Proposed Changes to COM Faculty Handbook

PART THREE – Faculty Appointments, Reappointments, …
SECTION 2 Faculty Appointments.

2. Full Time Renewable Appointments

Page 11

A faculty member shall be initially appointed to a Tenure Pathway, a Research Scholar Pathway, Faculty Scientist Pathway, an Education Scholar Pathway, a Clinical Scholar Pathway, a Clinical Practice Physician Pathway or a Volunteer Pathway position.

Page 14

2. Full Time Renewable Appointments

In the case of renewable faculty appointments there are five potential pathways with differing areas of emphasis for activities of faculty member. These are Research Scholar Pathway, Faculty Scientist Pathway, Clinical Scholar Pathway, Education Scholar Pathway, Clinical Practice Physician Pathway.

a. Research Scholar Pathway

The Faculty Titles are Assistant Professor, Associate Professor and Professor.

Page 15-Delete the following:

A Research Associate is initially appointed for one year by the Chair with the prior approval of the Dean and Provost and may be reappointed for additional one year terms by the Chair with the prior approval of the Dean, provided the appointments and reappointments of faculty who hold salaried positions are contingent upon the availability of restricted funding. Appointment requires that the individual hold a graduate degree in his/her field except under extremely unusual circumstances as resolved by the Dean in consultation with the Chair. Reappointment requires the candidate meet all applicable standards and criteria as described in the COM Faculty Handbook and additionally in the College of Medicine Standards and Guidelines.

Page 15- Replace with:

e. Faculty Scientist Pathway

Faculty Scientist Pathway includes individuals who whose predominant effort is dedicated to the generation of new knowledge. Those appointed to the rank of Faculty Scientist must have a terminal degree in his or her field of study and demonstrate a high degree of technical expertise. Indeed it is this technical expertise, research skills and attended research productivity that will justify this faculty appointment. Appointment as a Faculty Scientist is usually on a full-time basis, but may be on a part-time basis with the approval of the Senior Associate Dean for Research. All appointments of Faculty Scientist require the recommendation of the Chair of the applicable department and approval by the
Senior Associate Dean for Research and the Dean of the College. No further approval shall be required by any other University official.

Appointment at the rank of Faculty Scientist are for a five-year term and may be made after completion of doctoral training and postdoctoral fellowship, except under very unusual circumstances with the approval of the Dean. A Faculty Scientist is appointed by the Department Chair in consultation with the Dean. Appointments as Faculty Scientist, which are contingent on restricted funding, shall be for terms of up to five years depending on individual circumstances and shall be renewable following a standardized reappointment process.

The initial appointment in this Pathway is considered opportunity hires for faculty who are currently at the rank of Research Associate or other Research Pathway rank. If a Faculty Scientist develops substantial, independent and funded, or evidence of the likelihood to be funded, research program after two or more years of employment, he or she may then be considered for Assistant Professor on the Research Scholar Pathway as an opportunity hire.
Proposed Revision of University and University Officers’ Manual

The revised text is designed to be simple and straightforward and to provide flexibility in the configuration of centers and institutes. It will allow the terms “center” and “institute” to be used interchangeably; either entity can be broad or narrow in the scope of its activities and in its administrative model.

The subsections that define each term have been eliminated in favor of a combined description. However, those centers and institutes that perform academic functions must be identified as such. The revision makes clear that academic centers and institutes must be approved by the Faculty Senate, as well as the Board, and are subject to review by the Faculty Senate.

The revision also eliminates the reference to matrix centers, which no longer exist at UVM.

The complete text of the newly-proposed version is set forth below, followed by the old version that it replaces.

NEW VERSION of Section 204.5

204.5 Academic Centers and Institutes

Centers and institutes facilitate the performance of interdisciplinary or focused research or other scholarly or creative activities not otherwise conducted within the structure of Programs, Departments, Schools, or Colleges. Centers and institutes that involve any or all of the following are considered academic centers and institutes: curriculum or instruction, research, scholarship or creative arts. Proposals to establish, substantially change or eliminate academic centers and institutes must be approved by the Board of Trustees, upon recommendation of the President and Provost following application of appropriate governance protocols, the latter to include Faculty Senate approval. Academic centers and institutes are subject to regular review by the Faculty Senate.

The scope of academic centers and institutes can vary from a sharply defined focus within a school or college to an interdisciplinary subject or specialized field of study spanning two or more academic units. The terms can be used interchangeably according to preference. Other synonymous terms may be used in the working title in order to best reflect current practice in a field.

Academic centers and institutes do not grant degrees or appoint faculty, nor do they offer credit-bearing courses except in cooperation with the academic unit(s) that constitute their participants.
In general, a University-wide or cross-college center or institute will be hosted in one of the participating colleges or schools. Its Director will be appointed by and report to the Provost or the Vice President for Research. Academic centers or institutes that are housed within a single college or school will typically have a Director who is appointed by and reports to the Dean or other designated college administrator.

OLD VERSION of Section 204.5

204.5 Centers and Institutes

Centers and Institutes facilitate the performance of interdisciplinary or focused research not otherwise conducted within the structure of Departments, Schools, or Colleges. The establishment, and substantial changes in status, of Centers and Institutes must be approved by the Board of Trustees, upon recommendation of the President, following application of appropriate governance protocols, the latter to include Faculty Senate approval.

204.5.1 Center.

A Center is an administrative unit coordinating research, instruction, or service activities established to focus upon an interdisciplinary subject or specialized field of study or to bring multidisciplinary perspectives to a problem of common interest. Faculty participants are drawn from two or more Colleges or Schools or, in rare instances, from two or more Departments within a College. A Center does not grant degrees or appoint faculty, nor does it usually develop formal course offerings except in cooperation with the academic units that constitute its participants.

In general, Centers principally obtain resources from state, federal, or other external sources and are not substantially dependent upon the University General Fund. Due to this funding mechanism, a proposal to establish a Center must include a statement of the expected duration of its activities and a description of funding resources.

The chief administrative officer of a Center is a Director appointed by the Provost. The responsibilities of the Director are coordinated through the Provost and an advisory committee whose members are appointed by the Provost and selected from the Deans of the academic units involved.

Faculty with responsibilities to a Center must hold faculty appointments in one of the Colleges or Schools participating in Center activities.
204.5.2 Matrix Center

A Matrix Center is an academic unit whose faculty are engaged in conducting research and/or educational activities that focus upon a multidisciplinary field or area of study involving faculty from at least two college or schools. A Matrix Center may sponsor graduate programs leading to the award of graduate degrees through the Graduate College. Center faculty shall be drawn from and hold a primary appointment in a Department from any College or School and a secondary appointment in the Center. All matters concerning appointment, reappointment, promotion, and tenure decisions shall be made by the Department and the Center. The chief academic officer of a Matrix Center is the Director, whose appointment and responsibilities, administrative and fiscal, are coordinated through the Provost or his/her designee. An Advisory Committee, whose members, appointed by the Provost, are drawn from the Deans or their designees of the academic units involved, serves to counsel the Provost regarding matters of Matrix Center management and operation. The creation of a Matrix Center is dependent upon an initial determination by the Faculty Senate that the proposed Center meets the established criteria for consideration of Matrix Center status, and subsequent approval of establishment of the Matrix Center by the Provost, the President, and the Board of Trustees. To commence operations after approval, a Matrix Center must have external funds committed and currently available for its use, whether in the form of grants or philanthropy, such funds being adequate to enable the Center to be financially self-supporting. If the Matrix Center proposal seeks transitional start-up or secondary support from the General Fund, the proposal must also contain a General Fund commitment made by the Provost in writing, the commitment to encompass the nature, extent, and duration of such support. Indirect costs generated from research sponsored by extramural funding will be shared by both administrative units. Matrix Centers will undergo review every five years under the procedures and criteria and established by the Faculty Senate and approved by the Provost.

