## What schools are saying about Vermont PBIS...

*I have been so pleased with the way the staff has been open and willing to increase the positive praise to our students. We have had 100% staff participation. The attitudes among students and staff have been so positive. I am very proud of our school so far this year!*

— Proctor PBIS Coordinator

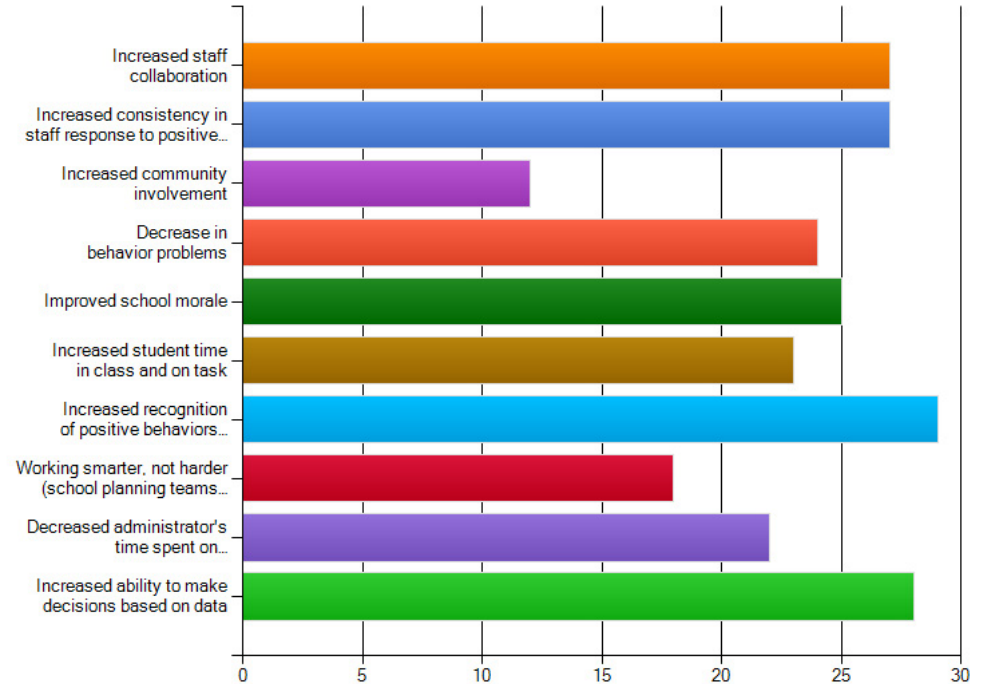

*We saw an almost three time reduction in office referrals between September and May. Wow!”*

— Coventry PBIS Coordinator

*We scored a 90% on the SAS and a 95% on the BOQ!!! Staff know and use our acknowledgement system! Staff know and use the many PBIS interventions to help correct problem behaviors. Many parents use our acknowledgement system at home and our after school program uses it too. We place articles about our school wide celebrations in our town’s newspaper! Community members have participated in our school wide celebrations too. Our referrals have gone down and we are more about prevent, teach and reinforce (solution based) than what we used to be, which was crisis response/consequences. Staff are engaged/happy, enjoy the positive environment, the adult recognitions we have in place and the fun things we do for PBIS...celebrations, videos, t-shirt day, songs, dances...!*
