

NUCLEAR MEDICINE TECHNOLOGY PROGRAM

COMPETENCY EVALUATION - RADIOPHARMACY

Student: _____ Date: _____

Hospital: _____

1 = satisfactory, 0 = unsatisfactory, **NATO** = not able to observe, **NA** = Not applicable

- ____ 1. Wears film and ring badge daily
- ____ 2. Wears disposable gloves and lab coat when working in hot lab
- ____ 3. Performs wipe test and surveys packages
- ____ 4. Elutes generator
- ____ 5. performs ⁹⁹Mo assay
- ____ 6. Uses pre-established technique in preparing radiopharmaceutical kits
- ____ 7. Uses aseptic technique.
- ____ 8. Performs quality control procedures on dose calibrator.
- ____ 9. Performs quality control procedures on radiopharmaceutical kits
- ____ 10. Demonstrates proper record keeping and labels vials.
- ____ 11. Checks expiration dates on radiopharmaceutical kits
- ____ 12. Calculates and draws up doses
- ____ 13. Properly disposes of radioactive materials
- ____ 14. Demonstrates ability to handle contamination
- ____ 15. Practices good housekeeping in hot lab