204.5.3 Institute.

The designation “Institute” is reserved for activities within a College, School, or Center that have a more sharply defined mission than that implied by the word “center.” In general, Institutes principally obtain resources from state, federal, or other external sources and are not substantially dependent upon the University General Fund. Due to this funding mechanism, a proposal to establish an Institute must include a statement of the expected duration of its activities and a description of funding resources. Institute administration will ordinarily be conducted through the appropriate Dean; however, an Institute may also be directed by a board or other mechanism appropriate to its objectives, subject to academic oversight by the Dean, Chairs, and faculty of participating academic units.
Equal Opportunity in Educational Programs and Activities and Non-Harassment

Policy Statement

The University of Vermont and State Agricultural College is committed to a policy of equal educational opportunity. The University therefore prohibits discrimination on the basis of unlawful criteria such as race, color, religion, national or ethnic origin, age, sex, sexual orientation, marital status, disability, or gender identity or expression, as those terms are defined under applicable law, in admitting students to its programs and facilities and in administering its admissions policies, educational policies, scholarship and loan programs, athletic programs, and other institutionally administered programs or activities made available to students at the University. The University also prohibits harassment, as defined in the Vermont Statutes at Title 16, section 11(a)(26). Unlawful harassment is a form of discrimination and is therefore prohibited. Equal Employment Opportunity/Affirmative Action Policy Statement

Policy Statement

The University of Vermont and State Agricultural College is committed to a policy of equal employment opportunity and to a program of affirmative action in order to fulfill that policy. The President of the University fully supports the University’s equal employment opportunity policy and the University’s affirmative action program.

The University will accordingly recruit, hire, train, and promote persons in all positions and ensure that all other personnel actions are administered without regard to unlawful criteria including race, color, religion, ancestry, national origin, place of birth, sex, sexual orientation, disability, age, positive HIV-related blood test results, genetic information, gender identity or expression, or status as a disabled veteran, recently separated veteran, active duty wartime or campaign badge veteran, or Armed Forces service medal veteran (collectively “protected veterans”), as these terms are defined under applicable law, or any other factor or characteristic protected by law, and ensure that all employment decisions are based only on valid job requirements.

In addition, the University of Vermont recognizes that discriminatory harassment and sexual harassment are forms of unlawful discrimination, and it is, therefore, the policy of the University that discriminatory harassment and sexual harassment will not be tolerated. The University also prohibits unlawful harassment on the basis of other characteristics protected by law.

Further, employees and applicants will not be subjected to harassment, intimidation, threats, coercion, or retaliation because they have engaged in or may engage in the following: filing a
complaint or assisting or participating in an investigation regarding alleged discrimination or harassment as prohibited in the policy statement above; filing a complaint or assisting or participating in an investigation, compliance evaluation, hearing, or any other activity related to the administration of the Vietnam Era Veterans' Readjustment Assistance Act of 1974 ("VEVRAA"), Section 503 of the Rehabilitation Act of 1973 ("Rehabilitation Act"), or the Affirmative Action provisions of any other federal, state or local law; opposing any act or practice made unlawful by VEVRAA or any other federal, state, or local law requiring equal employment opportunities for individuals with disabilities or protected veterans; or exercising any other rights protected by VEVRAA or the Rehabilitation Act. Additionally, the University will not discharge or in any other manner discriminate against employees or applicants because they have inquired about, discussed, or disclosed their own pay or the pay of another employee or applicant.

The University of Vermont maintains an audit and reporting system that: measures the effectiveness of the University’s affirmative action program; indicates any need for remedial action; determines the degree to which the University’s objectives have been attained; measures the University’s compliance with its affirmative action obligations; and determines whether individuals with disabilities and veterans have had the opportunity to participate in all University sponsored educational, training, recreational and social activities.

The University of Vermont’s strategic planning is a long-term process that establishes University-wide priorities as well as University and divisional programmatic objectives. The University’s strategic plan identifies specific goals and initiatives, including capital plans that identify necessary and desired University facility investments. To fund its plan, the University will continue to utilize a mix of financing sources including State and Federal sources, philanthropy, internal reserves, and external University-supported debt.

This policy, in conjunction with the strategic and capital planning, will aid management in ensuring that an appropriate mix and types of funding sources are utilized and that the University’s debt capacity is allocated strategically. A UVM-specific debt policy is appropriate to ensure adequate financial strength to service existing and proposed debt, maintain leverage within an acceptable risk tolerance while investing in priority capital projects, maintain a strong financial profile to ensure a competitive position relative to its peers, and maintain the budgetary capacity to invest in other initiatives.

Management and the Board of Trustees, acting through the appropriate Board of Trustee committee, will assess this policy on an ongoing basis to ensure that it remains responsive to UVM’s evolving academic, research and strategic priorities and financial position.

The University believes that financial discipline is a critical component of long-term debt management and that the Board and management, operating through the appropriate Board of Trustee committee should establish a limited number of financial ratios and limits in order to manage debt within acceptable ranges consistent with UVM’s objectives. These measures will be monitored and reported on in light of UVM’s evolving strategic initiatives and capital needs.

</tr>
</tbody>

Just as investments represent an integral component of assets, debt is viewed to be a long-term component of liabilities that therefore should be managed on a long-term portfolio-basis consistent with the institution’s policy objectives, with an overarching objective of managing the balance sheet. The objectives of the policy are to:

(i) Maintain the University’s access to capital. Management will utilize and issue debt in order to provide timely access to capital to fund project priorities that have been approved by the Board;

(ii) Manage the University’s credit to meet its long-term strategic objectives while maintaining creditworthiness consistent with the most favorable relative cost of capital and borrowing terms.

(iii) Limit risk of the University’s debt portfolio. Debt will be managed on a portfolio, rather than a transactional or project-specific, basis. Management’s continuing objective of incurring the lowest achievable long-term risk-adjusted cost of capital will be balanced with the goal of appropriately limiting exposure to market shifts within acceptable budgetary parameters. Various types of debt structures and financial instruments will be considered, monitored, and managed within the framework established in this policy and according to internal management procedures; and

(iv) Permit the optimization of the investment of the University’s working capital and cash balances. Management will explore various options and alternatives to internal cash holdings regarding the optimal funding mechanism for short-term equipment needs, bridge financing and cash requirements. Management recognizes that working capital requirements, debt management, and the investment of cash/net assets should be viewed comprehensively in order to optimize overall funding and investment return strategies.

In addition to establishing a framework relating to the administration of debt, the policy provides for periodic updates pertaining to UVM’s debt capacity and financial management to both internal and external parties.

By adopting this policy and regularly reviewing it with the appropriate Board of Trustee committee, management will follow and report on guidelines and requirements regarding debt utilization. With appropriate authorizations consistent with the policy, management will have flexibility to implement specific financial transactions and utilize approved financing vehicles in accordance with stated procedures.

The Office of the Vice President for Finance and University Treasurer will manage all funding sources, including debt, for capital projects authorized by the Board. The structure of any individual transaction (e.g., maturity, interest rate mode, use of derivative products, other financing structures) will be based upon overall University needs to ensure that (i) long-term costs to the University and its operating units are minimized consistent within the context of other strategic objectives and (ii) overall risk does not exceed acceptable levels as defined in this policy.

Because this debt policy is a living document, the appropriate Board of Trustee committee will review this policy on an annual basis and report any recommended changes or revisions to the Board of Trustees. This review process is necessary to ensure that the policy remains consistent with the University’s objectives and responsive to evolving practices, competitive pressures in the external environment, and financial indicators.

POLICY RATIOS

<table>
<thead>
<tr>
<th>Purpose</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Identify core ratios.</td>
</tr>
<tr>
<td>2. Clearly communicate with key parties such as rating agencies the University’s philosophy regarding debt and management’s ongoing assessment of debt capacity and affordability.</td>
</tr>
</tbody>
</table>

This policy establishes limits to measure the total amount of outstanding debt compared to University balance-sheet resources and the annual operating budget. These ratios can be derived from the financial statements and other information and are subject to review periodically.

The policy identifies ratios that (i) are based on current GAAP requirements and (ii) are consistent with ratios utilized in the higher education industry to permit benchmarking.

In addition to the two policy ratios below, the University may consider tracking other ratios in addition to the policy ratios. Listed below are the policy ratios and limits that will be followed.

