1	0.21%	<input type="text"/>	I didn't know about the controversy until very recently
1	0.21%	<input type="text"/>	I do not believe in the ethics of the Coca-Cola company. I think that pushing for local products, as well as promoting the use of reusable bottles with be a much better alternative

			for UVM. There are many alternatives to this switch environmentally, politically, socially and economically. I do understand, however that this will be a dramatic change. If it comes down to it, UVM needs to at least cut down on its reliance of Coca-Cola.
1	0.21%	<input type="text"/>	I do not care either way i mainly drink water.
1	0.21%	<input type="text"/>	I do not drink soda, however I do enjoy juices and teas that are in part of the coca-cola products.
1	0.21%	<input type="text"/>	I do not feel as though it is necessary for Coca-Cola products to be sold on campus. I am not fond of the company or the products they offer and do not feel as though they are providing any nutritional value to students.
1	0.21%	<input type="text"/>	I do not like corporations. I would LOVE to see LOCAL products featured.
1	0.21%	<input type="text"/>	I do not mind Coca-Cola products being sold on campus because I do not drink them often.
1	0.21%	<input type="text"/>	I do not think that they are necessary. I would be perfectly happy without them, also I think the less products we sell in plastic bottles the better (particularly bottled water). We should encourage the use of refillable bottles.
1	0.21%	<input type="text"/>	I don't buy any, so indifferent.
1	0.21%	<input type="text"/>	I don't buy food/beverages on campus they're overpriced.
1	0.21%	<input type="text"/>	I don't buy my coca-cola drinks on campus, so I don't care.
1	0.21%	<input type="text"/>	I don't buy them, but I wouldn't buy Pepsi products either. I think a lot of people like them.
1	0.21%	<input type="text"/>	I don't buy them, so I don't give it much thought.
1	0.21%	<input type="text"/>	I don't buy them.
1	0.21%	<input type="text"/>	I don't care about soda but Odwalla is a Coca-Cola product and I have at least one of those a day
1	0.21%	<input type="text"/>	i dont care either way
1	0.21%	<input type="text"/>	I don't care that much but I like the option of a soda if I want one.
1	0.21%	<input type="text"/>	I don't care, I just drink water, Monster, Milk, OJ and Half and Half
1	0.21%	<input type="text"/>	I don't care, I just want more alternatives to coca-cola products than water in dining halls.
1	0.21%	<input type="text"/>	I don't care, people can drink whatever they want.
1	0.21%	<input type="text"/>	i dont care.
1	0.21%	<input type="text"/>	I don't care.
1	0.21%	<input type="text"/>	I don't care... so long as they don't have a monopoly
1	0.21%	<input type="text"/>	I don't Coke offers a large variety and I get tired of their products quickly. If it means anything, I prefer Pepsi products to Coke products.
1	0.21%	<input type="text"/>	I don't drink anything other than water so I could care less
1	0.21%	<input type="text"/>	I don't drink bottled drinks except Snapple.
1	0.21%	<input type="text"/>	I don't drink coca-cola products, so it doesn't have all that much effect on me. i'm not aware of any issue related to those products being sold on campus, so i can't really comment about it.
1	0.21%	<input type="text"/>	I don't drink many Coca-Cola products except for Dasani waters, but prefer other waters to Dasani. I have no real opinion about the fact that Coca-Cola products are sold on campus.
1	0.21%	<input type="text"/>	I don't drink soda.
1	0.21%	<input type="text"/>	I don't drink sodas, or bottles teas, or water, but if we are to have such beverages, I think we should have products that are healthy all around: in terms of nutrition, sustainable practices within the company, etc.
1	0.21%	<input type="text"/>	I don't drink soft drinks and they rot your teeth. Besides any product that monopolizes a business and basically endorses deaths in the countries which they rely on for production should not be sold on campus. Businesses such as Coca Cola have been allowed to sell anywhere they want because of such high demand for their products. Nike, for example, continues to export their production out-of-country to immensely poor regions of the Middle East and Indochina where horrible, far below ethical, wages are given to people who really can't afford to not take the company up on that offer (these wages are barely enough to pay for food for one person, let alone a family). And yet, Nike still sells millions of shoes to Americans and other 1st world citizens unaware of this. Why let another huge business capitalize from our campus? Let's stop this cycle and get our people educated as to why their favorite soft drink is not available at the Marche anymore by ridding Coca Cola from our campus!
		<input type="text"/>	

