

ANDREW RANALLO

SGA Senator

My name is Andrew Ranallo, and I am a second-year political science major at UVM. I am running for a Senatorial position in the Student Government Association because I want to get more involved in the UVM community in order to make a positive difference for my classmates. I am interested in strengthening the University's commitment to making UVM a safe and welcoming environment for all students. My goal is to be a transparent advocate for all students regarding any issue that might concern them.

This is my second year running for a senatorial position on the University of Vermont Student Government Association. During my second semester, I was elected to the Finance Committee, where I have continued to serve for the past three semesters. As a previous member of the Finance Committee, I have worked hard to remain fair and impartial for all students groups, clubs, and organizations. If reelected, I will continue my work on the Finance Committee and push to make SGA's financial policies more open and transparent for the student body.
