

**WELCOME!**

The Tri-state Greenhouse IPM Program is a collaboration among growers and specialists from Maine, New Hampshire and Vermont. This year's workshops offer sessions on pest and disease diagnosis--the foundation of sound IPM, distinguishing pests from the beneficials; and using eggplants to enhance biocontrol and pest detection, plus the latest news about emerging IPM issues.

These workshops are for greenhouse growers of all types, extension specialists and professional pest managers. Growers of all experience levels will learn something new.

**Margaret Skinner, Univ. of VT**  
Entomology Research Laboratory  
661 Spear Street  
Burlington, VT 05405-0105  
Tel: 802-656-5440

**Alan T. Eaton, Univ. of NH**  
Dept. of Plant Biology,  
252 Spaulding Hall  
38 College Road  
Durham, NH 03824-3544