1	0.21%	<input type="text"/>	I don't drink them that much
1	0.21%	<input type="text"/>	I don't feel like i have enough information on the true pros and cons of the situation to make an educated decision, but what I've heard about Coca-Colas dealings in South and Central America, it's not about what products are nice to have, it's about what is morally correct.
1	0.21%	<input type="text"/>	I don't have a problem with it
1	0.21%	<input type="text"/>	I don't have an opinion one way or another. I drink them occasionally, and enjoy them, but have no particular attachment to them.
1	0.21%	<input type="text"/>	I don't have feelings one way or another.
1	0.21%	<input type="text"/>	I don't like Coca-Cola as a company, bottled water should be banned outright, but Dr. Pepper is tasty on occasion....
1	0.21%	<input type="text"/>	I don't like it. Coca Cola is notorious for exploiting its workers, and I think it is unacceptable that UVM still sells its products. Also, it is such a large company that it kills small local soda businesses. It seems contrary to everything UVM stands for to be selling Coke products on campus.
1	0.21%	<input type="text"/>	I don't like soda, but I like honest tea, and minute maid is the only maker of orange juice, which I enjoy.
1	0.21%	<input type="text"/>	I dont like supporting the company
1	0.21%	<input type="text"/>	I don't like the soda, but I enjoy Vitamin Water Zero.
1	0.21%	<input type="text"/>	I don't mind having Coca Cola on campus, but bottled water is unnecessary. There are so many water fountains and people should buy reusable water bottles because it will save them money in the long run and the plastics from the bottles that bottled water is in is detrimental to the health of a human.
1	0.21%	<input type="text"/>	I don't mind if other people like to drink them, I only buy vitamin water out of the above listed drinks. So it would not really affect me too much.
1	0.21%	<input type="text"/>	I don't mind if they're not sold but I need to have other options, you can't just take them away and stop offering a variety of drinks.
1	0.21%	<input type="text"/>	I don't particularly like the school supporting a company known for it's questionable investments and global relations, but I would be concerned at what would come to replace the Coke contract in the future. Would any quantitative gain be made in terms of responsible consuming and investing by the University?
1	0.21%	<input type="text"/>	i dont really care
1	0.21%	<input type="text"/>	I don't really care I'm more of a water drinker
1	0.21%	<input type="text"/>	I don't really care, it doesn't bother me.
2	0.42%	<input type="text"/>	I don't really care.
1	0.21%	<input type="text"/>	I dont really drink Coca-Cola products, so I don't care.
1	0.21%	<input type="text"/>	I don't really drink coke products, so it isn't a huge deal to me.
1	0.21%	<input type="text"/>	I don't really mind either way.
1	0.21%	<input type="text"/>	I don't support the company and it bothers me that things like honest tea are now owned by their company. I think that instead we should be supporting more local or small companies.
1	0.21%	<input type="text"/>	I don't support the sale of Coca-Cola products on campus. Their practices within the United States and abroad are killing people and ecosystems. The Coca-Cola beverage itself is not even hydrating... and there are alternative soda beverages that could be sold to benefit smaller beverage companies with more socially acceptable practices.
1	0.21%	<input type="text"/>	I don't think it is necessary because i personally don't drink a lot of their products.
1	0.21%	<input type="text"/>	I don't think it should be sold on campus. It's pretty clear they're an awful corporation and such being the progressive University that UVM is, we should take the lead on this. Also, they're Dasani "water" has trace amounts of salt in it to encourage consumers to buy more. It was banned in the UK for this reason. No other water bottle manufacture does this.
1	0.21%	<input type="text"/>	I don't think it's that bad. Soda's aren't very good for you, and I don't see a need to sell bottled water (of any brand) when people can fill up reusable water bottles, but it doesn't matter to me one way or another whether or not Coca-Cola products are sold.
1	0.21%	<input type="text"/>	I drink coffee mostly, so they don't affect me too much.
1	0.21%	<input type="text"/>	I drink coke and like coke, but I'm more of a pepsi fan
1	0.21%	<input type="text"/>	I drink Dasani because it's the cheapest water sold here, but other than that I don't consume much soda

