Note: When approved by the director of the Environmental Program, this plan constitutes the student's course requirements for the Major in Environmental Studies. Any changes in the Major Core, Senior Thesis and Project, and Individually-Designed Program must be approved by the Director. Consult with your advisor prior to requesting approval for changes.

Completion of other University and College/School requirements for graduation is the student's responsibility. Consult the University Catalogue for specific requirements (total number of credits; college/school core requirements; distribution courses; physical education; etc.). If you have any questions consult the dean of your college or school.
