Along with Vice President Cate, Vice Chair Bain presented Ted with a resolution from the Board of Trustees acknowledging his dedication to the University and personally congratulating him and thanking him for his assistance over the years.

Vice Chair Bain read the following appreciation resolution:

WHEREAS, Ted Winfield is retiring after serving in a distinguished manner in budgetary and financial management positions spanning 30 years at the University Health Center and at the University of Vermont; and

Vice Chair Bain noted that today Michelle Smith is filling in for the vacant staff representative position. He then recognized the service of outgoing Representatives William Vitagliano and Eduardo Cotilla-Sanchez who are both graduating this year.

Vice Chair Bain also mentioned that Chair McAneny was not available for today’s meeting as she is attending her son’s graduation, therefore he would be acting Chair.

Approval of Minutes

A motion was made, seconded and voted to approve the minutes of the April 16, 2012 meeting.

Financial Aid Components

Vice President Cate directed members to Appendix A, a chart showing the financial aid commitments by class cohort and how those commitments have changed between FY 2012 and FY 2013. The analysis showed the likely change between the original budget for FY 2012 of $85.6 million and the projected actual experience as of February 2012 at $80.3 million.

Vice President for Enrollment Management Lucier joined the discussion about using financial aid as a tool to attract diverse groups of students that UVM values to become part of the University community. He indicated that prior year needs are the best predictors for future projections.

Vice President Cate pointed out that there is now available better quantifiable data to track financial aid history and projections. The financial aid growth curve is flattening somewhat and we should gradually see more normal levels of need; it is still increasing, but the need is not as great as it was in recent years. FY 2012 first-time, first year financial aid was budgeted at $22.7 million, and we are projecting $22.8 million for FY 2013.

Trustee Daigle expressed his interest in a smoothing mechanism for when actuals are not as favorable as projected numbers. Members agreed that continuous focus on finding a different, sustainable funding model is needed. Vice President Cate said that there has been discussion about creating a capital pool for that purpose. He foresees bringing more information to the Committee in October for further discussion. Interim President Bramley expressed his concern
about the current funding model. He mentioned the increasing demographic and competitive challenges the University faces. He urged the Committee to constantly look at untapped populations, delivery methods, revenue streams, and other opportunities.

**FY 2013 Proposed General Fund Budget**

Vice President Cate directed members to the Budget Proposal (Appendix D) summary and noted that the total is slightly lower than what was presented in April. The current total, $299,575,000, reflects a 2.4% budget increase compared to the original proposal of a 2.6% at $300,248,000. This new budget is based on the 3.5% tuition increase as was the April budget. The primary change is in the reduced expectation of unrestricted giving which dropped by $444,000. A new line reflecting general fund support for the UVM Foundation (UVMF) was added at the request of Chair McAneny. Also added is a chart that indicates the funds flowing to and from the University and UVMF.

Associate Vice President Winfield walked the Committee through the tuition and student fees proposals including a clarification of the graduate continuous registration fee. He reminded members that what they were acting on was the general fund budget only, not the total University operating budget.

In regards to projected energy costs, Trustee Young commented on the past mild winter and whether projections were based on low heating costs. Vice President Cate explained that due to its highly efficient system, the University’s heating bill does not represent the majority of the utilities costs, and appropriate rates and quantities of gas have been factored into the projection. Electricity makes up the majority of utility expense but since it is a regulated utility, staff will have advance notice of anticipated rate changes.

RESOLVED, that the Board of Trustees hereby approves the budget planning assumptions for Fiscal Year 2013, which lead to a General Fund operating expense budget for the University of $299,575,000, and hereby authorizes the President to proceed with detailed budget preparation in accordance with these assumptions.
A motion was made, seconded, and it was voted unanimously to approve all budget resolutions for recommendation to the full Board.

At 12:19 p.m., Vice Chair Bain recessed the meeting.

At 1:34 p.m., the meeting reconvened.

Bond Refunding

Vice Chair Bain reminded the Committee that the current dramatic drop in interest rates may be an opportunity for the University to save about $4 million (present value), spread over the long term, by refunding up to $82.3 million in bonds. This amount factors in account fees and services. He confirmed that the pending issuance would trigger a rating agency review, which is anticipated to have a favorable outcome.

Vice President Cate informed the Committee that since its April meeting, Chair McAneny appointed Sam Bain, David Daigle, Rob Brennan, and herself to a Bond Refunding Work Group. Based on data provided by Prager & Company, the work group sees value in refunding 1998 and 2002 bonds. However, market conditions would have to improve to move forward with re-issuing 2005 bonds to avoid negative arbitrage. All decisions are subject to Board approval via the Executive Committee. All refunded bonds will retain their original maturity date.

Vice President Cate assured Trustee Branagan that there was no threat of the University losing money through the refunding. The administration will only act within the parameters outlined in the resolution and proceed only if it is a benefit to UVM.

