

In the columns below identify the extent to which each statement is true for each group listed. Use the following key for your answers:

A = Always (or Almost Always) True

S = Sometimes True

N = Not True

STATEMENT	Students without disabilities	Students with disabilities	Your own family
Families know certain aspects of their children better than anyone else.			
Families have the greatest vested interest in seeing their children learn.			
The family is likely to provide the only adults involved with a child's educational program throughout his or her entire school career.			
Families have the ability to positively influence the quality of educational services provided in their communities.			
Families must live with the outcomes of decisions made by educational teams, all day, everyday.