**Ratio 1 – Debt Burden Ratio**

This ratio measures the University’s ability to repay debt service associated with all outstanding debt and the impact on the overall budget and includes all activities of the University. The defined limit for this ratio is intended to maintain the University’s long-term operating flexibility to fund existing requirements and new initiatives, although the University may target a desired ratio below this limit.

\[
\frac{\text{ANNUAL DEBT SERVICE}}{\text{TOTAL EXPENSES}} < 5.75\%
\]

The measure is based on aggregate operating expenses as opposed to operating revenues because expenses typically are more stable (e.g., no one-time operating gifts, investment return, variability of State funding) and better reflect the operating base of the University. Management recognizes that a growing expense base would make this ratio appear more attractive.
The limit for this ratio is not to be greater than 5.75% until June 30, 2023 and will revert to 5% thereafter. This ratio will be adjusted to include the impact of non-amortizing or non-traditional debt structures that could result in significant single year fluctuations, as well as an assumption of an appropriate variable rate.

Ratio 2 - Viability Ratio (also called Expendable Financial Assets to Debt)
This ratio indicates one of the most basic determinants of financial health by measuring the availability of liquid and expendable net assets compared to aggregate debt. The ratio measures the medium to long-term health of the University’s balance sheet and debt capacity and is a critical component of universities with the highest credit quality.

Many factors influence the viability ratio, affecting both the assets (e.g., investment performance, philanthropy) and liabilities (e.g., timing of bond issues), and therefore the ratio is best examined in the context of changing market conditions so that it accurately reflects relative financial strength. For example, a viability ratio that is acceptable and entirely appropriate in one market condition may be relatively stronger or weaker in other market environments.

This policy establishes a debt policy limit (floor) for this ratio of 0.8 to ensure that sufficient balance sheet strength is maintained at all times.

\[
\frac{\text{UNRESTRICTED NET ASSETS} + \text{TEMPORARILY RESTRICTED NET ASSETS} - \text{EQUITY IN PLANT}}{\text{AGGREGATE DEBT}} > 0.8x
\]

This ratio will include any financings that impact the University credit, including guarantees of third-party debt.

The 0.8x limit is recognized as a limit, and not a long-term objective. Over time, to remain competitive and retain the flexibility to invest in future strategic initiatives, UVM will want to target and maintain a ratio above 0.8x.

Annually, based on the results of the audited financial statements, the Vice President for Finance will report to the appropriate Board of Trustee committee on the actual ratio results and any existing conditions that put the University out of compliance with this policy. In the event that the University is out of compliance with the policy, the appropriate Board of Trustee committee will take up the matter for consideration and make recommendations it deems appropriate to the Board of Trustees.

Ratios as a Credit Factor
The University has established its ratios and associated ratio limits based on internally-established guidelines. The ratios and limits are not intended to provide a long-term target or track a specific rating, but rather will enable the maintenance of the University’s competitive financial profile and complement the capital planning process.

The debt policy will be shared with external credit analysts and other third parties in order to provide them with the context regarding UVM’s assessment of self-determined debt capacity and affordability, which is subject to ongoing review.
The University recognizes that there are numerous types of financing structures and funding sources available, each with specific benefits, risks, and costs. All potential funding sources will be reviewed by management within the context of the debt policy and the overall portfolio to ensure that any financial product or structure is consistent with UVM’s objectives. Regardless of what financing structure(s) is(are) utilized, a full understanding of the transaction, including (i) quantification of potential risks and benefits, and (ii) analysis of the impact on University creditworthiness and debt capacity, will be required. Any financial transaction which, in management’s opinion utilizes the University’s credit, will be subject to the limits set forth in this policy regardless of source. **Tax-Exempt Debt**

The University recognizes that debt will remain a long-term component of the University’s capitalization over the foreseeable future due in part to its continued need for capital and the substantial economic benefits associated with tax-exempt debt. Therefore, financial transactions will be managed on a portfolio basis with a long-term perspective. (In all circumstances, however, individual projects must continue to be identified and tracked to ensure compliance with all tax and reimbursement requirements).

Debt will be structured to meet the University’s comprehensive long-term objectives, and each project being financed will be required to provide a sound business plan, including the source of repayment for the debt and appropriate and realistic repayment terms. Among other things, the repayment terms will require that the loan term is no greater than the expected componentized useful life of the asset financed. Additionally, the financed project will be required to budget and fund principal payments on a fully amortized basis.

**Taxable Debt**

While all of the University’s capital projects may not qualify for tax-exempt debt, taxable debt should only be used in appropriate cases as it generally represents a more expensive source of capital relative to tax-exempt issuance.

**Commercial Paper**

The CP program can provide substantial financial flexibility to the University including the ability to manage and optimize cash balances, and provide an alternative to lease transactions, and other purposes. CP can offer the University interim financing for capital projects in anticipation of the receipt of funding either in the form of future philanthropy or the issuance of long-term debt for permanent financing, as well as offer greater flexibility regarding the timing and structuring of individual bond transactions.

**Derivative Products**

Management recognizes that derivative products may enable more opportunistic and flexible management of the debt portfolio. Derivative products, including interest rate swaps, may be employed primarily to manage or hedge the University’s interest rate exposure for a specific period of time. The University will utilize a framework to evaluate potential derivative instruments through consideration of (i) its variable rate allocation, (ii) market and interest rate conditions, (iii) impact on future financing flexibility, and (iv) the compensation for assuming risks, or the costs for eliminating certain risks and exposure. In addition, the University
will analyze and quantify the cost/benefit of any derivative instrument relative to achieving desirable long-term capital structure objectives. Under no circumstances will a derivative transaction be utilized that is not understood fully by management or that imposes inappropriate risk on the University. Risks include but are not limited to tax risk, interest rate risk, liquidity risk, counterparty credit risk, basis risk, and any other potential risks either imposed or removed through the execution of any transaction. In addition, management will consider and disclose the potential impact of any derivative product on the University’s financial statements and the appropriate treatment in calculating the debt policy ratios. The University will regularly report on the status and performance of its derivative products, if any, to the appropriate Board of Trustee committee. Given the risks and complexity associated with derivative products, they will be considered more seriously only when: (i) conventional financing sources are relatively more expensive (e.g. exceed the portfolio blended interest rate, and (ii) can achieve desired financial objectives more efficiently or at a significantly lower risk-adjusted cost than traditional structures. Management is required to present any recommended derivative product to the appropriate Board of Trustee committee and must receive Board approval prior to execution.

Other Financing Sources

The University recognizes that a variety of transactions, not limited to debt insured directly by UVM, may impact the University’s credit while the University’s limited debt capacity and substantial capital needs require the consideration of various financing alternatives, including possible opportunities for alternative and non-traditional transaction structures. The University recognizes these types of transactions may also impact the University’s credit and also often can be more expensive than traditional University debt structures.

Therefore all non-traditional financing structures including guarantees and third party debt can only be considered once the economic benefit and the likely impact on the University’s debt capacity and credit has been determined. Specifically, for any third-party or developer based financing, management will ensure the full credit impact of the structure is evaluated and quantified to the extent possible prior to execution and the analysis must be presented to the appropriate Board of Trustee committees and must receive Board approval prior to execution.
# PORTFOLIO MANAGEMENT OF DEBT

<table>
<thead>
<tr>
<th>Purpose</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Permit decisions regarding debt issuance and structure to be made on a portfolio basis, rather than on a per-project basis.</td>
</tr>
</tbody>
</table>
| 2. Manage variable rate exposure of the debt portfolio.  
  a. Limit variable rate exposure.  
  b. Manage the overall liquidity requirements associated with outstanding debt.  
  c. Target overall variable rate debt exposure. |
| 3. Evaluate exposure to other financing vehicles and third parties on a portfolio-wide basis. |

The University considers its debt portfolio holistically; that is, it optimizes the portfolio of debt for the entire University rather than on a project-by-project basis, and takes into account the University’s cash and investments.

