**NEW** Lloyd (Harry J.) Charitable Trust – Career Development, Basic Science, and Translational Research Grants in Melanoma provide up to $125,000 for one-year projects, with special consideration given for emerging novel concepts that constitute significant innovation, new investigators in the field of melanoma, and prevention and early detection. These are **LIMITED COMPETITIONS** with a maximum of three applications, one for each category, accepted from UVM. Please contact edward.north@uvm.edu for a pre-application, due by noon on October 3, 2017. Full applications from selected candidates will be due to the Lloyd Foundation on November 10, 2017.

Best,
Ed