Trustee Young requested adding language to the resolution further clarifying that the Executive Committee has final approval of all decisions. It was decided that the Committee would vote on the resolution as written and if deemed necessary after General Counsel Bazluke’s review an amended version of the resolution would be presented to the full Board for its approval.

The Committee was presented with the following resolution for vote:

**Resolution Approving Issuance of Up to $82.3 Million of Bonds to Refund All or a Portion of the Series 1998, 2002 and 2005 Bonds**

WHEREAS, based on current market conditions there is a favorable refunding opportunity commencing in June, 2012 for refunding all or a portion of the University’s Series 1998, 2002 and/or 2005 Bonds through the issuance of not to exceed $82.3 million principal amount of refunding bonds; and

WHEREAS, at its April 16, 2012 meeting, the Budget, Finance and Investment Committee instructed the Administration to work with Prager & Company to analyze the considerations relating to undertaking a refunding; and
WHEREAS, the Chair of the Budget Finance and Investment Committee has appointed a small working group of Trustees to review and advise the Administration on the final elements of the refunding;

NOW, THEREFORE, BE IT RESOLVED, that the President and the Vice President for Finance and Administration, or their successors or designees, are hereby authorized to proceed with such refunding in consultation with the working group and to execute any and all contracts and documents necessary to undertake the refunding through the issuance of not to exceed $82,300,000 of refunding bonds, with anticipated net present value savings of not less than 3% of the par amount of the refunded bonds and costs of issuance not to exceed 1.25% of the par amount of the refunding bonds; and

BE IT FURTHER RESOLVED, that the President and Vice President shall develop the details of the refunding proposal, to be subsequently submitted for approval by the Board. These refunding recommendations will be brought to the Executive Committee for action if they are fully developed before the fall 2012 Board meeting, and the Executive Committee is hereby authorized to approve the issuance of refunding bonds and the refunding of the outstanding bonds consistent with the terms of this resolution in order that the refunding may expeditiously proceed to take advantage of appropriate market conditions.

A motion was made, seconded, and it was voted unanimously to approve the resolution for recommendation to the full Board.

Report of the Investment Subcommittee (ISC)

- Endowment Performance Update

ISC Chair Samuel Bain welcomed Trustee Rob Brennan to the Investment Subcommittee and provided a brief overview of endowment market values. Approximately two-thirds of the portfolio balance is in equities, a portion are in real assets and venture capital, with very little in bonds, which is by design. The ISC recently added Discovery and Neon in the emerging market space. The Subcommittee reviewed Schiller, who anticipates 8-10.5% of return in equity space in the next 10 years, based on Price to Earnings ratios. Year-to-date, the endowment is up 7.9%, compared to the Cambridge median which is up 6.9%.

At its July meeting, members will meet with three or four existing managers, including one or two hedge fund managers to assist with due diligence requirements. Chair Bain invited any and all members to call in to May’s meeting which will focus on liquid fund managers. He noted that the University is well-invested right now and it is very fortunate to have Trustees Daigle and Brennan serving on the Subcommittee.

Socially Responsible Investing Work Group (SRIWG) Update

Socially Responsible Investing Work Group leader Claire Burlingham updated the Committee on the SRIWG governance white paper, which has been presented to Trustee Bain and will be reviewed by the ISC in the near future.
Despite the lack of response from the students who originally sponsored the proposal for recommendations, the SRIWG reaffirmed its recommendation for divestment from the Sudan. This was based on a review of conditions in the Sudan by a UVM political science professor whose concentration is in Central African study.

Controller Burlingham reported that the SRIWG discussed at length whether or not the review cycle for the resolution to reaffirm divestiture should be extended but concluded that they would not recommend a change. ISC Chair Bain has indicated that the ISC will review the possibility to moving to a three-year review cycle. He reminded members that they currently approve a motion on cluster munitions on a five-year cycle.

Vice Chair Bain presented to the Committee the affirmation resolution brought forth by the ISC.

Vice President’s Report

The Committee reviewed the FY 2012 budget to actual report as of March 31, 2012 distributed at the meeting. Overall revenue and expenses are still tracking at budget. Vice President Cate reported that after taking into consideration anticipated revenues and expenses there should be a very modest positive balance at the end of the fiscal year.

Trustee Brennan asked for explanation of the other income/internal charges which shows a 191% increase. Associate Vice President Winfield explained that this line item reflects activity that is in addition to the operating budget; they are not excess funds.

Vice President Cate informed the Committee that Sodexo has been awarded the three-year non-exclusive UVM Beverage Vending contract. Beginning on January 1, 2013 unflavored, non-carbonated bottled water will not be sold on campus and at least 30% of drinks offered on campus will be healthy drinks.
Other Business

Vice Chair Bain reminded the Committee that at the November 7 BFI meeting they will be looking at summer session rates, endowment policies, asset allocation and debt policy. There being no further business, the meeting adjourned at 2:24 p.m.

Respectfully Submitted,