## Variable Rate Debt

It is recognized that a degree of exposure to variable interest rates within the University’s debt portfolio may be desirable in order to:

(i) take advantage of repayment/restructuring flexibility;  
(ii) benefit from historically lower average interest costs; and  
(iii) diversify the debt portfolio; and,  
(iv) provide a hedge to short-term working capital balances

Management will monitor overall interest rate exposure, analyze and quantify potential risks, and coordinate appropriate fixed/variable allocation strategies. The portfolio allocation to variable rate debt may be managed or adjusted through (i) the issuance of debt (potentially new issues and refunding), (ii) and the use of interest rate swaps and other derivative products. While the utilization of commercial paper impacts the University’s variable rate exposure, outstanding CP will not be included in the ratio, given the expected interim financing purpose.

Recognizing the desire to manage interest rate risk, the amount of variable rate debt outstanding shall not exceed 35% of the University’s outstanding debt. This limit is based on the University’s desire to (i) limit annual variances in its debt portfolio, (ii) provide sufficient structuring flexibility to management, (iii) keep the University’s variable rate allocation within acceptable external parameters, (iv) utilize variable rate debt (and/or swaps) to optimize debt portfolio allocation and minimize costs, and (v) take into account liquidity needs and exposures for the portfolio, including consideration of the commercial paper program.

![VARIABLE RATE AND LIQUIDITY EXPOSURE](<35%)

The University will exclude from this calculation project-related commercial paper used in advance of expected long-term financing since this commercial paper is used for interim purposes and should not be included in the University’s desired long-term variable rate allocation calculation. The numerator, Variable Rate and Liquidity Exposure, is defined as including all variable rate debt, not adjusted for any floating to fixed swaps, if any, and plus any fixed to floating swaps, if any. Thus, any variable rate debt that is affected by floating-to-fixed interest rate swaps will be considered variable rate debt for the purposes of this calculation since it impacts the University’s liquidity requirements and exposes the institution to counterparty credit exposure. Note that this ratio measures interest rate exposure and liquidity exposure/requirements directly.
Glossary

Annual Debt Service – refers to the principal and interest due on long-term debt in a fiscal year.

Bridge Financing – refers to any type of financing used to “bridge” a period of time. For universities, it generally refers to financings that provide funding in advance of a long-term bond issue or the receipt of gift funding.

Capital Project – refers to physical facilities or equipment or software that may be capitalized.

Commercial Paper – an alternative to bank line for stronger rated borrowers, commercial paper is short-term promissory notes issued on the open market as an obligation of the borrower. The maturity of commercial paper is less than 270 days, and for most universities, the average maturity of all paper is between 30-50 days. Registration and disclosure for commercial paper is significantly less than traditional university bonds.

Derivative Products – generally referred to transactions which are an exchange of specified cash flows for a period of time. The most common types of derivatives are floating-rate-to-fixed-rate or fixed-rate-to-floating-rate swaps.

GAAP – refers to Generally Accepted Accounting Principles.

Leverage – long-term debt as a component of the total assets of the University. “High leverage” indicates an institution that has a considerable portion of its assets that are debt financed.
Introduction

This Cash Management and Liquidity Policy governs the investment of UVM pooled cash and sets the minimum liquidity target for the University. The pooled cash includes all funds of the University other than the funds that are held in the University endowment and certain plant, restricted and loan reserves, for which separate investment guidelines have been established. This statement will be subject to periodic review and possible modification by the Budget, Finance and Investment Committee as the Committee considers necessary to achieve cash management and investment requirements.

I. Cash Management

Investment Objectives

University pooled cash for purposes of investment allocation shall be divided into three asset groups as follows:

Short-term pool: Cash that is expected to be needed for normal operating expenditures within a one-year period. The primary objective is preservation of principal and liquidity. Maximization of investment income without undue exposure to risk is a secondary objective.

Intermediate-term pool: Cash that is expected to be needed within a period of one year to six years. The primary objectives are preservation of principal and maximization of investment income without undue exposure to risk.

Long-term pool: Cash that is not expected to be needed for operational purposes for a period exceeding six years and/or that may be designated as a permanent core. The primary investment objective is to achieve consistent long-term growth of the pool with limited exposure to risk.

Allocation Guidelines

Short-term pool: The average weighted maturity for a short-term portfolio shall be between one day and one year.
Intermediate-term pool: The average weighted maturity for intermediate-term portfolio shall be between one year and six years.

Long-term pool: Permanent core cash may be invested in any investment that is allowable under the University’s Statement of Objectives and Policies for the Endowment Fund and that meets the overall objective of achieving consistent long-term growth of the pool with limited exposure to risk.

Performance Objectives

Short-term pool: The benchmark for the short-term portfolio shall be total return that meets or exceeds the yield of three-month U. S Treasury securities.

Intermediate-term pool: The benchmark for intermediate-term portfolio shall be total return that meets or exceeds the Barclays Capital U.S. Treasury Index (3-5 Year).

Long-term pool: The benchmark for the investment of the long term pool shall correspond to the benchmarks for each asset class as specified in the University’s Statement of Objectives and Policies for the Long Term Investment Pool, including the Endowment Fund.

Allowable Investments for Asset Groups

For all of the asset groups described below, the Treasurer will develop in conjunction with the Board of Trustees Investment Subcommittee (ISC) a list of approved funds and fund managers from which the Treasurer may select managers as appropriate. This list will be reviewed and approved annually by the ISC.

Short-term pool: Investments in the short-term portfolio are restricted to U. S. Treasury and government agency securities, money markets, high quality corporate securities, and commercial and bank paper. Investments shall be in marketable securities of the following types and with the noted credit ratings:

1. Debt securities rated Aaa, Aa, A or Baa by Moody’s Investor’s Service, Inc. or AAA, AA, A or BBB by Standard & Poor’s Corporation.

2. Obligations of, or guaranteed by, the United States of America, its agencies or instrumentalities.

3. Obligations of, or guaranteed by, national or state banks or bank holding companies rated B or better. No more than 20%
of the funds held in the cash pool shall be invested in obligations of the institutions within any single holding company.

4. Commercial paper rated A-1 or higher by Standard and Poor’s or Prime-1 (P1) by Moody’s Investor’s Service, Inc.

5. Bankers’ acceptances or negotiable certificates of deposit issued by banks rated B or better. No more than 20% of the funds held in the cash pool shall be invested in certificates of deposit, bankers’ acceptances or floating rate notes of the institutions within any single holding company.

6. Repurchase agreements of banks having Fitch ratings no lower than B secured by the U.S. government and federal agency obligations with market values of at least 100% of the amount of the repurchase agreement.

7. Commingled funds may be used if they are in compliance with the above guidelines.

8. The Commonfund, a non-profit provider of investment products for colleges and universities.

Intermediate-term pool: Investments in the intermediate-term portfolio are restricted to securities rated Aaa, Aa, A or Baa by Moody’s Investor’s Service, Inc. or AAA, AA A or BBB by Standard & Poor’s Corporation.

Long-term pool: Investment of the long term pool shall be restricted to those that are allowable under the University’s Statement of Objectives and Policies for the Endowment Fund and that meet the overall objective of achieving consistent long-term growth of the pool with limited exposure to risk.

Moral, Ethical and Social Considerations

Cash balances will be invested consistently with the moral, social and ethical criteria adopted by the Board of Trustees on recommendation of its Budget, Finance and Investment Committee as related to the Long Term Investment Pool, including the Endowment Fund. Criteria for socially responsible investing shall include, where advisable and consistent with investment quality, return, and safety guidelines, the use of community and State institutions for investment purposes. Where returns are reasonably equal (within 10 basis points), preferences will be given to Vermont-based financial institutions.
Investment Management Responsibility and Structure

Cash management and investment responsibility resides with the Vice President for Finance and Treasurer through the Controller.

1. Investments may be made internally using allowable instruments and institutions; OR,

2. Investment managers may be engaged to invest University assets consistent with this Policy. Subject to this Policy and a written agreement between the University and the investment manager, the investment manager will be given discretion to select individual securities and to make adjustments to the structure of the portfolio.