1	0.21%	<input type="text"/>	i drink soda, but i think that it is necessary to have. its not good for kdis and it would eliminate a lot of plastic bottles from being sold.
1	0.21%	<input type="text"/>	I enjoy a diet coke every once in a while as an afternoon pick me up but if say wanu were sold instead, that would be sweet!
1	0.21%	<input type="text"/>	I enjoy having a steady supply of orange juice (Minute Maid) available at the dining halls; however, I am sort of in a double bind at the moment, as alternative juice options are sparse to say the least. I feel more or less confined to the Coke realm when it comes to dining halls. Were there other juice options as readily available and affordable as the Minute Maid/Coke options (Odwalla is wonderful but EXPENSIVE), I would certainly reach for them.
1	0.21%	<input type="text"/>	I enjoy having Coke products on campus, but the vending machines are often problematic.
1	0.21%	<input type="text"/>	I feel as if they're a guilty pleasure and that's nice to have available but it's extremely unhealthy so if it were to not be sold on campus, that could be a very positive thing
1	0.21%	<input type="text"/>	I feel as though they are a waste of resources and money
1	0.21%	<input type="text"/>	I feel it is our duty as a green university to sponsor a local, environmentally concerned organization to provide us with beverages.
1	0.21%	<input type="text"/>	I feel it is very convenient, but there is a lot of wasted energy to keep cool, and light the machines, which are not necessarily needed.
1	0.21%	<input type="text"/>	I feel like they show UVM's extremely cold-hearted financing, seeing as Coca-Cola is a monster of a company.
1	0.21%	<input type="text"/>	I feel that as a university population that is aware of what coke does to our bodies, agricultural systems, social systems, and the economy, that it is embarrassing that it is still sold on campus! Please get coke of campus!
1	0.21%	<input type="text"/>	I feel that Coca-Cola is a thieving, unethical, murderous corporation, and it disgusts me that an institution claiming to be as socially and environmentally paramount would disgrace themselves with such an association.
1	0.21%	<input type="text"/>	I feel that having Coca-Cola on campus is inconsistent with the school's policies of environmental justice and its vision as a leader in the environmental movement.
1	0.21%	<input type="text"/>	I feel that it gives students an unhealthy option, that if they don't want to leave their dorms they don't have a healthy choice.
1	0.21%	<input type="text"/>	I feel that it is a necessary evil. realistically it does not bother me that it happens to be coke selling their products. The amount of money that the school gets by selling coke products can only really be matched by another awful conglomeration so who the fuck cares which company that is.
1	0.21%	<input type="text"/>	I feel that it is rather inevitable.
1	0.21%	<input type="text"/>	I feel that it's hypocritical of our school, since UVM is considered an &quot;environmental&quot; or &quot;green&quot; school. I think that it also promotes the idea of white supremacy being a giant American corporation taking advantage of developing countries.
1	0.21%	<input type="text"/>	I feel that its okay. I am personally a Pepsi drinker so having it not be given in campus dining areas is pretty disappointing
1	0.21%	<input type="text"/>	I feel that they should be on campus for the people that want them, if you do not want the drinks then just not buy them.
1	0.21%	<input type="text"/>	I feel that they're a huge company, selling poor quality drinks.
1	0.21%	<input type="text"/>	I feel the juices are good, but the soda does not appeal to me.
1	0.21%	<input type="text"/>	I feel they contradict what the university claims to represent, particularly concerning social and environmental justice.
1	0.21%	<input type="text"/>	I feel upset
1	0.21%	<input type="text"/>	I guess I'm indifferent since I don't typically buy them ever. At the same time I am not fully aware of all the products coca-cola has in its line up, is it only drinks? I will however say, that when I do drink soda I enjoy coke zero and sprite (but from a soda fountain). As far as the water goes, its a habit of mine to fill up my reusable bottle at home with my brita before I come to campus. Before I started doing this, I would on occasion buy bottled water. It was convenient, cold, filtered water, and it was a better option than buying juice or sports drink. And when you don't have a refillable bottle/ or aren't a fan of tap water taste it is a nice alternative to have.
1	0.21%	<input type="text"/>	I hate Coca-Cola please get them off campus. NOW!!!!
1	0.21%	<input type="text"/>	i hate it. coca cola is an awful company and it really bothers me that i learn about how awful and exploitative they are in classes here and then WE SUPPORT THEM BY SELLING THEIR PRODUCTS
		<input type="text"/>	

