Lecturer Position in Materials Engineering and Mechanics at the University of Vermont

The School of Engineering invites applications for a full-time Lecturer position in the Mechanical Engineering program. We seek a highly motivated candidate with strong engineering education credentials who can teach a variety of required undergraduate courses including laboratories, as well as upper-level electives, in the areas of mechanics of materials and materials engineering. Candidates should have a Ph.D. or M.S. in mechanical engineering (or closely related engineering field). Previous College-level teaching experience is highly desirable. Salary will be made at a level appropriate to the successful applicant's qualifications and experience. For further information, please contact the Chair of the Search Committee, Professor Frederic Sansoz (frederic.sansoz@uvm.edu).

Applications must be submitted on line at www.uvmjobs.com (search posting # 033215). Applicants should provide a cover letter that highlights expertise and teaching experience, a current CV and the names of three references. The search will continue until the position is filled, but applicants are encouraged to submit applications by April 30, 2010.

The University of Vermont is an Affirmative Action/Equal Opportunity employer. All departments are committed to increasing faculty diversity and welcome applications from women and underrepresented ethnic, racial and cultural groups, and from people with disabilities. The University is committed to building a culturally diverse educational and research environment.
