

FACULTY SENATE

The 'Guidelines for Expedited Tenure Review Process for Incoming Administrators with Faculty Appointments' document has been revised so as to be inclusive of the various administrative structures, including Schools within units and standalone Schools. This replaces the previous document, which was most recently revised on Feb. 24, 2020. The previous version was not inclusive of all administrative structures, hence the revised document.

The document was reviewed by the Professional Standards Committee in February 2024. It will be available on the Provost's website [here](#).