I. Liquidity

This Cash Management and Liquidity Policy establishes a Minimum Liquidity Target for the University of $30 million, subject to future modification by the Budget, Finance, and Investment Committee. Liquid funds that are unrestricted, unencumbered General Fund Net Assets (as such capitalized term is used in the audited financial statements of the University) shall be used to satisfy the Minimum Liquidity Target. For the purposes of this Policy, General Fund Net Assets that are restricted in their use, or otherwise encumbered by Board or administrative action, shall not be available to satisfy the Minimum Liquidity Target. The objective of this policy is to ensure that the University operates with an adequate level of institutional liquidity to minimize risk associated with temporary, unforeseen liquidity needs.

II. Administration and Reporting

A. The Treasurer will report to the Budget, Finance and Investment Committee annually, the following:

1. **Balances.** Cash balances in each asset group;

2. Investments in each asset group by manager and investment type or fund; and

3. Performance of each individual investment type within each asset group.

4. **A schedule of unrestricted, unencumbered General Fund Net Assets compared to the Minimum Liquidity Target.**

B. As delegated by the Board of Trustees through its resolutions, specified University officials, including the Treasurer, are authorized to open accounts with banks, investment firms, or commercial paper institutions, and/or to execute purchases and sales, in order to implement this Cash Management and Liquidity Policy.

C. This Cash Management and Liquidity Policy will be subject to annual review by the Investment Subcommittee and the elements of the policy related to liquidity will be subject to annual review by the Budget, Finance, and Investment Committee.

STATEMENT OF INVESTMENT POLICIES AND OBJECTIVES

I. INTRODUCTION

This statement is issued by the Investment Subcommittee (the “ISC”) of the Board of Trustees of the University of Vermont (the “Board”). The ISC was established by the Board and the Budget, Finance and Investment Committee in late 2006 and charged with oversight of investment strategy and investment managers for the Long-Term Investment Pool, including the Endowment Fund, collectively called the “Fund”, of the University. The policy statement will be reviewed annually and modified by the ISC as conditions warrant.

II. FIDUCIARY STANDARDS

The Board, the ISC, the Treasurer and investment staff, and any third-parties (e.g., investment managers) retained to advise the Board, the ISC, the Treasurer and/or investment staff as to investment strategy and management (any and all of whom may be referred to as “Responsible Parties”) shall exercise their responsibilities with respect to the Fund’s assets in compliance with the requirements of the Uniform Prudent Management of Institutional Funds Act (“UPMIFA”), enacted in the state of Vermont in 2009. In accordance with UPMIFA, key facets of the Responsible Parties’ roles include:

- Acting in good faith, with the care an ordinarily prudent person would exercise;
- Incurring only reasonable costs in investing and managing charitable funds;
- Making decisions about each asset in the context of the portfolio of investments, as part of an overall investment strategy;
- Diversifying investments, unless due to special circumstances, the purposes of the Fund are better served without diversification;
- Disposing of unsuitable assets; and
- In general, developing an investment strategy appropriate for the Fund and the University.

III. RESPONSIBILITIES of INVESTMENT SUBCOMMITTEE

Responsibilities and goals of the ISC include:

- Ensuring that current and future spending requirements are supported while also preserving the real purchasing power of the Fund;
- Achieving an optimum level of return within appropriate specified risk tolerances;
- Developing a sound and consistent investment policy including asset allocation, diversification and rebalancing guidelines;
- Selecting and maintaining qualified investment managers and consultants;
- Monitoring and evaluating results to ensure that policy guidelines are being adhered to and that policy objectives are being met; and
- Taking action under appropriate circumstances to discharge an investment manager or advisor for failing to perform in terms of stated expectations.

STATEMENT OF INVESTMENT POLICIES AND OBJECTIVES

I. INTRODUCTION

This statement is issued by the Investment Subcommittee (the “ISC”) of the Board of Trustees of the University of Vermont (the “Board”). The ISC was established by the Board and the Budget, Finance and Investment Committee in late 2006 and charged with oversight of investment strategy and investment managers for the Long-Term Investment Pool, including the Endowment Fund, collectively called the “Fund”, of the University. The policy statement will be reviewed annually and modified by the ISC as conditions warrant.

II. FIDUCIARY STANDARDS

The Board, the ISC, the Treasurer and investment staff, and any third-parties (e.g., investment managers) retained to advise the Board, the ISC, the Treasurer and/or investment staff as to investment strategy and management (any and all of whom may be referred to as “Responsible Parties”) shall exercise their responsibilities with respect to the Fund’s assets in compliance with the requirements of the Uniform Prudent Management of Institutional Funds Act (“UPMIFA”), enacted in the state of Vermont in 2009. In accordance with UPMIFA, key facets of the Responsible Parties’ roles include:

- Acting in good faith, with the care an ordinarily prudent person would exercise;
- Incurring only reasonable costs in investing and managing charitable funds;
- Making decisions about each asset in the context of the portfolio of investments, as part of an overall investment strategy;
- Diversifying investments, unless due to special circumstances, the purposes of the Fund are better served without diversification;
- Disposing of unsuitable assets; and
- In general, developing an investment strategy appropriate for the Fund and the University.

III. RESPONSIBILITIES of INVESTMENT SUBCOMMITTEE

Responsibilities and goals of the ISC include:

- Ensuring that current and future spending requirements are supported while also preserving the real purchasing power of the Fund;
- Achieving an optimum level of return within appropriate specified risk tolerances;
- Developing a sound and consistent investment policy including asset allocation, diversification and rebalancing guidelines;
- Selecting and maintaining qualified investment managers and consultants;
- Monitoring and evaluating results to ensure that policy guidelines are being adhered to and that policy objectives are being met; and
- Taking action under appropriate circumstances to discharge an investment manager or advisor for failing to perform in terms of stated expectations.
The ISC is authorized to delegate certain responsibilities to staff to assist in properly meeting the overall responsibilities as outlined above.

IV. CONFLICT OF INTEREST POLICY

In addition to the responsibilities set forth in the Board of Trustees’ Conflicts of Interest policy, it is the responsibility of the ISC members to disclose to the ISC Chair any situation in which there may be reasonably construed to be a perceived or actual conflict of interest. The ISC Chair will work with the members to determine an appropriate response.

The ISC will generally not consider investments in funds directly managed by a member of the ISC. In addition, a member of the ISC employed by an investment or other firm that provides services to the Fund will recuse him/herself from all discussions and votes on existing or potential investments or other services managed or provided by that firm. The ISC recognizes, however, that certain exceptions to this policy may be appropriate. Such exceptions will be made only upon a majority vote of the disinterested members of the ISC.

In the event that the ISC is considering an investment in an access-constrained investment opportunity, any ISC member wishing to invest for his/her own benefit in such an opportunity shall notify the ISC Chair in writing.

V. MORAL, SOCIAL AND ETHICAL CONSIDERATIONS IN INVESTMENT STRATEGY

The University Statement of Investment Policies and Objectives requires the Board, the Investment Subcommittee (ISC) of the Board Budget, Finance and Investment Committee, the Treasurer, and third parties such as investment managers, to exercise their responsibilities with respect to the Long-Term Investment Pool, including Endowment Fund assets, in compliance with the requirements of the Uniform Prudent Management of Institutional Funds Act (“UPMIFA”).

In accordance with UPMIFA, key facets of the Responsible Parties’ roles, as paraphrased below, include:

- Acting in good faith, with the care an ordinarily prudent person would exercise;
- Incurring only reasonable costs in investing and managing charitable funds;
- Making decisions about each asset in the context of the portfolio of investments, as part of an overall investment strategy;
- Diversifying investments, unless due to special circumstances, the purposes of the Fund are better served without diversification;
- Disposing of unsuitable assets.

Achieving the Financial and Investment Objectives of the Fund is essential to provide resources to fulfill the institutional mission of the University. The core responsibility of the ISC is to achieve the Financial and Investment Objectives of the fund in a manner consistent with the requirements of UPMIFA and prudent fiduciary practices.