1	0.21%	<input type="checkbox"/>	I hate it. There is almost no alternative and I feel like students are forced to support a company that is unethical. Therefore I drink only tap water and milk. I will not buy Coke products.
1	0.21%	<input type="checkbox"/>	I hate Pepsi so i'd rather coca-cola but I also think that it would be a great thing for UVM to get rid of the brand and it would make the school better
1	0.21%	<input type="checkbox"/>	I have always liked coca-cola more than pepsi products.
1	0.21%	<input type="checkbox"/>	I have heard/learned about some troubling practices associated with Coca-Cola as a company.
1	0.21%	<input type="checkbox"/>	I have never liked the idea of bottled water or vitamin water. It seems so unnecessary. I get very annoyed by those who drink such products religiously.
1	0.21%	<input type="checkbox"/>	I have never truly taken sides on the Coca-cola issue until recently, but I must admit my stance now is "Anti-Coke";
1	0.21%	<input type="checkbox"/>	I have no issue with Coca-Cola products being sold on campus. They are the best product for the price.
1	0.21%	<input type="checkbox"/>	I have no moral or ethical objections to Coca-Cola
1	0.21%	<input type="checkbox"/>	I have no problem with it.
1	0.21%	<input type="checkbox"/>	I have no problems with it. My biggest complaint would be regular unflavored water being sold on campus.
1	0.21%	<input type="checkbox"/>	I have nothing against Coca-Cola but the question would be what would replace it? Coke Family>Pepsi Family
1	0.21%	<input type="checkbox"/>	I honestly lean towards supporting the removal of Coca-Cola products from campus. Although, if it upset a majority of the student body I would be oppose to it.
1	0.21%	<input type="checkbox"/>	I just want water bottles
1	0.21%	<input type="checkbox"/>	I like Coca-Cola a lot more than Pepsi products.
1	0.21%	<input type="checkbox"/>	I like Coca-Cola products way better than Pepsi products, so if they switched I'd be mad. But, if it is for a really good reason I would have to understand.
1	0.21%	<input type="checkbox"/>	I like Coke but it's not that big of a deal to me.
1	0.21%	<input type="checkbox"/>	I like having Diet Coke, but know that Coca-Cola isn't the best company to purchase products from.
1	0.21%	<input type="checkbox"/>	i like having it around.
1	0.21%	<input type="checkbox"/>	I like having lemonade and waters

1	0.21%	<input type="checkbox"/>	I really would rather not have Coca-Cola products be sold on campus. They require nine liters of water to produce one liter of coke. 1	0.21%	<input type="checkbox"/>	I support it
1	0.21%	<input type="checkbox"/>	I suppose it provides a goods market for a corporation, and therefore somewhat promotes the economy, but I do not admire Coca-Cola's actions as a company and think that their products are unhealthy.
1	0.21%	<input type="checkbox"/>	I think all big companies have views that are conflicting with the rest of mankind.
1	0.21%	<input type="checkbox"/>	I think Coca Cola has a very checkered past in terms of human rights displayed by its actions in Colombia, etc. That's my main concern about doing business with them.
1	0.21%	<input type="checkbox"/>	I think Coca-Cola is a very unethical business and I think it is ridiculous that our campus continues to support them, simply because the company makes it easy to. Students would get on fine without Coca-Cola products on campus. If the school wants such a good reputation, why not get rid of something that actually matters, instead of teachers, space, and quality of classes.
1	0.21%	<input type="checkbox"/>	I think healthier options should be sold, more Vermont/New England made products.

