- Enjoy superior training and support to get the most out of the system

Signing-up is easy

Post jobs & internships

Handshake makes it fast and easy for employers to create their own accounts and post their own opportunities. This also enables employers to do a lot more than we can do for them, including:

- posting to multiple schools at once
- utilizing Handshake's advanced filters to search for students at multiple schools and in multiple regions
- managing the company's brand and messaging to make it stand out to students
- adjusting timelines and updating contacts as needed
- registering for career fairs
- posting events
