**GIS Internship Program**

**Internship Title**
GIS Intern

**Eligibility**
United States Citizen

**Location**
The ACIN Center  
Waterfront Technology Center  
Suite 300  
200 Federal Street  
Camden, NJ 08103

**Compensation**
$15.00 per hour  
Approximately 32 hours per week

**Contact**
Jeff Elmer – jelmer@vortechx.com  
Phone: (732) 291-6025

**Summary of Internship**
To provide a fostering environment in which an individual can obtain an understanding of how Geographic Information Systems and Information Technology are implemented to provide a working GIS solution.

**Essential Job Duties**
Responsibilities include:

- Ability to lift 50 lbs.
- Learn basic terminology, functionality, and identification of computer related equipment
- Learn how we have applied GIS theory and technology
- Assist the team with other project task assignments as needed

**Reporting**
Bi-Weekly one page summary of the accomplishments and tasks and their status is due on Fridays. At the end of the Internship the student will have increased their knowledge of computer terminology, functionality, and identification of computer information system components. The student will be able to articulate how we have applied GIS principals to achieve an innovation request. The final report is in the form of a summary highlighting the lessons learned throughout the internship. We welcome constructive criticism that will enable us to develop our internship program going forward.
