

Why CALS for your cross-college major?

1. Diverse array of majors
 - a. Basic sciences, applied sciences, social sciences
 - b. Interrelated majors and minors
2. Small size, big opportunities
 - a. maximum faculty-student interaction
 - b. get to know your peers; feeling of "family"
3. Strong advising support
 - a. Award winning teaching and research faculty are your advisors
 - b. Assigned an advisor in your discipline area immediately (CAS and RSEN have first year advisors)
4. Flexible curriculum
 - a. Not restricted to number of credits taken in CALS (no "96 credit in our College" rule)
 - b. Minors not required, but CALS majors can have a minor which can be pursued in any college (not restricted to CALS)
 - c. No language requirement for the College
 - d. University diversity requirements also count toward CALS humanities and/or social science requirements
5. An abundance of hands-on learning experiences inside and outside the classroom available, enhanced by off campus facilities. CALS student typically engage in experiential learning, community service learning, internships, undergraduate research and study abroad.
6. A first year program that supports transition of students from the high school to college environment
 - a. Peer advisors
 - b. Information about CALS, University and community services
