"Traveling to New Zealand was a great opportunity to see the world and an even better opportunity to see how another culture teaches children. My semester abroad was the best one of my college career because of how much I learned about myself and others."

—Michelle Russell

Making  Difference

Studying to Become a Teacher?
Try it out... *in New Zealand!*

THE UNIVERSITY OF VERMONT
COLLEGE OF EDUCATION AND SOCIAL SERVICES

Live. Learn. Explore. Discuss. Examine. Analyze. Notice. Evaluate. Discover. Laugh.

Combine your **passion for teaching** and youth with your **desire to explore** the world!

Are you currently enrolled in the Elementary or Middle Level program here at UVM? Are you interested in a study abroad experience? Consider applying for our Auckland University of Technology (AUT) Educators Partnership. In this unique and exciting program, students enroll in Auckland University of Technology's innovative teacher education courses for one semester. You will attend a variety of classes on a AUT campus, participate in a student teaching internship in New Zealand public schools, experience the beautiful New Zealand landscape, and make lifelong friendships.

Auckland University of Technology (AUT)

If you want an education that is active, stimulating and transforming - one that will prepare you for an exciting future - then discover **Auckland University of Technology (AUT), the University for the changing world**. AUT is a contemporary university with a distinctive approach to teaching and learning, focused on providing student-centered, innovative and responsive learning experiences. Programs are designed for modern careers and engaging learning environments that embrace people, cultures and ideas.

Spring Semester (USA Spring = NZ Fall)

- **Curriculum Studies: Reading, EDCR 514:** Examine and critique different methodologies and pedagogical approaches for the teaching of reading.
- **Curriculum Subject: Mathematics, EDCR 513:** Explore and describe children's development in mathematical understanding using various assessment strategies.
- **Internship in Auckland School:** Observe, assist and teach in a local public school between 6 to 12 hours per week.

Meet our New Zealand Partners

Balmoral Primary and Intermediate School is an innovative and forward-thinking school, where teachers and students feel challenged and safe while innovating, making mistakes and achieving great things. Teachers and children can gain a greater understanding of the world around them, and parents play an active role in their children's learning.

Takapuna Normal Intermediate School is a great place to learn, teach and work. The school takes pride in seeking excellence in both curriculum and extra curricula activities by personalizing study for the emerging adolescent child. Students gain lifelong learning skills enabling them to actively participate and succeed in a rapidly changing world.

Blockhouse Bay Intermediate School aims to educate the whole child. Learning and teaching inside and outside the classroom focuses on developing skills academically, socially, culturally (through music, drama, dance and art) and through competitive and non-competitive sporting opportunities.
