The student will have the opportunity to learn about the development of a department from a director’s and a new professional’s perspective. The student will have the opportunity to participate in staff meetings, Student of Concern meetings, and other departmental related initiatives. Given that we are a small department we anticipate supervision to be shared depending on projects/interests. The tasks and projects will depend on the student’s interests and departmental needs.

Specific tasks or projects may include (but are not limited to) the following:

1. Gain an understanding of overall department functions, including the student conduct process, Title IX investigations and academic integrity.
2. Serve as a Hearing Officer
3. Participate in education and outreach
4. Connect with professional staff on campus at various levels to understand the many professional opportunities in student conduct
5. Learn the holistic nature of student conduct on a small campus, including: creative sanctioning and standard of care
