

UVM STUDENT GOVERNMENT
ASSOCIATION CANDIDATE

MATISSE ARNONE

ABOUT ME

My name is Matisse(he/him) and I'm from Iowa City, Iowa majoring in Environmental Studies in the honors college. In addition to participating in high school student government, I was in Iowa Youth Congress and volunteered in several local and national political campaigns plus was a schools for Climate Action advocate for Environmental Education in the 2023 US legislative session.

WHY I'M RUNNING

One of the reasons I came to UVM was because of the campus-wide efforts towards sustainability which is so big here, but I have also recognized that there are still ways for the school to keep improving. In my few weeks on campus, I have noticed disparities in student treatment and the UVM experience. It is essential that all students receive the same great access to the UVM experience we deserve.

MY PROMISE

I enjoy talking to new people, but I think that what is more valuable in a future Senator is the ability to listen actively. I promise to seek out the perspectives of all students while making decisions because as a Senator I am there for the entire student body.
