October 18, 2017

Dear Garden Space grower,

It is with great regret and sadness that we have to announce that we will not be able to support the Garden Space Program for 2018 growing season.

We have had an influx of research and teaching projects this fall due to some recent faculty hiring. The winter-spring season is looking even more active with large research projects, more than we have hosted in the last ten years. The increased activity will impact all of the Greenhouse Facilities. With available space at a critical low during the majority of the spring growing season we have reluctantly decided to suspend the Garden Space Program for the coming year.

Looking forward, we believe that during the growing season of 2019 we will again be able to host the Garden Space Program. We will keep you apprised as to the Program's status and number of spaces available.

The Main Campus Greenhouse is always open to visitors. We hope to see you soon.

Sincerely,

Colleen Armstrong, Tom Doubleday, and David Heleba

UVM Greenhouse Staff
