

TRIPSCY WORKSHOP

Designing and Monitoring Instructional Programs

Mary Ellen Seaver-Reid
Vermont State I-Team

Goals of Session:

1. To review the components needed to develop effective instructional programs for each IEP goal/objective.
2. To learn the teaching methods available for providing specialized instruction.
3. To learn the range of options for data collection and how to decide which to use.
4. To learn why and how to graph instructional program data.
5. To revise/finalize an instructional program including data collection system and graph.

Agenda – A.M.

8:30	Welcome & Introductions
8:40	Community Building Activity - What Motivates Me?
9:00	Teaching Methods Pretest
10:00	Break
10:10	Teaching Methods Activity
10:40	Instructional Program Template
10:55	Wrap-up
11:00	Lunch

Agenda – P.M.

12:00	Welcome & Introductions
12:15	Designing Instruction: Setting the Stage
12:25	Activity: Instructional Program Components
12:30	Review of Instructional Program Components
12:40	Activity: Teaching Methods
1:20	Review of Instructional Program Components (cont.)
1:30	Break
1:40	Review of Data Collection Options
2:00	Activity: Name that Data Collection System
2:15	Review of Graphing
2:35	Activity – Graphing
2:55	Wrap-up/Evaluations

Applied Learning Activity – Finalize instructional program & develop data collection system and/or graph (use one of your own or one of the sample instructional programs)