The primary objective of achieving the Financial and Investment Objectives of the Fund does not preclude consideration of moral, ethical and social criteria in selecting investments or participating in
shareholder resolutions that address moral, ethical or social issues. However, the core responsibility of the Board is to steward University assets in a manner consistent with prudent fiduciary practices.

V. VI. FINANCIAL & INVESTMENT OBJECTIVES

The overall financial objective of the Fund is to provide a stable and consistent level of ongoing support for the University’s programs through a reasoned spending policy consistent with preserving and enhancing the real (i.e., inflation-adjusted) purchasing power of the Fund over time.

The primary long-term investment objective of the Fund is to attain a real total return\(^1\) (net of investment management fees) that exceeds the amount being distributed for spending and administration, currently set at 4.75%. This will be measured over the long term, capturing a full market cycle, as it is unlikely that the Fund’s return will meet or exceed the spending rate in each individual year. Other important investment objectives are to achieve annualized returns in excess of the strategic policy portfolio blended benchmark (defined herein), measured over a full market cycle; and to outperform the median return of a pool of endowment funds with broadly similar investment objectives and policies.

VI. MORAL, SOCIAL AND ETHICAL CONSIDERATIONS IN INVESTMENT STRATEGY

This Statement of Investment Policies and Objectives requires the Board, the Investment Subcommittee (ISC) of the Board, the Finance and Investment Committee, the Treasurer, and third parties such as investment managers, to exercise their responsibilities with respect to the Long-Term Investment Pool, including Endowment Fund assets, in compliance with the requirements of the Uniform Prudent Management of Institutional Funds Act (“UPMIFA”).

Achieving the Financial and Investment Objectives of the Fund is essential to provide resources to fulfill the institutional mission of the University. The core responsibility of the ISC is to achieve the Financial and Investment Objectives of the Fund in a manner consistent with the requirements of the UPMIFA and prudent fiduciary practices.

The primary objective of achieving the Financial and Investment Objectives of the Fund does not preclude consideration of moral, ethical and social criteria in selecting investments or participating in shareholder resolutions through proxy voting that address moral, ethical or social issues.

VII. ASSET ALLOCATION

The policy portfolio for the Fund is a target or “normal” set of investments, based on long-term return, risk and correlation assumptions that balance the organization’s need for liquidity, preservation of purchasing power, and risk tolerance. Certain investments are made for capital appreciation and return enhancement: global equities, long/short hedge funds, venture capital and private equity; some are made to protect against unanticipated inflation: real estate, energy, timber, commodities, TIPS; and some are made to protect against deflationary periods and to reduce volatility: primarily, high quality intermediate bonds for the former and absolute return hedge funds for the latter. The ISC, with input and assistance from staff and external consultants, shall periodically examine the policy portfolio targets and consider adjustments to the asset allocation as may be appropriate (for example, due to a material change in the capital market

\(^1\) Real total return is the sum of realized and unrealized capital appreciation (or loss) and current income in the form of dividends and interest, adjusted for inflation as measured by the Consumer Price Index.
assumptions). Changes to the policy portfolio targets will be reviewed and approved by the ISC and presented to the Budget, Finance and Investment Committee and the Board, as necessary.

In addition to being diversified across asset classes, the Fund will be diversified within each asset class. This will provide reasonable assurance that the performance of any single security, issuer or class of securities, or active manager will not have a disproportionate impact on the total Fund performance.

The most current asset allocation / strategic policy portfolio for the Fund is attached as Appendix A.

**VIII. REBALANCING**

The Fund's actual asset allocation will be monitored monthly and reviewed by the ISC at its regular meetings relative to established policy portfolio targets and allowable ranges. Adjustments may be constrained by practical limits with respect to liquidity and transaction costs, but rebalancing efforts will be made as practicable. Cash flow in or out of the Fund may create an opportunity to shift the allocation closer toward policy targets. The ISC may at times authorize investments in new or developing asset classes that are not part of the strategic policy portfolio at the time of their adoption, with the intention of revising the policy portfolio shortly thereafter.

**IX. PERFORMANCE EVALUATION, BENCHMARKS, and ASSET CLASS CHARACTERISTICS**

The performance objectives for the total Fund, each asset class and each manager are outlined below, with the purpose of establishing specific parameters for regular and ongoing review. While performance is measured over both short- and long-term periods, the focus and emphasis of performance evaluation is on longer time periods as represented by a full market cycle.

**Overall Fund**

There are a number of different benchmarks for assessing performance at the overall Fund level:

**Undiversified Benchmark** – this simple market benchmark helps the ISC evaluate the value added from a sophisticated investment program versus a portfolio that could be easily replicated through investment in U.S. index funds.

**Target Benchmark** – this custom benchmark compares the total return of the Fund to a blended benchmark based on applying the target policy weights of each underlying asset class to the performance of the asset class benchmarks. The individual asset class benchmarks are discussed in the next section.

**Current Allocation Benchmark** – this benchmark is composed of the current allocations for each of the underlying composite asset classes weighted against the corresponding returns of their respective benchmarks.

**Cambridge Associates’ Universe of Endowment Pool Returns** – a universe of over 300 institutions, a broad peer universe against which the ISC compares the Fund’s return. In addition to this broad comparison, the ISC may also compare the Fund’s results to various subsets of this broad universe, which include institutions with similar characteristics.
Asset Classes & Managers

Each manager will be expected to outperform (net of fees) a benchmark that is appropriate based on the asset class and style of the manager, over a full market cycle. Performance results will be reviewed with the ISC at its regular meetings and in an interim period when there is a major event (personnel change, for example) at the firm. The manager will be evaluated on long-term performance so that shorter-term failure to meet the benchmark target returns is not an automatic basis for manager termination.

Due to the broad nature of the asset classes and the unique style of managers, it is important to note that the specific benchmark of the individual manager may not necessarily be the same as the benchmark for the particular asset class composite as defined below. For example, the Total U.S. Equity benchmark is the S&P 500 but small cap managers, for example, will be compared to the appropriate small cap benchmarks.

Individual manager accounts will be monitored for consistency of each manager’s investment philosophy and process, return relative to objectives, investment risk as measured by asset concentrations, exposure to extreme economic conditions, and market volatility. In the broadest sense, the monitoring process is intended to confirm that the reasons the manager was initially retained still hold true.

X. MANAGER GUIDELINES

Investment managers will be hired for a specific skill set, and the resulting investments will be made either through separately managed accounts or pooled vehicles. Each manager of a separate account will adhere to the firm’s stated philosophy and investment strategy. Where investments are in commingled funds, mutual funds, off-shore funds or limited partnerships, the permissible investments are governed by the appropriate fund prospectus or offering memorandum. Some of these products permit the use of derivatives for certain investment strategies and in instances where a manager has demonstrated skill in effectively utilizing these instruments. For example, they may be used in reducing risk or replacing positions to gain flexibility and efficiency.

XI. MANAGER REPORTING

Each investment manager of marketable assets will provide monthly portfolio valuations and total return net of all commissions and fees. On a quarterly basis, managers will report current holdings at cost and at market value, and purchases and sales for the quarter. Traditional marketable managers may be required to reconcile records of holdings, transactions, and dividend/interest income with the Fund’s custodian on a periodic basis. Specialty managers (who manage hedge funds and non-marketable partnerships) will report on portfolio details with as much transparency as possible. Each of these managers will provide annually their most recent audited financial statements, which include the basis of accounting and the auditor’s opinion. In addition, each specialty manager will disclose its respective valuation policies and procedures on an annual basis.

Regular communication from all managers concerning investment strategy and outlook is expected. The ISC will regularly review a Watch List that is maintained to highlight managers’ relative performance when it is outside the normal range or expected returns, new organizational issues, and/or any significant changes in strategy that raise concerns. Additionally, managers are required to inform the University of Vermont of any significant change in firm ownership, organizational structure, professional personnel, or fundamental investment philosophy. Managers will also send a copy of their form ADV to the University at least annually.
XII. PROXY VOTING GUIDELINES

University of Vermont’s Endowment Accountant votes the shareholder proxies.

XIII. GUIDELINES FOR TRANSACTIONS

As a general guideline that should apply to all assets managed, transactions should be entered into on the basis of best execution, which is interpreted normally to mean best realized price.

