

Cooper Bullock

For UVM Student Government
Association Senate
2023-2024

Who am I?

My name is Cooper Bullock, and I am from Northfield, MA (a very rural area in Massachusetts). I am a freshman here at UVM studying political science and Spanish. Outside of the classroom, I enjoy traveling to new places, and exploring language and culture.

Experience

4 years- **Class President and Student Council**
3 years- **Secretary of the National Honor Society**
Founder of **2 local organizations dedicated to environmental stewardship and education**

My Plan if Elected:

Making connections

- **Engage** with university students, staff, faculty, and administration to understand their perspectives on what UVM is doing well at, and **listen** and **discuss** their ideas for creating greater opportunities and culture

Building partnerships between UVM and Burlington Area

- **Work** with organizations in Burlington to **develop** opportunities for students to **engage** with the issues facing the community of Burlington

6 THINGS

THINGS TO KNOW ABOUT ME AND MY IDEAS

1

Listen & Communicate

Listening is one of the most valuable skills you can possess. While I can not promise that I will always agree with something you say, I will always be there to have a dialogue about concerns, or questions about UVM.

2

Openness

Openness in leaders is something we don't often see. I feel as though to be effective, you must be transparent about who you are and what actions you are taking, and I plan on making this a priority.

3

Growth & Perspective

I'm not an expert on UVM and what is happening here. Over the next 4 years, I look forward to learning and exploring the good and the bad of UVM from all perspectives.

4

Greater Voice

If elected, I plan to be a voice not only for myself but for the entire UVM community. Every person on this campus deserves to be heard no matter how difficult the subject may be.

5

Academic Success

Success in the classroom does not always mean a good grade. It means learning and engaging in something new. I want to make sure every person is celebrated for this.

6

Supporting the Mind

Equal access to all health services is a first step in creating a better UVM. Mental health services including counseling access, support animals, and more are vital to community achievement.
