BE IT RESOLVED that the following information is useful in the selection of undergraduate classes and should be provided in all expanded section descriptions:

A. Assignment types and their weight on the course grade, the method of instruction for the class, attendance policy, and how knowledge from pre-requisites will be used in the course,

B. The knowledge that students will have after completion of the course, the value added, an explanation of the topics and principles of the course, and examples of previous books used in the course,

BE IT FURTHER RESOLVED that any restrictions on the quantity of information in an enhanced section description should be removed,

BE IT FURTHER RESOLVED that the Committee on Academic Affairs effectively communicate the aforementioned information to both faculty and administration and ensure that maximum amount of enhanced section descriptions are completed.