The portion of the Series 2016 Bonds allocable to the refunding of the Series 2009 Refunded Bonds shall be in the initial principal amount of not more than $80 million, shall mature not later than the final maturity date of the Series 2009 Refunded Bonds and shall have a weighted average maturity not exceeding the weighted average maturity of the Series 2009 Refunded Bonds by more than two years. If the Series 2016 Bonds are issued at more than one time, each issuance of the Series 2016 Bonds shall comply with the limitations contained in this Resolution; provided that the aggregate principal amount of Series 2016 Bonds shall not exceed the limitations on principal amount set forth herein. The Board hereby finds and determines that these purposes are necessary and desirable and hereby authorizes the Vice President for Finance and Treasurer, in consultation with the Bond Work Group, to determine (i) whether the Series 2016 Bonds should be issued as two or more sub-series of bonds, issued together or at different times (based on whether the issuance of the Series 2016 Bonds in two or more sub-series, issued together or at different times, will facilitate debt management or marketing of the Series 2016 Bonds or
compliance with federal tax law restrictions or is expected to maximize present value savings or otherwise reduce interest rate or other costs) and (ii) the terms of the Series 2016 Bonds and the terms of the sale of the Series 2016 Bonds (including the maturity dates and amounts, the interest rates, the original issue premium or discount, the redemption provisions of the Series 2016 Bonds based on financial or structural benefits to the University and marketing considerations and the underwriters’ compensation) subject to the limitations set forth in this resolution and the applicable Supplemental Indenture. Section 2. Authorization to Determine Refunded Bond Redemptions. The Board hereby authorizes and directs the Vice President for Finance and Treasurer, in consultation with the Bond Work Group, to determine which maturities (or portions of maturities) of the Refunded Bonds shall be refunded with the proceeds of the Series 2016 Bonds and the dates of redemption of such Refunded Bonds; provided that such refunding results in net present value savings of not less than 3% of the par amount of the Refunded Bonds (from each issuance of Series 2016 Bonds if issued at more than one time).

Section 3. Authorization of Supplemental Indentures. The Board hereby approves and confirms the form and content of one or more Supplemental Indentures. The Vice President for Finance and Treasurer, and the Secretary or Assistant Secretary of the Board are hereby authorized and directed to execute and deliver one or more Supplemental Indentures for and on behalf of the University, in substantially the form and content made available to the Board, but with such changes, additions or deletions as shall to them seem necessary, desirable or appropriate, their execution thereof to constitute conclusive evidence of their approval of any and all such changes, additions or deletions. 301.4 Performance Review.

301.4.1 Annual Review.

The Provost shall conduct an annual performance review of each Dean. The Provost will meet with each Dean individually to discuss the results of the performance review and, following consultation with the President, to convey a reappointment decision and the salary upon reappointment.

301.4.2 Third Year Review.

The Provost shall conduct a formative review of a Dean’s performance during the springfall semester of the initial third year of appointment. The primary objective of the evaluation is to facilitate continued improvement of the academic leadership and management of the College or School. For Schools and Colleges with academic departments, input will be sought from every Department Chairperson and, separately, from the faculty and staff. For Schools and Colleges without Departments, the faculty and staff shall be given an opportunity to provide input into the third year performance review. Such input will be based upon the Dean’s performance of the responsibilities set forth in section 301.3 and as otherwise defined by the University through proper channels. The Office of the Provost will distribute and administer standardized evaluation forms in electronic format, so that confidentiality may be assured. The standardized form shall have the following characteristics: 1) the form will use a combination of descriptive criteria upon which the Dean shall be ranked and opportunities for narrative comments to justify the ranks assigned; 2) respondents may reveal their identity but are not required to do so; and 3) the identities of the participants will not be revealed to the Dean under review. The Provost shall prepare a written report on the Dean’s performance, which shall include a summary of the Chairpersons’ evaluations (when applicable) as well as faculty and staff evaluations. Such a review may be commenced at an earlier point by the President at his/her own initiative, or upon request of the Provost, the Dean, a majority of the Chairpersons of the academic unit, or one-third of the faculty of the academic unit eligible to vote under the bylaws of the College or School.

The Provost shall appoint a committee of nine faculty members to review the Dean, such appointments to be made during the springfall semester of the review year. Three faculty members will be elected representatives from the academic unit, three will be appointed by the Faculty Senate Executive Council, and three will be appointed by the Provost, including

It will begin its work with a thorough review of the third-year evaluation documents. It shall consult with Chairpersons (if there is a departmental structure), faculty, staff, and students from the academic unit, and others deemed appropriate from within or outside the University. The committee shall submit a written report to the Provost no later than MayFebruary 1 of the academic year in which the review commences. The Provost shall present the full report of the review committee to the Dean, with a copy to the President, and shall distribute an accurate summary of the findings of the report to every faculty and staff member of the academic unit.

If the Dean does not appeal within the required time frame, or does not obtain from the President an extension of time within which to appeal for reasonable cause shown, the decision of the Provost shall be final. Compensation associated with the decanal appointment shall end as of the effective date of termination.

c. Faculty appointment. A Dean who is terminated for cause and who has a preexisting tenure or contract right to assume or resume a faculty appointment, may do so after the decanal faculty appointment ends notwithstanding a termination for cause of the deanship, unless the faculty status is itself affected under procedures applicable to faculty appointments. This election must be made in writing to the Provost, with a copy to the Dean and academic department chair, within thirty (30) calendar days of notice of termination for cause. Duties associated with the faculty appointment shall resume as soon as feasible in light of Department needs as reasonably determined by the Chair in consultation with the successor Dean, but ordinarily no later than the first full semester following termination of the decanal appointment. The balance of the administrative leave period will be compensated at the salary and benefits level applicable to the upcoming faculty appointment. The faculty salary of an Officer assuming or resuming a faculty appointment shall be determined by the Provost in a manner consistent with applicable procedures duties.

A recipient of a leave of absence to prepare for the assumption or resumption of duties as a faculty member will be required to return to the University and serve at least one (1) full academic year following the administrative leave. Failure to fulfill this obligation shall require the full and immediate repayment of salary and benefits received from the University while on administrative leave, unless the faculty member, Dean/Director and Provost agree on alternative arrangements.

The salary of an officer of administration assuming or resuming a faculty appointment shall be determined by the supervising senior officer in consultation with the Dean of the College or School, who also will consult with the Department Chair or equivalent. Any compensation, whether salary or benefits, associated with the Officer of Administration appointment shall end as of its effective date of termination. The faculty salary may include appropriate consideration of administrative experience gained as well as factors including
the salary range of faculty of the same rank in the academic unit, academic experience and expertise, standing in the academic discipline, and duties to be performed.

An Officer of Administration may be terminated for serious nonfeasance or malfeasance, including without limitation violations of University policy or law relevant to fitness as an Officer of Administration, gross insubordination, falsification of records, or grossly negligent acts or omissions in the performance of duties. Any allegations of serious malfeasance or nonfeasance shall be referred to, or initiated by, the senior supervising officer. For purposes of this provision, the Senior Vice President shall be the senior supervising officer relative to Vice Presidents. If, after consideration of the nature of the charges and any preliminary supporting evidence, the senior supervising officer concludes that the conduct, if proved, would constitute a basis for termination, the procedures below will apply.

404.3.1 Notice of Charges.

The senior supervising officer will promptly issue the Officer of Administration written notice of charges and a summary of the preliminary supporting evidence, and provide the Officer of Administration with an opportunity to respond within a specified time to the charges in a meeting and in writing. If the senior supervising officer determines that it would be in the best interests of the University for the Officer of Administration to be placed on paid administrative leave pending the results of an investigation, in the absence of extenuating circumstances the leave will be instituted with written notice to the Officer of Administration immediately following provision of the opportunity to respond to the charges.

