

Instructions for Draft I

PSS 195 Sustainable Development Film Series

Monday, September 27, 2004

1. Draft I is due by the start of class **7 pm on Wednesday, October 13th**.
2. **Save your outline with the grading worksheet.** You will turn this in with your first draft. I will only use this for general landmarks when the first draft is reviewed.
3. At the top of your draft again indicate the purpose of your paper, intended audience, and thesis statement. This will probably evolve over time and that is expected.
4. **In draft one I am expecting 5 pages of writing.** I am most interested in seeing the Introduction to your thesis and some supporting information.
5. In addition to the 5 pages turn in the literature cited section you have so far so that I can comment on your sources. You must use the format I have given you in class or points will be deducted. http://www.ashs.org/downloads/style_manual.pdf (page 23 for examples).
6. Remember for each individual website you cite you must turn in a website evaluation worksheet. http://www.uvm.edu/~pass/tignor/filmseries_files/Webevaluation.pdf
7. **Format:** Use only Times New Roman Font 12 point size. Pages should have 1 inch margins on all 4 sides. Use double line spacing everywhere but the literature cited section. For the literature cited use single spacing with one blank line between each separate citation. Insert page numbers on the lower right corner of the page.
8. If you have any additional questions e-mail me for clarification.
