College of Engineering and Mathematical Sciences
Summer Internship Program 2015

Internship Position/Title:
Engineer In Training (EIT) or summer interns for mechanical, electrical, chemical, civil, industrial, automation engineers.

Company Name:
Omya Inc.

Location of internship:
Florence, Vermont

Company Overview:
Manufacturer of calcium carbonate. We take rock from our quarries and grind it down into microns in size. Our product remains as a slurry form or is dried and packaged. Our product is used by customers in the paint, paper and plastics industries.

Job/Project Description:
Assist with engineering projects, through the application of education and experience. Work with various contractors, vendors and engineers on site. Assist with the design, set up, data entry of information, and various other engineering related tasks.

Required Skills & Qualifications:
AutoCAD or similar software experience
Mechanical aptitude
Industrial interests
Ability and interest to work in the plant away from an office setting.
Ability to work in extreme temperatures.
Ability to work with maintenance technicians, managers and engineers.

Additional Preferred Skills & Qualifications:

Start & End Dates:
Begin in summer 2015, potential hires for EIT.

Hours/week:
5 days per week 8 hours per day.

Salary/Compensation:
Between $17.00/hr and $22.00/hr

Company Supervisor Name:
May vary depending on department. HR is always a common.
Opportunity for students to continue working part-time during the school year?

☐ Yes Yes, could be a potential.
☐ No

Additional Comments:
Would like to arrange interviews at the plant, to give a tour and introduce to the work environment.
We are located 1.25 hours from UVM. At this time, we do not have any company housing.
