Measuring the happiness of words

Goal:

- Our overall aim is to assess how people feel about individual words.
- With this particular survey, we are focusing on the dual emotions of happiness and sadness.

Time required:

6 to 8 minutes.

Instructions and Example:

 You are to rate individual words on a 9 point unhappy-happy scale:

sunshine

- Read the word, ("sunshine" in the above example) and observe your emotional response.
- Click on the face that best corresponds to your response.

Eggheads find Beaumont IS the 'saddest city'

Tuesday, February 19, 2013 by: gator

🖵 Comments(4) 🖂 Email 🖨 Print

rednnneecckckkkkkkkk

2013/02/18 at 8:53 pm (Edit)

I've lived in quite a few places. The most recently Beaumont, TX. Its a pure hellhole. Hot, humid, trashy, terrible schools, corrupt government, lots of crime, no public parks or activities, terrible culture (other than crawfish boils), completely lacks diversity. This study confirms my suspicions that cities don't get any more miserable than this.