404.3.2 Investigation.

The senior supervising officer will promptly commence an investigation responsive in nature and scope to the pending charges. If an investigative procedure otherwise relevant to the charges applies (such as those relating to investigative audits or discrimination complaints), the senior supervising officer will request initiation of such process and await its findings and recommendations. The investigation will be completed within twenty business days except in extenuating circumstances, in which latter case the senior supervising officer will advise the Officer of Administration in writing of the delay and the revised date for completion of the investigation.

404.3.3 Notice of Decision.

After the investigation is complete, the senior supervising officer will in writing convey its results to the Officer of Administration, who will be given an opportunity to respond to the senior supervising officer in writing within ten business days. The senior supervising officer will issue a final written decision within twenty business days of receipt of the written response to the investigative report or within twenty business days following expiration of the response period if no response is submitted. The senior supervising officer’s decision
shall include a reiteration of the charges; a ruling on the charges, including a summary of the supporting evidence and statement of rationale for the decision; if the decision is to terminate the appointment, the effective date of termination; and the appeal process, including the filing deadline.

The Officer of Administration may appeal to the President within ten business days following issuance of the senior supervising officer’s decision. The appeal is made by the Officer of Administration filing with the President a notice of appeal and an explanation of the basis for the appeal. If an appeal is filed, the President will issue a final written decision within twenty business days of receipt of the appeal, a copy of which will be sent to the senior supervising officer. If the Officer of Administration does not appeal within the required time frame, or does not obtain from the President an extension of time within which to appeal for reasonable cause shown, the decision of the senior supervising officer shall be final. Compensation associated with the Officer of Administration appointment shall end as of the effective date of termination. Termination of the administrative appointment does not affect secondary faculty appointment status unless such status is suspended or terminated under procedures otherwise applicable to faculty appointments.

404.3.5 Faculty appointment.
An Officer of Administration who is terminated for cause and who has a preexisting right to assume or resume a faculty appointment, may do so after the appointment ends notwithstanding a termination for cause, unless the faculty status is itself affected under procedures applicable to faculty appointments. This election must be made in writing to the Provost, with a copy to the Dean and academic department chair, within thirty (30) calendar days of notice of termination for cause. Duties associated with the faculty appointment shall resume as soon as feasible in light of Department needs as reasonably determined by the Chair in consultation with the Dean, but ordinarily no later than the first full semester following termination of the Officer of Administration appointment. Residency

Policy Statement

The Vermont Legislature has established a lower rate of tuition for students who are Vermont residents. These regulations define eligibility requirements for in-state status classification. All students at The University of Vermont and State Agricultural College (UVM) shall be assigned an in-state or out-of-state status classification consistent with these regulations. The establishment of domicile in Vermont is necessary, but not sufficient, for a student to qualify for in-state status.

Reason for the Policy

To define criteria for in-state residency status of students in accordance with Vermont Statute (Title 16, Chapter 75, section 2282).

Applicability of the Policy

This policy applies to all University of Vermont students.

Policy Elaboration

In-State Classification Rules

1. Domicile shall mean a person's true, fixed, and permanent home. It is the place at which one intends to remain indefinitely and to which one intends to return when absent.
2. In addition to establishing domicile, an in-state status applicant must reside in Vermont continuously for one full year prior to the semester for which in-state status is sought.
3. A residence or domicile established for the purpose of attending UVM shall not qualify a student for in-state status.
4. An in-state status applicant who applies for admission or registers for class within one year of first moving to the state shall have created a rebuttable presumption that residency in Vermont is for the purpose of attending UVM and/or acquiring in-state status for tuition purposes.
5. A domicile or residency classification assigned by a public or private authority other than UVM neither qualifies nor disqualifies a student for UVM in-state status. Such classification may be taken into consideration, however, in determining the student's status at UVM.

6. It shall be presumed that a student who has not reached the age of majority (18) holds the domicile of his/her parents or legal guardian(s).

7. Receipt of financial support by a student from his/her family shall create a rebuttable presumption that the student's domicile is with his/her family, regardless of whether the student has reached the age of 18.

8. A student who has not reached the age of 18 whose parents are legally separated or divorced shall be rebuttably presumed to hold the domicile of the parent with legal custody.

9. A student of parents legally separated or divorced may be granted in-state status if a noncustodial or joint custodial parent is domiciled in Vermont and has contributed more than 50 percent of financial support for at least one year prior to the semester for which in-state status is sought.

10. The burden of proof as to eligibility for in-state status rests with the student. Eligibility must be established by clear and convincing evidence.

Residency Rules for Members of the Armed Forces and Their Family Members - In compliance with the Higher Education Opportunity Act, the following rules and definitions apply for members of the armed forces, their spouses and dependent children:

1. A member of the armed forces who is on active duty for a period of more than 30 days and whose domicile or permanent duty station is in Vermont, or his or her spouse or dependent children, will be charged tuition at the in-state rate.

2. The member of the armed forces or his or her family member eligible for in-state tuition under this paragraph will continue to be eligible for in-state tuition as long as the individual is continuously enrolled, even if there is a subsequent change in the permanent duty station of the member to a location outside of the State of Vermont.

3. For purposes of this Rule for members of the armed forces the following definitions apply:
   a. “Armed Forces” means the Army, Navy, Air Force, Marine Corps, and Coast Guard.
   b. “Active duty for a period of more than 30 days” means active duty under a call or order that does not specify a period of 30 days or less.
   c. “Active duty” means full-time duty in the active military service of the United States and includes full-time training duty, annual training duty, and attendance, while in the active military service, at a school designated as a service school by law or by the Secretary of the military department concerned. Such term does not include full-time National Guard duty.

Residency Rules for V. A. Beneficiaries – In compliance with section 702 of the Veterans Access, Choice, and Accountability Act of 2014, individuals will be charged tuition at the in-state rate if the individual:
1. is a veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill – Active Duty Program) or chapter 33 (Post-9/11 G.I. Bill), of title 38 United States Code, who lives in Vermont and enrolls in the University within three years of discharge from a period of active duty service of ninety days or more;
2. is anyone using a veteran’s transferred Post-9/11 GI Bill benefits (38 U.S.C. § 3319), who lives in Vermont and enrolls in the University within three years of the transferor veteran’s discharge from a period of active duty service of ninety days or more; or
3. is anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)), who lives in Vermont and enrolls in the University within three years of the Service Member’s death in the line of duty following a period of active duty service of ninety days or more.

After the expiration of the three year period following discharge or death as described in 38 U.S.C. § 3679(c), a student who initially qualifies under this subsection will continue to be charged tuition at the in-state rate as long as he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters or terms) at the University, even if he/she enrolls in multiple programs.

Procedures

In-State Status Classification Documentation:

1. The student must submit with the Application for In-State Status all relevant information.
2. The classification decision shall be made by the Residency Officer based upon information furnished by the student, information requested of the student, and other relevant information available consistent with University policies and procedures and legal guidelines.
3. Additional documents and/or verification may be requested.
4. The student's failure to produce information requested may adversely affect the decision for in-state status.
5. A student or others furnishing information may request the deletion of irrelevant private data from documents.
6. A determination of in-state status is valid only if a student actually enrolls for the semester in question. If a student does not enroll, they must submit a new and timely Application for In-State Status for subsequent semesters.

Appeal of In-State Status Classification:

The decision of the Residency Officer must be appealed in writing to the Residency Appellate Officer within thirty calendar days of the date of the Residency Officer's written decision. Appeal to the Residency Appellate Officer is the final internal appeal at UVM.
In-State Status Reclassification:

1. A student who does not qualify for in-state status classification may reapply for such classification once each semester by submitting the Application for In-State Status to the Residency Officer.

2. In-state status reclassification becomes effective for the semester for which the successful application was made, provided that the Application for In-State Status was received on or before the last day to add/drop classes for that semester. An application may be submitted as early as 75 days in advance of the first day of classes for a semester or as requested by the Residency Officer. Approved residency reclassification will not be applied retroactively to previous terms.

Re-Examination of Classification Status:

Classification status may be re-examined upon the initiative of the Residency Officer in the exercise of sound discretion. Circumstances such as periodic enrollment may be cause for re-examination. An in-state student who leaves Vermont may be required to re-apply and re-establish residency upon returning.