1	0.21%	<input type="checkbox"/>	I think it's necessary that they keep being sold in Dining Halls and in other places where there are soda fountains, but I think it would be fine to get rid of the bottle Coca-Cola products.
1	0.21%	<input type="checkbox"/>	I think it's pretty stupid. In addition to the common ethical, environmental, and economical worries, Coke products just suck compared to products of a similar nature to coke's that are produced by smaller companies. (i.e. rookie's root beer v barq's)
1	0.21%	<input type="checkbox"/>	I think soda is gross, but the Honest tea and Minute Maid is fine. I do not drink them so they don't have much impact on my life.
1	0.21%	<input type="checkbox"/>	I think that although it may be considered "socially irresponsible" by some, I think students enjoy Coke products and the Coca-Cola is making efforts to improve their humanitarian image.
1	0.21%	<input type="checkbox"/>	I think that Coca Cola should be sold, but students should be aware that plastic bottles should be used minimally.
1	0.21%	<input type="checkbox"/>	I think that Coca-Cola is a large corporation which is socially irresponsible, and it is nearly impossible to hold them accountable for their actions. I think that the UVM community would do better to have locally sourced socially responsible products.
1	0.21%	<input type="checkbox"/>	I think that granting any company a monopoly by contract is unfair. I also think that they are not socially responsible, and as an academic institution that is something we should be conscious of. Also, the majority of their products have negative effects to human health. Is that clear?
1	0.21%	<input type="checkbox"/>	I think that if this school wants to boast about its sustainable values, it should divest from corporations with well known environmental, cultural, and humanitarian insensitivities. I don't need to quote statistics. Just the fact that this survey is being conducted means that UVM can no longer be a patron of Coca-Cola with the excuse of ignorance. I think that if we want the Davis Center to stand for something, then this the first place Coca-Cola products should be banned from. The first part of a campus wide eradication of unnecessary waste and support for a company with human rights violations on its tract record.
1	0.21%	<input type="checkbox"/>	I think that it is disgusting that UVM supports this company.
1	0.21%	<input type="checkbox"/>	I think that it is not representative of our school's commitment to environmental and social justice.

1	0.21%	<input type="checkbox"/>	I think that they should be banned
1	0.21%	<input type="checkbox"/>	I think that we absolutely should not be selling Coca-Cola products. The company embodies much of what UVM claims to be working against. We could offer more local, sustainable, fairly produced products.
1	0.21%	<input type="checkbox"/>	I think the sale of Coca-Cola products on campus is in conflict with UVM's standards for social and environmental responsibility.
1	0.21%	<input type="checkbox"/>	I think they are a waste of plastic

1	0.21%	<input type="checkbox"/>	I think we are contributing to poverty in India--Coca Cola and other major companies use water in India, depleting resources that Indians need.
1	0.21%	<input type="checkbox"/>	I understand that since it's a large company it's easy to have a contract with them and is probably relatively cost efficient but nonetheless I don't think they should be sold at all.
1	0.21%	<input type="checkbox"/>	I understand that they have questionable labor ethics, and that the bottles are harmful for the environment but what are we going to do if we just get rid of them all? 1	0.21%	<input type="checkbox"/>	I want vitamin water.
1	0.21%	<input type="checkbox"/>	i wish bottled products weren't sold at all on campus. However, I like coke from a soda fountain better than pepsi? If i do consume it at all

1	0.21%	<input type="checkbox"/>	I'm largely indifferent, but I rarely consume them, so I would be okay if it wasn't on campus.
1	0.21%	<input type="checkbox"/>	I'm okay with it, I think all of this bullshit about coca cola being "inhumane" is taking it a little far... even for UVM
1	0.21%	<input type="checkbox"/>	I'm really indifferent about it. I don't drink soda that much, so I really don't care too much.
1	0.21%	<input type="checkbox"/>	I'm surprised that Honest Tea and Vitamin water are both Coca-Cola products. 1	0.21%	<input type="checkbox"/>	Immoral and unethical. Also delicious.
1	0.21%	<input type="checkbox"/>	In order to live up to UVM's image of being a higher education institution breaking ground in the sustainability movement I think it is crucial that the university take this next step in approaching a greener campus by making Coca Cola products obsolete.

