COLE 4 SGA

I am seeking a position within the SGA because I want to be able to get involved within the UVM community and help make changes that we as the student body feel necessary to address.

I would be a good candidate because I have over four years' worth of experience in student government. In addition, I am a very hard worker and would put ample time into the SGA. I always have a positive attitude in everything I involve myself in.

I have found in my short time here at UVM there is a strong sense of community among the student body and I would like to help be a part of that!!!
