

I want to be YOUR SGA President!

## About me!

- Junior studying Agroecology and Landscape Design
- On my 2nd term of SGA as the Chair of the Committee on the Environment
- My hometowns are Addis Ababa, Ethiopia and more recently Swampscott, MA
- Free time = reading, watching sports, being an intramural champ:)
- My UVM communities include SGA, Orientation, Campus Rec, Athletics, and UPB

## What I have been up to:

I proposed legislation to representatives to address opioid overdoses in the Burlington community which resulted in the bill H.705

Addressing the lack of response and resources provided to marginalized communities on campus

Developing a peer training course on preventing interpersonal violence at UVM, a result of student protest and action

Served on multiple hiring committees as a student voice

Working on an on campus thrift store aimed at reducing the waste we send to landfill

## Why I'm running:

- I love UVM! ...but there is much work to be done
- My widespread involvement and work on campus has led me to be qualified for this position
- To strengthen the relationship between SGA and the student body
- To increase resources for students and clubs
- To hold admin and SGA accountable to students' needs
- To advocate for the student voice, especially those with marginalized communities
