

**Environmental Studies Major**  
**Environmentally-related Breadth Requirements**

The ENVS major consists of a set of core courses and an individually-designed concentration. Among the courses required for the major are four breadth area courses which develop your understanding of different approaches to environmental problem solving. The course list below may be useful for your personal planning, however, new courses are being designed all the time. You may propose these or other courses as appropriate to your interests for approval in ENVS 151 or by your advisor.

**ENVS Courses**

*These courses have been approved by the Environmental Program faculty to fulfill the environmentally-related breadth requirements for the major.*

***Natural Science*** (courses with field component strongly encouraged)

ENVS 156	Permaculture
ENVS 173	Landscape Natural History
ENVS 177	Introduction to Landscape Restoration
ENVS 195	Natural History of Vermont
ENVS 195	Therapeutic Herbalism
ENVS 195	Practical Field Ecology

***Humanities***

ENVS 166	Environmental History of North America
ENVS 178	Environmental Ethics
ENVS 179	Ecofeminism
ENVS 180	Radical Environmentalism
ENVS 182	Religion and Ecology
ENVS 195	Global Environmental History
ENVS 195	Nature Drawing
ENVS 196	Exploring Vermont Natural History through Photography
ENVS 195	Environmental Journalism
ENVS 197	Ecopsychology
ENVS 295	Ecopolitics and the Cinema
ENVS 295	The Culture of Nature
ENVS 295	North American Environmental History

***Social Sciences***

ENVS 174	Natural Areas Conservation and Stewardship
ENVS 195	Ethnobotany
ENVS 195	Introduction to Ecological Economics
ENVS 195	Community Forestry at Home and Abroad
ENVS 195	Unlearning Consumerism
ENVS 195	Media Literacy and the Environment
ENVS 195	Energy and the Environment
ENVS 195	Traditional Ecological Knowledge
ENVS 195	Transportation and the Environment
ENVS 197	Environmental Justice
ENVS 293	Environmental Law
ENVS 294	Environmental Education
ENVS 295	Environmental Conflict Resolution
ENVS 295	Eastern Wilderness: History, Science & Policy

***International Study***

ENVS 195	Traditional Ecological Knowledge
ENVS 195	Travel study courses to Costa Rica, Belize, Brazil, Tanzania, Scotland, etc.
ENVS 295	Environmental Conflict Resolution
ENVS 295	Environmental Peace Movements
ENVS 295	Environmental Planning and International Development
ENVS 295	The Circumpolar World

Depending on the nature of the topic, some of these may also fulfill the requirements; please consult with your advisor.

ENVS 191	Environmental Practicum
ENVS 195	Special Topics courses
ENVS 1XX	Study Abroad transfer courses
ENVS 197	Students Teaching Students courses
ENVS 204	Senior Seminar

### **Non-ENVS courses**

*These courses are suggested as potentially appropriate for fulfilling the environmentally-related breadth requirements for the major. As much as possible, your choice of courses should reflect the focus of your overall concentration within the individually-designed portion of your ENVS major. Please consult your advisor to consider which of these courses may be most appropriate for you.*

#### **Natural Science** (courses with field component strongly encouraged)

BCOR 102	Ecology and Evolution	NR 103	Ecological Processes (for non-RSENR)
BIOL 102	Environmental Biology	NR 107	Environment and Human Health
BIOL 209	Field Zoology	NR 224	Conservation Biology
BOT 109	Systematics and Phylogeny	PSS 161	Fundamentals of Soil Science
BOT 160	Plant Ecology	PSS 197	Composting
FOR 126	Forest Ecology Field Trip	PSS 212	Advanced Agroecology
GEOG 142	Physical Geography	WFB 130	Ornithology (laboratory encouraged)
GEOG 143	Climatology	WFB 271	Wetlands Wildlife
GEOL 101	Field Geology	WFB 279	Marine Ecology
GEOL 172	Regional Geology		

#### **Humanities**

ENG 172	Colonial and Post-Colonial World Lit	HST 295	North American Environmental History
ENG 195	Reading the American Wilderness	REL 104	Mysticism, Shamanism, and Possession
HP 201	Architecture, Landscape and History	REL 195	Sacred Space and the Environment
HST 195	Global Environmental History	WST 174	Women, Science and Nature

#### **Social Sciences**

ANTH 179	Cultural Ecology	NR 153	Introduction to Environmental Policy
ANTH 195	Environmental Anthropology	NR 285	Educating for a Sustainable Future
ANTH 195	Food and Culture	POLS 195	U.S. Environmental Politics
CDAE 102	Sustainable Community Development	POLS 295	Global Environmental Politics
CDAE 205	Rural Communities in Modern Society	RM 230	Ecotourism
CDAE 208	Agricultural Policy and Ethics	RM 240	Wilderness and Wilderness Management
CDAE 218	Community Org & Development	SOC 102	Population, Environment, and Society
CDAE 237	Economics of Sustainability	SOC 195	Our Consuming Society
ECON 165	Environmental Economics	SOC 203	Advanced Environmental Sociology
ECON 260	Globalization and Poverty	SOC 213	Women & Development in Third World
GEOG 173	Political Ecology	SOC 295	Environmental Justice
GEOG 195	Population Geography	WFB 175	Wildlife and Society
GEOG 278	Gender, Space and Environment		

#### **International Study**

ANTH 101	Anthro of Third World Development	CDAE 272	International Economic Development
ANTH 195	Environmental Anthropology	NR 262	Internat'l Problems Nat Resources Mgt
ANTH 283	Colonialism	POLS 295	Global Environmental Politics
CDAE 171	Comm & Internat'l Econ Transformation	POLS 295	International Environmental Policy
CDAE 237	Economics of Sustainable Development	SOC 213	Women & Development in Third World
