Locations of Field Placements and Distance From Campus
Field placement opportunities exist throughout the state of Vermont and even in some of the towns in the bordering states of New Hampshire and New York. No student will be expected to travel in excess of one hour from campus (one way) to their field site. However, this does not preclude students from requesting placements that are further from campus. For example, we have students who commute up to three hours to campus and often times request that their field placement is in (or close to) their hometown. Every effort will be made to accommodate this request. Additionally, we have students who are eager to, for example, do their field placement at Dartmouth Hitchcock Medical Center or the VA Medical Center. Both are almost two hours from campus but because of a student’s specific interest and willingness to commute, we look at those options. Students are responsible for the cost of travel to and from their sites regardless of the distance travelled.
