

# How we know what we know about Geomorphology

*Major journals (\* not held by UVM, or limited years available)*

Geomorphology  
Earth Surface Processes  
Nature Geoscience\*  
Journal of Geophysical Research - Earth Surface\*  
Quaternary Research  
Quaternary Science Reviews  
Geology  
Geological Society of America Bulletin  
See a full listing at: <http://www.aag-gsg.org/resources/journals.shtml>

---

*How to find a paper?*

Google title and authors and add PDF  
Got to UVM libraries page: <http://library.uvm.edu>  
Click on *Find Articles*  
Click on *Journal Titles*  
Google Scholar  
Find one paper and follow links from publisher to others including live bibliographies  
(Elsevier journals like Geomorphology do this especially well)

---

*Major textbooks/references/open files/maps*

Ritter - Process Geomorphology (great but dated references, strong process focus)  
  
Bloom - Geomorphology: A Systematic Analysis of Late Cenozoic Landforms (landform and time focus)  
  
Bierman and Montgomery – Key Concepts in Geomorphology (most recent, mix of process and history)  
  
Maps – UVM map room, library basement  
Government document repository, library basement

---

*Major websites for Geomorphology*

Google Earth!  
British geomorphology - <http://www.geomorphology.org.uk>  
Physical Geography - <http://www.physicalgeography.net>
