

Jacob Fleming

For SGA Senate

About Me

I am from Spring Grove, PA. Some of my hobbies include playing the flute and reading and I am a Music and Political Science double major

My past leadership experience includes being elected Senior Class President, being chosen as captain of my high school Speech and Debate Team, and being a leader of many high school student organizations.

My Vision for SGA

I firmly believe that compromise is vital to any form of democratic government. While I am strong in my convictions, I also understand that others are equally strong in theirs. I will strive to work with fellow senators to ensure that the best outcome for the most people is achieved and the only way to do this is through compromise.

Some of the issues that I am most concerned about around campus include the lack of Wi-Fi reliability and the apparent mishandling of the COVID-19 outbreak at the beginning of the semester. I believe that these issues should have relatively simple solutions that I hope to be a part of.