Also, as Coca Cola owns Glaceau (and just about everything else), It is also important that we keep Smart Water on campus, a key source of student hydration. I believe that Coke products will be sorely missed. I understand that Coca Cola has fucked over several of the less fortunate parts of our planet, if thats what this is all about, but what large corporation hasn't? Don't give in to protesters. Those whose chief hobby is criticizing the consequences of the capitalist system but who still live a basic consumer lifestyle are not representative. Most of us don't care about the third world, and we want our beverages. Besides, the real issue isn't just Coca Cola. Its a general lack of corporate responsibility all over the world. What do you expect to happen in nations without governments capable of defending their people from exploitation? All Coca Cola wants is money, they aren't self restricting and morally guided. Its not their fault. Its government's faults for not stopping them.

After some research of my own I stumbled across some truly horrible facts. The thing that stands out the most to me occurred in India ( and Africa if I am not mistaken) Coca-Cola bought up land water rights (privatized water sources) and began depleting local wells for its product. On top of depleting local aquifers they started selling their product for dirt cheap (lets say \$.50 a 2 liter of Coke, vs. \$3.00 for a liter of Water), and compared to the water prices that is all the locals could afford. It must also be noted it takes 2-3 liters of Water to make one liter of Coke. So locals were essentially forced into having to purchase this product, while they had no water for agriculture, bathing...etc. It is just crazy... Moral of the story is there is a lot of dirt out their on this company. A lot of this stuff is terrible, and truly shows the abuses of human rights. Take some time to look into it before you think the people against it are &quot;radical&quot;. If anything ignoring these truths just perpetuates injustice.

1	0.86%	<input type="text"/>	I'm not a fan of honest tea although I like iced tea in general. Desani water is good,(and tastes better than the water fountain) but I usually fill up my bottle with my brita pitcher at home. I Don't drink soda often, but sometimes I like to with a meal at brennans but (the fountain soda)... I understand the issue the plastic bottles increase our waste production and carbon foot print, which makes sense. I do think eliminating them on campus entirely is not a good idea, as people like to have choices /drink options. I think keeping the fountain sodas is fine since it is a cheap way of providing soft drinks without having plastic bottles. However fountain soda requires coated paper cups (which I don't think are recyclable), plastic lids, and plastic straws, so that might be creating an increase in a diff type of waste (non-recyclable). Glass is the most effectively/efficiently recycled material, maybe only offering drinks in glass bottles would be an alternative. I mean coca-cola/soda in glass bottles is what is commonly found in places like mexico, but the coca-cola bottling facility that we work with may not have the equipment to use and reuse glass bottles for packaging their beverages. I guess the real question is what is the issue about, the beverage or how it is being packaged? From my understanding the issue is the plastic bottle the beverages come in. So if the company can offer the lineup of beverages (either all or some) in aluminum cans or glass bottles we might want to think about having only those type of packaged beverages in the fridge cases and the vending machines.
1	0.86%	<input type="text"/>	In response to the above question, I don't throw out any bottles but recycle them all.
1	0.86%	<input type="text"/>	Its a personal thing. You cant just take away water bottles from campus. If people want to not use or reuse bottles they can, but to force others that may not have time is ignorant. 1	0.86%	<input type="checkbox"/>	While I understand that providing beverages to be sold is a priority in many of the vendors on campus, there are smaller companies which could offer similar products, and are probably used to losing contracts to businesses as large as Coca-Cola. Lets start by giving them business. The other thing which I've seen activism and no action about on campus is the discontinuation of bottled water at UVM. What is the point of providing reusable water bottles and refill stations to a public who could just as easily by a bottle of water. The shear &quot;inconvenience&quot; of actually having to think about where your water is coming from that this would create would further reinforce the values posted all over camps. This will not happen until bottled water stops being sold here at UVM.

1	0.86%	<input type="checkbox"/>	why not just sell all soda brands and not be contractually obligated to just Coke. That might have been a dumb question, but if RC and Pepsi were also sold I'd buy them more often than Coke
