

MONDAY, SEPTEMBER 14

Best Management Practices for Livestock & Equine Pastures

hosted by Triple Combination Farm, Ferrisburg, VT

Is it possible for horse owners and managers to successfully join happy horses, clean water, healthy soils and diverse plants? Yes!

Join Drs. Betsy Greene and Rachel Gilker of UVM, and Dr. Carey Williams of

Rutgers University at a workshop hosted by Triple Combination Farm. The best management practices covered will include high traffic area and water quality challenges, pasture management for the greatest rewards and forage plant identification. Dr. Williams has been working closely with her own equine school to address these issues, and brings a fresh perspective to some age-old questions.

DATE: September 14, 2009

TIME: 11:30 am to 1:30 pm. Bring a brown bag lunch, refreshments provided.

COST: \$5 to attend. Please RSVP for planning purposes!

DIRECTIONS: 579 Dakin Rd, Ferrisburgh, VT, approximately 16 miles south of Burlington just off Rte. 7. For a map, visit: www.triplecombinationfarm.com

QUESTIONS? Jenn Colby, (802) 656-0858, jcolby@uvm.edu, www.uvm.edu/pasture

Sponsored by:

UVM Extension's Equine Program and the VT Pasture Network Program at the UVM Center for Sustainable Agriculture, with support by Northeast SARE and USDA Natural Resources Conservation Service Grazing Lands Conservation Initiative.

Issued in furtherance of Cooperative Extension work, Acts of May 8 and June 30, 1914, in cooperation with the United States Department of Agriculture. University of Vermont Extension, Burlington, Vermont. University of Vermont Extension, and U.S. Department of Agriculture, cooperating, offer education and employment to everyone without regard to race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or familial status. If you require accommodations or financial assistance to participate in this program, please let our office know (802-656-5459) by September 7 so we may assist you.
