Feeling Safe, Being Safe

Making your own plan

This tool will help you prepare for an emergency and make sure others understand your special needs and offer correct and useful assistance to you.

In developing your kit you will want to think about general information and also information that is very specific to you. Several specialty pages are included.

You will want to think of:

- Important People To Call
- Being Safe At Home
- A Safe Place To Go
- What You Need to Have At Home
- What You Need to Take With You

You will need to gather copies of important documents and information. If you need help gathering information contact someone who supports you.

Remember to get both your Stay and Go Kits ready and keep them in a place you can get to quickly.

Tip

Being Safe...Feeling Safe

= Being Prepared

**Tip**
Emotional/Behavioral

Different mental health issues/diagnoses can get in the way during an emergency. Explain/list things here that can assist others in working with you.

Checklist Items

Additional Information Cards
□ Emotional/Behavioral □ Medical/Allergies □ Vision
□ Mobility □ Assistive Technology □ Other
□ Communication/Understanding □ Deaf/Hard of Hearing
Please list any ways of communicating that you can come up with that may be helpful during an emergency (for example, one thing at a time; give me time to respond).

When someone tells you something, what is the best way for them to explain it to you so you can understand (for example, ASL, communication boards)? Include samples of visual cards / communication tools for example.
